

Federated States Of Micronesia Food

TD Snyder

Federated States of Micronesia International Monetary Fund. Asia and Pacific Dept,2024-03-04 Economic growth has been volatile since the Covid-19 pandemic, and inflation reached decade-high levels mainly due to higher prices of imported food and energy. High vulnerability to climate change is also intensifying food security concerns. Despite the weak domestic economy, the fiscal and external current accounts posted large surpluses, partly thanks to foreign grants and taxes paid by foreign firms. The high uncertainty around medium-term external financing and economic prospects diminished significantly with the signing of a new Compact of Free Association (COFA) agreement between the FSM and the United States government, which includes larger grants for the next 20 years and will enable much needed public investment and reforms. However, the agreement still needs to be ratified by the US Congress.

The Federated States of Micronesia's Engagement with the Outside World Gonzaga Puas,2021-09-28 This study addresses the neglected history of the people of the Federated States of Micronesia's (FSM) engagement with the outside world. Situated in the northwest Pacific, FSM's strategic location has led to four colonial rulers. Histories of FSM to date have been largely written by sympathetic outsiders. Indigenous perspectives of FSM history have been largely absent from the main corpus of historical literature. A new generation of Micronesian scholars are starting to write their own history from Micronesian perspectives and using Micronesian forms of history. This book argues that Micronesians have been dealing successfully with the outside world throughout the colonial era in ways colonial authorities were often unaware of. This argument is sustained by examination of oral histories, secondary sources, interviews, field research and the personal experience of a person raised in the Mortlock Islands of Chuuk State. It reconstructs how Micronesian internal processes for social stability and mutual support endured, rather than succumbing to the different waves of colonisation. This study argues that colonisation did not destroy Micronesian cultures and identities, but that Micronesians recontextualised the changing conditions to suit their own circumstances. Their success rested on the indigenous doctrines of adaptation, assimilation and accommodation deeply rooted in the kinship doctrine of eaea fengen (sharing) and alilis fengen (assisting each other). These values pervade the Constitution of the FSM, which formally defines the modern identity of its indigenous peoples, reasserting and perpetuating Micronesian values and future continuity.

Federated States of Micronesia's Strategic Development Plan (2004-2023) ,2004

Routledge Handbook on Tourism and Small Island States in the Pacific Marcus L. Stephenson,2022-12-30 This timely handbook critically examines the development and role of tourism in small Pacific Island states located across Melanesia, Micronesia and Polynesia. The volume presents an expansive evaluation of current issues, challenges and potentialities for the 13 self-governing states. Interdisciplinary in coverage and borne of a varied and international authorship, this handbook incorporates 27 specifically commissioned and original contributions. Structured into four thematic sections and embellished with insightful tables and illustrations throughout, the overarching ethos of this volume is to contribute to framing the role of tourism, tourism development and the tourism industry within the context of self-governing Pacific Island states faced with the challenge of pursuing an independent path of development. In doing so, the work highlights and deciphers various tourism development perplexities in the Pacific, examining closely the intersecting sociocultural, geopolitical, environmental, organizational, operational and strategic challenges. This volume, thus, discusses a range of issues: facilitators and inhibitors of tourism growth and development; climate change, ecological concerns, and eco-tourism; non-tourism and undertourism; crisis management and the COVID-19 virus; transportation and tourism infrastructural concerns; tourism policy and planning (including tourism governance); sectoral links between tourism; food and agriculture; gender and micro-entrepreneurship; community management and participation; cultural and natural heritage sites; and the handicraft industry. The work pays critical attention to the various trajectories of sustainable tourism and the United Nations Sustainable Development Goals. Despite the many challenges and concerns raised, the book implicates the importance of good governance, progressive post-COVID-19 recovery strategies and directives, and creative and imaginative options in the successful development, re-development and advancement of tourism. As a definitive reference resource for this subject area, this handbook will be of great interest to students, researchers and academics within tourism, development studies, geography, Pacific studies, sustainability and environmental studies.

Indigenous Peoples' Food Systems Harriet V. Kuhnlein, Bill Erasmus, Dina Spigelski, 2009 Today, globalisation and homogenisation have replaced local food cultures. The 12 case studies presented in this book show the wealth of knowledge in indigenous communities in diverse ecosystems, the richness of their food resources, the inherent strengths of the local traditional food systems, how people think about and use these foods, the influx of industrial and purchased food, and the circumstances of the nutrition transition in indigenous communities. The unique styles of conceptualising food systems and writing about them were preserved. Photographs and tables accompany each chapter.

Ethnic American Cooking Lucy M. Long, 2016-07-15 Ethnic American Cooking: Recipes for Living in a New World is much more than a cookbook. It contains recipes from almost every nationality or ethnicity residing in the US and includes a brief introduction to understanding how those recipes represent that group's food culture. It illustrates the ways in which recipes, like identities, are fluid, adapting to new ingredients, tastes, and circumstances and are adjusted to continue to carry meaning—or perhaps acquire new ones. The book is based on the two-volume Ethnic American Food Today: A Cultural Encyclopedia, which looked at the way ethnic groups in the US eat. Here, the recipes of the varied groups are brought together for the adventurous chef, the curious reader, and the casual cook alike. The recipes have been tested for use in modern American home kitchens with ingredients that can be found in most supermarkets. Substitutions and options are also suggested where needed. The dishes range from gourmet to everyday and offer a taste of the myriad ethnic culinary cultures in the US.
