Poker Winners Are Different: Alan N. Schoonmaker, 2010-04-19 What Makes Winners Win? Every serious poker player knows there's a big difference between playing well and winning: Winners successfully master specific attitudes and habits. What Do I Need To Win? It's right in your hands. Poker guru Dr. Alan N. Schoonmaker explains the key skills that enable winners to bring in the money. With his expert guidance you can master them, too. You'll learn to: • Manage risk and information • Develop better discipline • Improve your decision-making processes • Focus on the right issues • Choose the information you give others • Control your reactions to feelings • Act decisively By mastering the behaviors and skills that Schoonmaker teaches, you'll be able to play more confidently--and win more often. Alan N. Schoonmaker, Ph.D, is the author of Your Worst Poker Enemy, Your Best Poker Friend, and the top-selling The Psychology of Poker; he is also a columnist for Card Player magazine. He received his Ph.D. in psychology from UC Berkeley, and has conducted research and taught at UCLA, Carnegie-Mellon, and Belgium's Catholic University of Louvain. He lives in Las Vegas.

You Are Not Your Own Alan Noble, 2021-10-12 Modern life tells us that it's up to us to forge our own identities and to make our lives significant. But the Christian gospel offers a strikingly different vision—one that reframes the way we understand ourselves, our families, our society, and God. Contrasting these two visions of life, Alan Noble invites us into a better understanding of who we are and to whom we belong.

Winners & Losers Jill Le Clair, 1992 Winners and Losers: Sport & Physical Activity in the 90s is an introduction to the role of sports and recreation activity in Canadian society in the 1990s. Students will find this book interesting. It presupposes only an interest in sport and then takes the student through the issues in Canadian sport today. It is written at a level that is accessible to students who have never taken a course in this area. Winners and Losers includes material on the federal and provincial organization of Canadian sport, culture and competition, women and minorities, the business and economics of sport, and the use of performance-enhancing drugs. A recurring theme is the role of women, minorities and persons with

disabilities and the pressing need to redefine sport and recreation to ensure equal access for all. Included are 50 profiles of important Canadian sports figures, many based on personal interviews with the author. There are approximately 300 boxed inserts and 120 photographs. For the student's benefit, key words are highlighted throughout the text. The book also contains tables, charts, figures, and descriptions of important sports facts. At the end of each chapter are review questions, key terms and concepts, and essay questions.

Socialism for Soloists William Edmundson, 2021-06-22 The idea of socialism is making a comeback, particularly among rising generations. Their interest is likely to prove transitory, however, if socialism ignores their yearning for individual autonomy. Why should “soloists” embrace socialism? In this highly original new book, William Edmundson argues that there are compelling reasons for even the most resolute of individualists to embrace socialism. Political equality is incompatible with private ownership of the means of production – which today incorporates not only the highway system, the currency, and the power grid but also platforms like Amazon, Facebook, and Google. Socialism is therefore essential to protect the basic liberal rights and freedoms that underpin our social contract. This pathbreaking defence of liberal democratic socialism will be essential reading not only for all on the left, but also for students and scholars of liberalism, libertarianism, and the social contract.

The Dynamics of Managing Diversity Gill Kirton, Anne-Marie Greene, 2010-05-14 For anyone looking to develop a career in HR or business management, understanding the contexts, policies and practices for developing a sustainable and high performing, diverse workforce is a must. The Dynamics of Managing Diversity was one of the first books to respond to growing academic coverage of the topic of diversity management at degree level. This third edition has been fully updated to reflect new working practice, statistical information and equality and diversity law, as well as including new case studies and information on International policies outside the UK and Europe. Diversity management is a term that covers not only race, disability and sex discrimination, but also broader issues such as individual and cultural differences. The Dynamics of Managing Diversity, third edition, can help to prepare HR and business managers of the future with the legal information and research findings to enable them to develop meaningful diversity policies in their organizations. With:

- Accessible text including key learning points, activities and discussion questions
- Practical case studies to illustrate the real-life issues in a local, international and organizational context
- A new companion and lecturer website, featuring tutor support materials

and links to useful sites and additional information Kirton and Greene present the subject of diversity management in a logical and structured manner, beginning each chapter with aims and objectives, and ending with discussion questions. This is the perfect support resource for those teaching or studying in the field of equality and diversity. Gill Kirton, Reader in Employment Relations at the School of Business and Management, Queen Mary, University of London and licentiate member of the CIPD. Anne-marie Greene, Reader in Industrial Relations in the Industrial Relations and Organisational Behaviour Group, Warwick Business School, graduate member of the CIPD. Making Strategy Fran Ackermann, Colin Eden, 2011-09-19 Electronic Inspection Copy available for instructors here 'Demystifies strategy making while at the same time deepening our understanding of what the process entails. Their work is a marvellous guide for those striving to make sense of complexity' - Karl E. Weick, Rensis Likert Distinguished University Professor of Organizational Behavior and Psychology, University of Michigan 'This book is at the very cutting edge of strategic management theory and yet also of immense practical use. It is truly a rare and stunning achievement' - John M Bryson, McKnight Presidential Professor of Planning and Public Affairs, Hubert H. Humphrey Institute of Public Affairs, University of Minnesota 'Using this book enabled me to facilitate a multicultural team of seven managers so that they very quickly got to grips with the challenges and opportunities facing the organization and developed a realistic workable strategy, whilst at the same time building a real sense of team cohesion and the feeling that individuals had been listened to' - Alison Devine, Director, British Council, Taipei This lucid and highly-accessible text addresses the challenges of how to build a robust and implementable strategy. Strategy making is seen as something relevant to managers of departments, divisions, SME's, as well as the top management teams of public and for-profit organizations. Four key routes to creating a strategy are discussed. These routes, when taken together, provide a powerful means for agreeing a negotiated strategy, and comprise: strategic issue management, agreeing organizational purpose, competitiveness from the exploitation and protection of distinctiveness, and the strategic management of stakeholders. The designs have been used extensively, in a wide range of countries, by management teams in all types of organisations. Companion materials available here
