

Even In His Youth Lyrics

O García

The Pleasures of Death Arthur Flannigan Saint-Aubin, 2020-12-09 The year 2019 marked the twenty-fifth anniversary of the death of Kurt Cobain, an artist whose music, words, and images continue to move millions of fans worldwide. As the first academic study that provides a literary analysis of Cobain's creative writings, Arthur Flannigan Saint-Aubin's *The Pleasures of Death: Kurt Cobain's Masochistic and Melancholic Persona* approaches the journals and songs crafted by Nirvana's iconic front man from the perspective of cultural theory and psychoanalytic aesthetics. Drawing on critiques and reformulations of psychoanalytic theory by feminist, queer, and antiracist scholars, Saint-Aubin considers the literary means by which Cobain creates the persona of a young, white, heterosexual man who expresses masochistic and melancholic behaviors. On the one hand, this individual welcomes pain and humiliation as atonement for unpardonable sins; on the other, he experiences a profound sense of loss and grief, seeking death as the ultimate act of pleasure. The first-person narrators and characters that populate Cobain's texts underscore the political and aesthetic repercussions of his art. Cobain's distinctive version of grunge, understood as a subculture, a literary genre, and a cultural practice, represents a specific performance of race and gender, one that facilitates an understanding of the self as part of a larger social order. Saint-Aubin approaches Cobain's writings independently of the artist's biography, positioning these texts within the tradition of postmodern representations of masculinity in twentieth-century American fiction, while also suggesting connections to European Romantic traditions from the nineteenth century that postulate a relation between melancholy (or depression) and creativity. In turn, through Saint-Aubin's elegant analysis, Cobain's creative writings illuminate contradictions and inconsistencies within psychoanalytic theory itself concerning the intersection of masculinity, masochism, melancholy, and the death drive. By foregrounding Cobain's ability to challenge coextensive links between gender, sexuality, and race, *The Pleasures of Death* reveals how the cultural politics and aesthetics of this tragic icon's works align with feminist strategies, invite queer readings, and perform antiracist critiques of American culture.

The Great Rock Discography Martin Charles Strong, 1998 Martin Strong's best-selling and highly acclaimed monster reference book is now in its fourth edition. Encyclopaedic in scope, the book contains incomparable details on all the great figures in the development of the rock genre.

The Oxford Handbook of Andrew Marvell Martin Dzelzainis,Edward Holberton,2019-03-28 The Oxford Handbook of Andrew Marvell is the most comprehensive and informative collection of essays ever assembled dealing with the life and writings of the poet and politician Andrew Marvell (1621-78). Like his friend and colleague John Milton, Marvell is now seen as a dominant figure in the literary landscape of the mid-seventeenth century, producing a stunning oeuvre of poetry and prose either side of the Restoration. In the 1640s and 1650s he was the author of hypercanonical lyrics like 'To His Coy Mistress' and 'The Garden' as well as three epoch-defining poems about Oliver Cromwell. After 1660 he virtually invented the verse genre of state satire as well as becoming the most influential prose satirist of the day—in the process forging a long-lived reputation as an incorruptible patriot. Although Marvell himself was an intensely private and self-contained character, whose literary, religious, and political commitments are notoriously difficult to discern, the interdisciplinary contributions by an array of experts in the fields of seventeenth-century literature, history, and politics gathered together in the Handbook constitute a decisive step forward in our understanding of him. They offer a fully-rounded account of his life and writings, individual readings of his key works, considerations of his relations with his major contemporaries, and surveys of his rich and varied afterlives. Informed by the wealth of editorial and biographical work on Marvell that has been produced in the last twenty years, the volume is both a conspectus of the state of the art in Marvell studies and the springboard for future research.

Encyclopedia of American Poetry: The Nineteenth Century Eric L. Haralson,2014-01-21 With contributions from over 100 scholars, the Encyclopedia of American Poetry: The Nineteenth Century provides essays on the careers, works, and

backgrounds of more than 100 nineteenth-century poets. It also provides entries on specialized categories of twentieth-century verse such as hymns, folk ballads, spirituals, Civil War songs, and Native American poetry. Besides presenting essential factual information, each entry amounts to an in-depth critical essay, and includes a bibliography that directs readers to other works by and about a particular poet.
