Hurt Me With The Truth Never Comfort Me With a Lie Erin M Phillips ,2025-09-26 This publication uses Einstein's equation $E=mc^2$ as a metaphor to explore deeper human and spiritual issues. It humorously reflects on the interconnectedness of the universe and suggests that transforming society starts with self-reflection and compassion. Instead of blaming external factors for the world's problems, the writing advocates for personal accountability, spiritual growth, and kindness as a way to heal both individuals and communities. Ultimately, it reimagines $E=mc^2$ as standing for "Enlightenment = mindfulness \times compassion²," emphasizing love, self-awareness, and truth as the real sources of energy for change. The publication closes with the maxim: "Hurt Me With The Truth Never Comfort Me With A Lie."

Seeding Consciousness Tricia Eastman,2024-11-12 • Provides a blueprint for responsible and effective use of psychedelics and plant medicines to transform pain and trauma into profound connections with ourselves, nature, and the spirit world • Shares exercises to help readers plant the seeds of transformation in their own consciousness, navigate altered states of consciousness and ego death, work with the shadow, and integrate fragmented parts of the self • Explores ancestral teachings on the interconnectedness of all life, drawing on the author's studies with indigenous elders, including Bwiti initiations with iboga Presenting a deep dive into the world of psychedelic initiation and ancestral wisdom, Tricia Eastman demonstrates the power of plant medicine and psychedelic journeys for cultivating new beliefs, healing trauma, and accessing latent gifts within us—an inner alchemical process she calls “seeding consciousness.” Drawing on her studies with Indigenous elders, including two decades of iboga initiations with the Bwiti of Gabon, Africa, and training with the Kogi Kággaba of Columbia, Eastman provides a blueprint for responsible and effective use of entheogens to transform pain and trauma into profound connections with ourselves, nature, and the spirit world. She explores ancient teachings on the interconnectedness of all life and the forces of nature and shows how colonization and modern culture have disconnected us from our spiritual foundations. She shares exercises to help readers seed their own consciousness, navigate altered states of consciousness and ego death, work with the shadow, and integrate fragmented parts of the self. She also examines how to respectfully engage with these potent transformative plants, substances, and ancient traditions, thereby honoring the wisdom keepers who have safeguarded these traditions across the millennia. Revealing how to prepare the fertile soil of the mind for mystical experience, this book presents a psychedelic path to awakening that simultaneously facilitates personal transformation and collective societal change.

Revelation of the Holy Grail Chevalier Emerys,2007-09-01 The Holy Grail has become a popular field of study in recent

years, however most books on the subject are written by authors who are not themselves initiated into the mystery school tradition of the Grail. *Revelation of the Holy Grail* is one of the first books on the subject which is written by an initiate within several of the Knighthood Orders associated with the Grail Tradition. This book provides many previously unpublished facts about the history and tradition of the Grail movement, which includes some of the most influential people in human history. The Quest of the Holy Grail has proved to really be about the quest for human civilization. It has spawned not only the greatest political movements in history, but also it has been the cornerstone of human technology. Alchemy, Hebrew Mysteries, Templar Secrets, ancient technologies, Gnostic traditions, and secret societies have all been involved in this exciting history which is the backbone of our modern day world.
