Hans Maier

Elemente und Ursprünge totaler Herrschaft Hannah Arendt, 2023

ad Hannah Arendt. Elemente und Ursprünge totaler Herrschaft Alfons Söllner, 2021-05

Totalitarianism and Political Religions, Volume 1 Hans Maier, 2004-10-14 We are used to distinguishing the despotic regimes of the 20th century - communism, fascism, National Socialism, Maoism - very precisely according to place and time, origins and influences. But what should we call that which they have in common? On this question, there has been and is still a passionate debate. This book documents the first international conference on this theme, a conference that took place in September of 1994 at the University of Munich. The book shows how new models for understanding political history arose from the experience of modern despotic regimes. Here, the most important concepts - totalitarianism and political religions - are discussed and tested in terms of their usefulness.

Hannah Arendt: The Origins of Totalitarianism Expanded Edition (LOA #389) Hannah Arendt, 2025-04-22 A deluxe expanded edition of the masterpiece of political philosophy that transformed how the world thinks about fascism and authoritarianism Includes two fascinating chapters that were later cut and are available in no other edition In 1951, a monumental book by a relatively unknown German-Jewish émigré addressed the terrifying new mode of political organization underlying the twin horrors of Stalinism and Nazism. Herself a refugee from Nazi persecution, Hannah Arendt sought, from her exile in New York City, to answer the unfathomable questions raised by the Soviet gulag and the Holocaust: How could there be such barbarism in the midst of civilization? How had governments exerted such absolute control over citizens, terrorizing them and enlisting them to commit atrocities on their behalf? Arendt's historical and cultural analyses extend to a thorough examination of nineteenth-century antisemitism in Europe, including a trenchant account of the Dreyfus Affair in France and brilliant insights into imperialism, racism, and their role in totalitarianism's rise in the 1920s and 1930s. Arendt contends that totalitarianism, as a political system, is now embedded in contemporary life and is, as she would later remark, "the central event of our world." Her clear-eyed warning that totalitarianism is not merely a historical episode but is rather a permanent feature of modernity and beyond—a danger never to be fully eradicated, and a continual temptation for anti-

democratic demagogues—makes Arendt, a half-century after her death, a preeminent thinker and political philosopher for the twenty-first century. The Library of America edition of this indispensable and influential work, based on the final version she revised in her lifetime, also restores to print Arendt's "Concluding Remarks" to the 1951 first American edition and a chapter on the Soviet suppression of the Hungarian revolt of 1956, both of which were cut from later editions. The first annotated edition of *Origins*, the volume contains concise and thorough glosses on Arendt's many historical and cultural references, and its Chronology provides a detailed portrait of her remarkable life.

The Origins of Totalitarianism/Elemente und Ursprünge Totaler Herrschaft Hannah Arendt,2025

Totalitarianism and Political Religions Volume III Hans Maier,2007 Available for the first time in English language translation, the third volume of *Totalitarianism and Political Religions* completes the set. It provides a comprehensive overview of key theories and theorists of totalitarianism and of political religions, from Hannah Arendt and Raymond Aron to Leo Strauss and Simone Weill. Edited by the eminent Professor Hans Maier, it represents a major study, examining how new models for understanding political history arose from the experience of modern despotic regimes. Where volumes one and two were concerned with questioning the common elements between twentieth century despotic regimes - Communism, Fascism, National Socialism, Maoism - this volume draws a general balance. It brings together the findings of research undertaken during the decade 1992-2002 with the cooperation of leading philosophers, historians and social scientists for the Institute of Philosophy at the University of Munich. Following the demise of Italian Fascism (1943-45), German National Socialism (1945) and Soviet Communism (1989-91), a comparative approach to the three regimes is possible. A broad field of interpretation of the entire phenomenon of totalitarian and political religions opens up. This comprehensive study examines a vast topic which affects the political and historical landscape over the whole of the last century. Moreover, dictatorships and their motivations are still present in current affairs, today in the twenty-first century. The three volumes of *Totalitarianism and Political Religions* are a vital resource for scholars of fascism, Nazism, communism, totalitarianism, comparative politics and political theory.

Elemente und Ursprünge totaler Herrschaft Hannah Arendt,1975

The Origins of Totalitarianism Hannah Arendt,2017-08-24 This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work was reproduced from the original

artifact, and remains as true to the original work as possible. Therefore, you will see the original copyright references, library stamps (as most of these works have been housed in our most important libraries around the world), and other notations in the work. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. As a reproduction of a historical artifact, this work may contain missing or blurred pages, poor pictures, errant marks, etc. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

The Democratic Republic of the Congo and the Debate in Germany Concerning EUFOR RD Congo Mission

Stefan Plenck,2007-08 Seminar paper from the year 2007 in the subject Politics - International Politics - Region: Africa, grade: 1,7, University of Bologna, course: Political Development in Least developed Countries, 57 entries in the bibliography, language: English, abstract: The transformation process in the Democratic Republic of the Congo is one of the most crucial political changes during the last few years. Creating a stable and strong democratic system within the biggest African countries could bring light and development in the former heart of darkness which could also be extended to other African states. The following paper tries to describe the sad story of the Democratic Republic of the Congo, concentrating on the Mobutu dictatorship and the transition and state building process afterwards. Furthermore it is about the EUFOR RD Congo military mission that should support the transformation process, protecting the presidential elections in 2006. What about the leading nation Germany? Was it difficult to legislate the mission, for a state with such a heavy historical burden? What about meanings and opinions in German parliament, the federal army and of course the German people? After the history of the Democratic Republic of the Congo, the text is focussed on the elections in 2006, the EU mission and the debate in Germany concerning military aid for this big African country. In the end the paper shows details and developments of EUFOR RD Congo mission, whereby it also tries to analyze whether the mission was a success or failure. The conclusion tries to answer the success or failure thesis as well as it ought to offer an image of the transformation process in the Democratic Republic of the Congo in the future. This seminar paper is very interesting for students of political science, history and of course for everyone who likes to get to know more background about this actual and highly discussed mission.
