Macmillan Directory of UK Business Information Sources James Tudor,1992-09-15 The objective of this publication is to provide a 'one stop' guide to business information, insofar as that is possible within the confines of a useable book. It aims to give guidance on both the published and organisational sources relevant to the needs of the non-professional business researcher and provides a listing of 'worthwhile' references and contacts. As previously, the Directory is organised so that both published sources and information centres are grouped together under their applicable Standard Industrial Classification (SIC) number and heading. This new edition also incorporates NACE classification and correlation tables. The second category again includes those UK and pan-national organisations which focus on specific, discrete industry sectors, which limits the number of organisational sources in the directory to those that are 'most worthwhile'.

User Innovators in the Silver Market Konstantin Wellner,2015-03-03 In this study among camping tourists of all age

groups between 19 and 86 years of age, Konstantin Wellner compares key characteristics regarding innovative behavior of different age groups. The focus of the analysis is on the so-called “Silver Market” segment (consumers of at least 55 years) which gains importance to the demographic shift. Generally, older users are still actively innovating, especially if it relates to age-specific improvements (e.g., comfort and compatibility to other equipment). Analysis by a Structural Equation Model showed that the most important determinant of innovative behavior for older users is technical expertise and that being relatively ahead of trends increases their dissatisfaction with existing products. Additional evidence was found that user with high use experience suffer from functional fixedness.
