Devoured Ayurella Horn-Muller,2024-03-06 Honorable mention for the American Botanical Council's James A. Duke Excellence in Botanical Literature Awards Kudzu abounds across the American South. Introduced in the United States in the 1800s as a solution for soil erosion, this invasive vine with Eastern Asian origins came to be known as a pernicious invader capable of smothering everything in its path. To many, the plant's enduring legacy has been its villainous role as the "vine that ate the South." But for a select few, it has begun to signify something else entirely. In its roots, a network of people scattered across the country see a chance at redemption—and an opportunity to rewrite a fragment of troubled history. *Devoured: The Extraordinary Story of Kudzu, the Vine That Ate the South* detangles the complicated story of the South's fickle relationship with kudzu, chronicling the ways the boundless weed has evolved over centuries, and dissecting what climate change could mean for its future across the United States. From architecture teams experimenting with it as a sustainable building material, to clinical applications treating binge-drinking, to chefs harvesting it as a wild edible, environmental journalist Ayurella Horn-Muller spotlights how kudzu's notorious reputation in America is gradually being cast aside in favor of its promise. Weaving careful research with personal stories, Horn-Muller investigates how kudzu morphed from a miraculous agricultural solution to the monstrous archetypal foe of the southern landscape. *Devoured* is a poignant narrative of belonging, racial ambiguity, outsiders and insiders, and the path from universal acceptance to undesirability. It is a deeply reported exploration of the landscapes that host the many species we fight to control. Above all, *Devoured* is an ode to the earth around us—a quest for meaning in today's imperiled world.

The Alternative Educator's Handbook Paul J. Pattavina,2019-06-15 *The Alternative Educator's Handbook*, by Dr. Paul J. Pattavina, is a comprehensive, practical collection of strategies and researched practices to be implemented with students who present social, emotional and behavioral challenges in school. It is a handbook intended to serve as a practical resource

for teachers and staff who work with students whose progress in school is interrupted by social and emotional issues – kids who tend to, either intentionally or unintentionally, ‘pluck your last nerve’. It reviews student characteristics and intervention procedures, as well as specific forms and procedures created or adapted over time and experience. The ideas in this book will serve as a guide for educators and mental health professionals who are responsible for these kinds of difficult students, in whatever educational setting they might be placed - alternative schools or programs, private clinical or therapeutic schools, intensive behavior support classrooms or flexible resource room classrooms in public schools. This is a book that should be read by special and regular education teachers, school social workers, counselors, clinicians and school psychologists; paraprofessionals and child care workers; principals and assistant principals; school superintendents and board of education members; juvenile probation officers; parents and concerned community members; and college instructors who train special education teachers. The need for effective, alternative programs for students with challenging emotional and behavior patterns continues to be a pressing issue for public schools nationwide. The concern has been exacerbated in the past several years by continued school shootings and violence, creating a grave sense of fear among students, parents and staff, by the actions of kids with guns and other weapons in school. Legislators and public officials have been called to take actions that will keep kids safer in school, focusing particularly on gun control, limiting access and adding guards. And although such measures will be essential towards preventing some school violence, the kinds of programming and resources available for our public schools must also be closely examined. In effect, schools will need to find ways to identify and provide programming options for students who may be disgruntled, alienated, unconnected, impulsive, and who may be looking to be recognized, seek revenge or put an end to bullying, perceived harassment, injustice or a life of ignominy -- kids who feel they have nothing left to lose. Readers will initially learn about important issues within our public schools that require school staff to be trained to manage a range of social and emotional issues that kids bring to school. In the next section, readers are provided snapshots of related background research about students' social-emotional learning needs and effective intervention practices—including PBIS, restorative practices, behavioral programming, social problem solving and affective teaching. Finally, the book outlines a number of specific recommended practices for managing students' social and emotional learning needs. These practices are presented as a cognitive-behavioral model of programming that includes a range of specific competencies, all clustered into a teacher's 4 bags of tools -- structure, climate, instruction and discipline. Being an alternative educator is not viewed in this text as an official job title. Alternative educator in the context of this document includes anyone who is always searching for different ways to work with difficult kids -- because that's the only way to help such students learn.

Movements for Human Rights David L. Brunsma, Keri Iyall Smith, Brian Gran, 2016-09-07 How do people work together to advance human rights? Do people form groups to prevent human rights from being enforced? Why? In what ways do

circumstances matter to the work of individuals collectively working to shape human rights practices? Human society is made of individuals within contexts—tectonic plates not of the earth’s crust but of groups and individuals who scrape and shift as we bump along, competing for scarce resources and getting along. These movements, large and small, are the products of actions individuals take in communities, within families and legal structures. These individuals are able to live longer, yet continue to remain vulnerable to dangers arising from the environment, substances, struggles for power, and a failure to understand that in most ways we are the same as our neighbors. Yet it is because we live together in layers of diverse communities that we want our ability to speak to be unhindered by others, use spirituality to help us understand ourselves and others, possess a space and objects that are ours alone, and join with groups that share our values and interests, including circumstances where we do not know who our fellow neighbor is. For this reason sociologists have identified the importance of movements and change in human societies. When we collaborate in groups, individuals can change the contours of their daily lives. Within this book you will find the building blocks for human rights in our communities. To understand why sometimes we enjoy human rights and other times we experience vulnerability and risk, sociologists seek to understand the individual within her context. Bringing together prominent sociologists to grapple with these questions, *Movements for Human Rights: Locally and Globally*, offers insights into the ways that people move for (and against) human rights.

Leaving Left Behind Mike Wilson, 2021-01-19 Positive psychologists have proven that positivity leads to success, but most Christians in America have chosen to believe a single eschatological theory that leads to pessimism and cynicism. Pessimistic Christians put themselves in Christian bubbles and focus on self-preservation, and when a mind is clouded by negativity, interpretations of biblical prophecy lean toward the pessimistic possibilities. The fantastic writing of the *Left Behind* books has popularized premillennial dispensationalism with good intentions, but that interpretation of biblical prophecy teaches that sinfulness will continually increase until Jesus throws up his hands in disgust and secretly raptures worthy Christians, leaving behind unworthy sinners to suffer the wrath of the antichrist. Teaching that questionable theory produces negativity that hinders the Christian mission. When Christians believe that they cannot succeed in leading most of the world to Jesus, they will fail to put in the effort that success would require. Jesus, on the other hand, taught his followers that nothing will prevail over his church, and that teaching inspired them to sacrifice everything for the Christian mission. This is not a promise of prosperity without effort or of inevitable success, but biblical positivity is an energizing force that will help Christians flourish.

Inquiring into Academic Timescapes Filip Vostal, 2021-02-01 There is a pervasive sense of incessant acceleration in the academic world. This book puts the temporal ordering of academic life under the microscope, and showcases the means of

yielding a better understanding of how time and temporality act both as instruments of power and vulnerability within the academic space.

Youth Power in Precarious Times Melissa Brough, 2020-07-27 Does youth participation hold the potential to change entrenched systems of power and to reshape civic life? In *Youth Power in Precarious Times* Melissa Brough examines how the city of Medellín, Colombia, offers a model of civic transformation forged in the wake of violence and repression. She responds to a pressing contradiction in the world at large, where youth political participation has become a means of commodifying digital culture amid the ongoing disenfranchisement of youth globally. Brough focuses on how young people's civic participation online and in the streets in Medellín was central to the city's transformation from having the world's highest homicide rates in the early 1990s to being known for its urban renaissance by the 2010s. Seeking to distinguish commercialized digital interactions from genuine political participation, Brough uses Medellín's experiences with youth participation—ranging from digital citizenship initiatives to the voices of community media to the beats of hip-hop culture—to show how young people can be at the forefront of fostering ecologies of artistic and grassroots engagement in order to reshape civic life.

A Speaker's Guidebook with The Essential Guide to Rhetoric Dan O'Hair, Rob Stewart, Hannah Rubenstein, 2012-02-01 *A Speaker's Guidebook with The Essential Guide to Rhetoric* includes a full tabbed section that provides brief yet comprehensive coverage of rhetorical theory — from the classical to the contemporary — and its practical applications.

Conquer Your Deliverance John Ramirez, 2021-10-12 Cancel the Enemy's Assignment That Is Stealing Your Breakthrough! Being delivered and set free from sin and bondage does not mean that the enemy now considers you off limits. He will surely attempt--again and again--to wrap those old chains back around you. Focusing on key strategies from Scripture, ex-satanic high priest John Ramirez teaches you how to shore up your defenses in Christ after winning a battle, and how to put your life back in order. Ramirez uses his own experiences to reveal principles for growing in your faith and in Holy Spirit power so that, when the next attack comes, you are stronger, wiser and more knowledgeable. This empowering book will equip you with strategies, Scriptures and deliverance prayers so you can · understand how the devil tries to trap you · focus on biblical examples to make your faith unshakable · determine which fights are yours and which are not · pray for deliverance during spiritual combat · learn how to maintain your new freedom in Christ · and more Be prepared for the next encounter with the enemy, to gain the upper hand and hold fast the victory! *Conquer Your Deliverance* is a right-now book birthed from heaven's war room for the Body of Christ.--DR. HAKEEM COLLINS, international speaker and author
