The Little Republic Karen Harvey,2012-04-19 Reconstructs the distinctive relationship between the house and masculinity in the eighteenth century; adds a missing piece to the history of the home, uncovering the hopes and fears men had for their homes and families. Reveals how the public identity of men has always depended, to a considerable extent, upon the roles they performed within doors.

Grammar Wars: Language as Cultural Battlefield in 17th and 18th Century England Linda C Mitchell,2017-09-20 This title was first published in 2001: Although 17th- and 18th-century English language theorists claimed to be correcting

errors in grammar and preserving the language from corruption, this new study demonstrates how grammar served as an important cultural battlefield where social issues were contested. Author Linda C. Mitchell situates early modern linguistic discussions, long thought to be of little interest, in their larger cultural and social setting to show the startling degree to which grammar affected, and was affected by, such factors as class and gender. In her examination of the controversies that surrounded the teaching and study of grammar in this period, Mitchell looks especially at changing definitions and standardization of grammar, how and to whom it was taught, and how grammar marked the social position of marginal groups. Her comprehensive study of the contexts in which grammar was intended or thought to function is based on her analysis of the ancillary materials - prefaces, introductions, forewords, statements of intent, organization of materials, surrounding materials, and manifestos of pedagogy, philosophy, and social or political goals - of more than 300 grammar texts of the time. The book is intended as a landmark study of an important movement in the foundation of the modern world.

Defoe's Footprints Robert M. Maniquis, Carl Fisher, 2009-01-01 In *Defoe's Footprints*, essays by prominent scholars of eighteenth-century literature salute Maximillian E. Novak's influence upon the study of Daniel Defoe. Best known today as the author of *Robinson Crusoe*, Defoe was a prolific writer in the late seventeenth and early eighteenth centuries who wrote novels, essays, pamphlets, and poems. Widely extending Novak's perspectives, this volume explores Defoe's place in the English novel and in literary developments of mimesis, realism, and popular mythology. The contributors locate Defoe in new ways within the complex symbolism and discourse of a turbulent world of burgeoning capitalism, Protestantism, imperialism, and economic speculation. With attention to Defoe's neglected writings as well as to his important works, this volume uncovers his distance from and influence on modern literature, paying tribute to Maximillian E. Novak by presenting new ideas about, and new readings of, Daniel Defoe.

George Egerton Isobel Sigley, Whitney Standlee, 2024-11-26 *George Egerton: Terra Incognita* is the first published work to focus solely on Egerton and her literary legacy. It covers the range and extent of Egerton's life and literary career from her emergence into the milieu of London publishing in 1893 to her dramatic works (both original and in translation) and their performance history into the 1920s. This work is an essential addition to ongoing recovery projects and is the first to focus on her 'lost' and unpublished works, mentorship of younger writers, her experiments with characterisations and themes, sociopolitical stances, innovations with form and content, and ultimately, her literary legacy. In doing so, *George Egerton: Terra Incognita* reassesses Egerton's broader contribution to fin-de-siècle and early-twentieth-century literature and drama and repositions her as among the most important of the literary innovators of period, and a noteworthy precursor to later female literary modernisers, including Katherine Mansfield, Dorothy Richardson, Elizabeth Bowen and Virginia Woolf.
