Making Bombs for Hitler Marsha Forchuk Skrypuch, 2017-02-28 For readers who were enthralled by Alan Gratz's PRISONER B-3087 comes a gripping novel about a lesser-known part of WWII. Lida thought she was safe. Her neighbors wearing the yellow star were all taken away, but Lida is not Jewish. She will be fine, won't she? But she cannot escape the horrors of World War II. Lida's parents are ripped away from her and she is separated from her beloved sister, Larissa. The Nazis take Lida to a brutal work camp, where she and other Ukrainian children are forced into backbreaking labor. Starving and terrified, Lida bonds with her fellow prisoners, but none of them know if they'll live to see tomorrow. When Lida and her friends are assigned to make bombs for the German army, Lida cannot stand the thought of helping the enemy. Then she has an idea. What if she sabotaged the bombs... and the Nazis? Can she do so without getting caught? And if she's freed, will she ever find her sister again? This pulse-pounding novel of survival, courage, and hope shows us a lesser-known piece of history - and is sure to keep readers captivated until the last page.

Time for Courage Rob Currie, 2026-01-06 During WWII, when the Nazis hunt Jewish children, the kids' only hope is help from the Dutch Resistance. But these brave volunteers are outgunned, outmanned, and all they have is each other. In this sequel to Hunger Winter, thirteen-year-old Dirk and his family move to a farm near Utrecht, Netherlands, in January of 1945. When the Nazis focus on capturing Jewish children to send to gas chambers, Dirk's family intervenes. Their methods include providing ration cards and finding families to hide Jewish children and teens. With edge-of-your-seat action and suspense, the reader follows Dirk and his family as they work with the Dutch Resistance to protect the children and battle the zeal and determination of the Gestapo to find the children and send them to their deaths. This World War II historical fiction novel for kids features: Edge-of-your-seat excitement and danger set against the backdrop of the Holocaust. Historically accurate accounts of WWII events not normally covered in other books. Maps of the Netherlands to help parents and teachers prepare lessons for children about the history of WWII. This middle-grade book is an adventure to be read again and again, a story that should not be forgotten.

Gray Zones Jonathan Petropoulos, John Roth, 2006-10-01 Few essays about the Holocaust are better known or more important than Primo Levi's reflections on what he called "the gray zone," a reality in which moral ambiguity and compromise were pronounced. In this volume accomplished Holocaust scholars, among them Raul Hilberg, Gerhard L.

Weinberg, Christopher Browning, Peter Hayes, and Lynn Rapaport, explore the terrain that Levi identified. Together they bring a necessary interdisciplinary focus to bear on timely and often controversial topics in cutting-edge Holocaust studies that range from historical analysis to popular culture. While each essay utilizes a particular methodology and argues for its own thesis, the volume as a whole advances the claim that the more we learn about the Holocaust, the more complex that event turns out to be. Only if ambiguities and compromises in the Holocaust and its aftermath are identified, explored, and at times allowed to remain--lest resolution deceive us--will our awareness of the Holocaust and its implications be as full as possible.

Hitler's Uranium Club Jeremy Bernstein,1996 For students of World War II or the atomic age, or anyone fascinated by the intertwining of science and politics, Hitler's Uranium Club provides an opportunity rare in recorded history: the chance to eavesdrop on pivotal figures in history as they complete one era, come to terms with it, and prepare their strategy for the next.

Don't Tell the Nazis Marsha Forchuk Skrypuch,2019-12-03 Marsha Forchuk Skrypuch (author of Making Bombs for Hitler) crafts a story of ultimate compassion and sacrifice based on true events during WWII. The year is 1941. Krystia lives in a small Ukrainian village under the cruel -- sometimes violent -- occupation of the Soviets. So when the Nazis march into town to liberate them, many of Krystia's neighbors welcome the troops with celebrations, hoping for a better life. But conditions don't improve as expected. Krystia's friend Dolik and the other Jewish people in town warn that their new occupiers may only bring darker days. The worst begins to happen when the Nazis blame the Jews for murders they didn't commit. As the Nazis force Jews into a ghetto, Krystia does what she can to help Dolik and his family. But what they really need is a place to hide. Faced with unimaginable tyranny and cruelty, will Krystia risk everything to protect her friends and neighbors?

The Royal Navy and Battle of Britain Anthony J Cumming,2010-09-15 This persuasive study attacks the key myths surrounding the Battle of Britain to revise the relative status of maritime and aviation factors in the defense of Britain.

Without denigrating the heroism of the fighter pilots, Anthony Cumming challenges the effectiveness of the Royal Air Force in 1940 and gives the Royal Navy much greater prominence than others have. He vigorously asserts the ability of British warships to frustrate German plans for Operation Sea Lion and to repel Luftwaffe attacks. The author argues that the RAF took the lion's share of the glory only because its colorful image could easily be used to manipulate American opinion. Cumming contends that the 70th anniversary of Battle of Britain should celebrate the contributions of the many rather than focusing on the pilot elite, an assertion certain to provoke discussion.

Hitler's Luftwaffe in the Spanish Civil War Raymond L. Proctor,1983-11-16 Using existing Spanish and German documents and interviews with men who survived both the Spanish Civil War and World War II, Proctor details the origins of Germany's Condor Legion, sent by Hitler to assist Franco's forces during the Spanish Civil War. He investigates the problems encountered by the legion in Spain, including its organization, the extent of its training, the nature of its personnel, communications, and logistics, and the experience of operating in a foreign country as one of three allied forces in the civil war. The author provides detailed information about the German involvement in critical battles such as the Aragon Offensive, the Battle of Ebro, and the final assault on Catalonia. Proctor also assesses how effectively the Luftwaffe applied the lessons it learned in Spain to World War II and analyzes the lessons it missed.
