Slavery 101 Ken Mercer, 2021-04-19 “My Christian faith taught me always to fight hard but only to fight back with the truth. Sadly, I learned that the opposition to Judeo-Christian faith and family values has never had truth as a requirement.” —Ken Mercer Mercer describes slavery as Evil. Slavery existed in the world for thousands of years before the founding of our thirteen colonies and before the signing of our 1776 Declaration of Independence. Then came “The Great Awakening” of the Christian faith in the United States, the United Kingdom, and Europe. The movement to abolish world-wide slavery was born. Article 1 (Section 9) of the Constitution, the Emancipation Proclamation, and the three post-Civil War Constitutional Amendments, are just a few examples of historical events championed by Christian men and women standing firm against powerful and evil forces. This book, *Slavery 101*, is the first in a series of “Mercer Moments in American History.” Future projects planned include *Constitution 101—Separation of Church and State*, and *In God We Still Trust*. Ken Mercer believes:

“We will never fully comprehend our Founding Father’s challenge to continuously strive to become a ‘more perfect Union’ unless we understand what makes our United States of America so exceptional. It is the profound impact and unbroken revival of Judeo-Christian values throughout our history.”

Discovering Ancient Mesoamerican Civilizations Ann Byers, 2015-01-01 This fascinating narrative introduces young readers to the ancient civilizations of Mesoamerica. Evolving from their primitive ways to complex societies, these ancient peoples left records for archaeologists to piece together to glean what these peoples were really like more than 3,000 years ago. Among the civilizations examined are the Olmec, Zapotec, Aztec, and Maya. Lands, cultures, religions, and daily life activities are considered, as well as the colossal rock heads of the Olmec that still exist, the maguey plant that the Zapotec grew and used for making houses, and the temple at Chichén Itzá, among other remarkable facts and achievements.

World Myth or History? J.G. Cheock, 2017-10-02 World myth deciphered and organized into a coherent story of our past. It is almost impossible to read world mythology without noticing common threads and patterns that seem to paint a bigger picture. A story told by our ancient ancestors for future generations to remember and learn. What if the eyewitnesses to past events were taken seriously? What if we listen to their stories with unbiased ears, free of assumptions? What if their stories were backed up by scientific discoveries? What if the myths can explain the mysteries?

Using Children's Literature Across the Curriculum Catherine M. O'Callaghan, 2011 This resource uniquely offers preservice and inservice teachers templates for using quality children's literature to implement six themes across grades K-8. The themes are based on national curriculum standards and text sets are carefully selected to facilitate discussion, analysis, and problem solving across the grades. Using Children's Literature Across the Curriculum, provides teachers with a guide to using multilayered texts to facilitate students' attainment of critical literacy. It is designed to be a supplemental text to guide teachers in designing literacy instruction. The instructional sequence includes collaborative inquiry activities across the curriculum to extend each theme to math, science, technology and social studies. Teachers are shown how to incorporate family literacy with a component entitled 'Home School Connections' and to differentiate instruction for individual learners with a section entitled 'On Your Own Activities'. The theme concludes with a critical literacy activity that applies the content knowledge of the theme with collaborative inquiry. A unique feature of the handbook is the emphasis on performance based assessment with each instructional sequence containing two rubrics for the teacher to implement. The instructional sequences are meant as models for teachers to use in developing their own themes in order to facilitate critical literacy. These 'models' can be adjusted to fit the reading level of the students as teachers become more familiar with the text's structure and their students' needs.

World History in Brief: To 1450 Peter N. Stearns, 2002 With its brief, global (rather than West-centered) approach, World History in Brief, Fourth Edition seeks to show how different civilizations developed in a global context, and then encountered the various forces of contemporary life. The brevity of this text allows instructors to take advantage of additional readings. Rather than overwhelm students, the chief goal of World History in Brief is to present the big picture, to facilitate comparison and assessment of change, and to highlight the major developments in the world's history. Finally, this text also presents the global interactions of major civilizations so that students can compare and assess changes.
