**Antero Garcia**

Critical Foundations in Young Adult Literature: Challenging Genres Antero Garcia, 2013-10-11 Young Adult literature, from *The Outsiders* to *Harry Potter*, has helped shape the cultural landscape for adolescents perhaps more than any other form of consumable media in the twentieth and twenty-first century. With the rise of mega blockbuster films based on these books in recent years, the young adult genre is being co-opted by curious adult readers and by Hollywood producers. However, while the genre may be getting more readers than ever before, Young Adult literature remains exclusionary and problematic: few titles feature historically marginalized individuals, the books present heteronormative perspectives, and gender stereotypes continue to persist. Taking a critical approach, *Young Adult Literature: Challenging Genres* offers educators, youth librarians, and students a set of strategies for unpacking, challenging, and transforming the assumptions of some of the genre's most popular titles. Pushing the genre forward, Antero Garcia builds on his experiences as a former high school teacher to offer strategies for integrating Young Adult literature in a contemporary critical pedagogy through the use of participatory media.

*Beyond the Blockbusters* Rebekah Fitzsimmons, Casey Alane Wilson, 2020-03-18 Contributions by Megan Brown, Jill Coste, Sara K. Day, Rachel Dean-Ruzicka, Rebekah Fitzsimmons, Amber Gray, Roxanne Harde, Tom Jesse, Heidi Jones, Kaylee Jangula Mootz, Leah Phillips, Rachel L. Rickard Rebellino, S. R. Toliver, Jason Vanfosson, Sarah E. Whitney, and Casey Alane Wilson While critical and popular attention afforded to twenty-first-century young adult literature has exponentially increased in recent years, classroom materials and scholarship have remained static in focus and slight in scope. *Twilight*, *The Hunger Games*, *The Fault in Our Stars*, and *The Hate U Give* overwhelm conversations among scholars and critics—but these are far from the only texts in need of analysis. *Beyond the Blockbusters: Themes and Trends in Contemporary Young Adult Fiction* offers a necessary remedy to this limiting perspective, bringing together essays about the many subgenres, themes, and character types that have until now been overlooked. The collection tackles a diverse range of topics—modern updates to the marriage plot; fairy tale retellings in dystopian settings; stories of extrajudicial police killings and racial justice. The approaches are united, though, by a commitment to exploring the large-scale generic and theoretical structures at work in each set of texts. As a collection, *Beyond the Blockbusters* is an exciting entryway into a field that continues to grow and change even as its works captivate massive audiences. It will prove a crucial addition to the library of

any scholar or instructor of young adult literature.

*Imaginative Criminology* Lizzie Seal, Maggie O'Neill, 2019-07-10 This distinctive and engaging book proposes an imaginative criminology, focusing on how spaces of transgression are lived, portrayed and imagined. These include spaces of control or confinement, including prison and borders, and spaces of resistance. Examples range from camps where asylum seekers and migrants are confined, to the exploration of deviant identities and the imagined spaces of surveillance and control in young adult fiction. Drawing on oral history, fictive portrayals, walking methodologies, and ethnographic and arts-based research, the book pays attention to issues of gender, sexuality, age, ethnicity, mobility and nationality as they intersect with lived and imagined space.

**Electric Sheep Slouching Towards Bethlehem** Harry Eiss, 2014-03-25 On Monday, 8:15 a.m., August 6, 1945, the world changed forever. In the single largest act of destruction ever initiated by humans, a bomb with the equivalent force of 20,000 tons of TNT shattered Hiroshima, killing tens of thousands of civilians, people who had become used to the American war planes flying overhead, planes that were purposely not dropping bombs on their city, to the point where the rush to the bomb shelters had become lackadaisical, and the normal activities continued with little interruption – getting the children up and off to school, opening the many small retail stores for the daily customers, perhaps stopping at a local café for morning coffee or tea, perhaps joining in on the group exercise classes. This is the precise instant we entered the postmodern world, one where the easy truths of centuries no longer applied. Speculative Fiction projects real possibilities beyond the now shattered assumptions, moving through marginalized fictional landscapes – science fiction, fantasy, horror, weird fiction, supernatural fiction, superhero comics, graphic novels, and movies, utopian and dystopian fiction, apocalyptic and post-apocalyptic fiction, Cyber Punk, the New Wave, as well as related static, motion, and virtual arts, including everything from graphic novels to video games.

*Edge of the Kingdom* William Walker, 2017-04-27 She is a free spirit of the night. He is a soldier that defends the light. They get an opportunity to talk about life and discover an eternal connection for just one night. Once they realize the connection between their hearts, she tries to get him to discover something deep inside. The goal is to find the spirit of God from within the third eye. Her method to find God is unique and requires a leap of faith. But he has a hard time letting go of what he already believes. They are polar opposites, but together they seem to balance each other out. They are a match made in heaven, and all they have to do is survive a brief separation. He is heading off to hell to fight for freedom, while she is trying to create a heaven on earth. Only time will tell if their efforts can create a rebirth.

**Women Who Kill** David Roche, Cristelle Maury, 2020-02-20 *Women Who Kill* explores several lines of inquiry: the female murderer as a figure that destabilizes order; the tension between criminal and victim; the relationship between crime and expression (or the lack thereof); and the paradox whereby a crime can be both an act of destruction and a creative assertion

of agency. In doing so, the contributors assess the influence of feminist, queer and gender studies on mainstream television and cinema, notably in the genres (film noir, horror, melodrama) that have received the most critical attention from this perspective. They also analyse the politics of representation by considering these works of fiction in their contexts and addressing some of the ambiguities raised by postfeminism. The book is structured in three parts: Neo-femmes Fatales; Action Babes and Monstrous Women. Films and series examined include *White Men Are Cracking Up* (1994); *Hit & Miss* (2012); *Gone Girl* (2014); *Terminator* (1984); *The Walking Dead* (2010); *Mad Max: Fury Road* (2015); *Contagion* (2011) and *Ex Machina* (2015) among others.

**Better World** Autumn Kalquist, 2015-06-16 The last humans spent centuries searching for a new Earth. Now they face extinction. For three hundred years, arks have carried the last remnants of humanity through dark space. The ships are old, failing, and every colonist must do their duty to ensure the fleet's survival. Maeve is a metalworker, toiling in the blistering sublevels of the London. She's lost friends and family to the hazardous work conditions and fears every job she's assigned could be her last. All she wants is a little control over her life, but the oppressive sublevel enforcers ensure that's not an option. Now, after decades of traveling, the ships have finally reached their destination: Soren, a toxic planet that may have the resources they desperately need. But mining a planet comes at a price, and Maeve and the other workers will be expected to pay it with their lives. If a better world awaits, Maeve's sure to be dead long before the fleet finds it... unless she finds a way to control her destiny and change it. keywords: free science fiction books, free sci fi books, free science fiction, free sci fi, free space books, free space opera books, free ebooks, fiction books free, sci fi books free, science fiction books free, free mystery books, genetic engineering, space colony, space colonization, space opera, apocalypse, post-apocalyptic, generation ship, end of the world, space battle, space explorer, science fiction best sellers, top sci-fi books, top science fiction books, best sci-fi fantasy books, genetic engineering science fiction series, best science fiction novels, genetic engineering, space colony, space colonization, space opera, apocalypse

**Child Activist Literature at the Turn of the 2020s** Niall C. Nance-Carroll, 2024-10-29 Child Activist Literature at the Turn of the 2020s: From Kids You Read About to Kids You Read looks at how today's child activists are not just followers in their forekids' footsteps, but blazers of new pathways, employing sophisticated rhetorical strategies that invert and subvert conventional thinking on the roles of children in politics. These young activists situate their work within a dense web of texts—the ones they read, the ones they write, and the ones that they expect adults to deploy to dismiss them. Nance-Carroll analyzes texts authored by child activists alongside narratives of youth activism in literature and media and the stories activists tell about themselves and their work, exploring issues of influence, inspiration, and authorship in child activist literature, as a growing body of work challenges not just adults' assumptions about children and politics, but also some fundamental disciplinary tenets of children's and young adult literature.

*Apocalyptic Projections* Annette M. Magid, 2015-06-18 Apocalyptic Projections have been pondered since Biblical times. Theories abounded in an attempt to prepare for calamity and plan for the future. Worldwide concern regarding a twenty-first century apocalypse, related to the 2012 Mayan Apocalyptic prediction, sparked renewed interest. Even though the concept of apocalypse evokes images of total oblivion, threads of possibility and redemption offer a potential fabric of hope. The majority of the papers included in *Apocalyptic Projections* were p ...

Is climate fiction merely a subgenre of science fiction, or could we already classify it as a genre of its own? How do we understand the cultural context of such narratives, and what realities do climate fiction draw from? A link to James Dashner's novel *Maze Runner: The Scorch Trials* is to be made by looking into dystopian narratives and current pressing climate issues portrayed in *The Maze Runner: Scorch Trials* through climate fiction narration.
