Metodología de la intervención social MENÉNDEZ VEGA, CRISTINA, 2019-05-03 La formación de profesionales competentes en esta área es clave para mejorar la calidad de vida de las personas y construir una sociedad inclusiva. El libro desarrolla los contenidos del módulo profesional de Metodología de la Intervención Social, de los Ciclos Formativos de grado superior de Integración Social, de Animación Sociocultural y Turística, y de Promoción de Igualdad de Género, pertenecientes a la familia profesional de Servicios Socioculturales y a la Comunidad. Metodología de la intervención social es un manual que integra de manera sistemática los conocimientos técnicos que sustentan la intervención junto con los procedimientos necesarios para aplicarlos en la complejidad de la realidad social, atendiendo a la perspectiva de género en todos y cada uno de los pasos. Los contenidos de carácter teórico se estructuran ordenadamente en referencia a la práctica concreta, por lo que el libro constituye una guía «paso a paso» para desarrollar en contextos reales el diseño, la implementación, la difusión y la evaluación de programas y proyectos de intervención social adecuados a las necesidades reales de la población. Estos contenidos se acompañan de gran cantidad de imágenes, esquemas, ejemplos y actividades, y permiten su desarrollo con la metodología de Aprendizaje Basado en Proyectos o en Retos Colaborativos, pero también con otras metodologías didácticas. El caso práctico resuelto (que se puede descargar a través de la ficha web de la obra, disponible en www.paraninfo.es, mediante un sencillo registro desde la sección «Recursos previo registro») permitirá contar con un modelo de referencia en el aprendizaje. Este manual será también de utilidad para todas y todos aquellos profesionales del ámbito social, ya que ofrece una herramienta eficaz y versátil para abordar la compleja tarea de la planificación social.

Building Equity Through Smarter, More Resilient Cities of the Future. Celebrating International Women's Day Inés Sánchez De Madariaga, Inés Novella Abril, 2025-11-28 The International Women's Day takes place on the 8th March, celebrating the achievements of women throughout history. Equally as important, this is a date to raise awareness for the inequalities that women across the globe still face on a daily basis. The UN theme for IWD in 2023 is #EmbraceEquity. It is in this spirit that Frontiers in Sustainable Cities is launching a new article collection to coincide with this UN day. This occasion offers an opportunity to acknowledge that historically, cities have not been designed with women in mind, creating not only unsafe areas, but also making it harder for female bodies to physically pass through a cities that was built for able bodied, full grown men. This then opens up the floor to discuss and consider the importance of using female perspectives and experiences to build smarter, resilient cities of the future.

Misoginia en las artes y su deconstrucción en las aulas Claudia Pena López,2024-09-18 Este manuscrito realiza, por lo tanto, un estudio analítico e interdisciplinar de diferentes representaciones y manifestaciones de la violencia de género en las artes. Actualizar y realizar relecturas de diferentes obras de arte (literarias, pictóricas, musicales, cinematográficas...) resulta primordial de cara a reeducar, basándonos en nuevas perspectivas venidas de la reflexión académica y social, para construir de este modo un pensamiento justo e igualitario. Así pues, la finalidad de esta publicación reside, entre otras cosas, en sugerir materiales y reflexiones que permitan abordar la igualdad desde una perspectiva interseccional, suprimiendo sesgos y apostando por la epistemología de un discurso que parta de la igualdad de género.

El cuidado en acción Coral Calderón Magaña,2010 Los capítulos de este documento giran en torno a la situación del trabajo de cuidados tanto remunerado como no-remunerado en varios países de América Latina poniendo énfasis en la relación con la situación económica de las familias, con las políticas públicas y con la modificación de los roles tradicionales de género.

Sexualidad y salud reproductiva Claudio Stern, 2001 Este libro contiene los once trabajos y los comentarios y reflexiones expuestos en el Seminario Internacional sobre Avances en Salud Reproductiva y Sexualidad celebrado en la ciudad de México en noviembre de 1996, así como una introducción que intenta ofrecer una visión global de los trabajos y de la reunión en su conjunto. Hablar de salud reproductiva es enfrentarse a un campo de multiplicidades de todo tipo en el que convergen, no sólo diversas perspectivas teóricas, sino disciplinas que abarcan tanto del área de las ciencias sociales como de las ciencias biomédicas. En el campo de las ciencias sociales el debate entre las posiciones universalistas y las relativistas ha sido constante, y se refleja también en el área específica de la salud reproductiva cuando se plantea que los comportamientos reproductivo y sexual deben entenderse como conductas socialmente estructuradas y no como conductas guiadas por determinismos biológicos. La mayoría de los trabajos presentados en este volumen tiene como trasfondo dicho debate. Además de capítulos acerca de elementos teóricos y conceptuales en torno al constructivismo social, de la salud reproductiva, el género y la sexualidad, se presentan trabajos sobre temas específicos de investigación tales como la violencia y la sexualidad, la coerción sexual, el aborto, el embarazo adolescente, y los jóvenes y el sida, entre otros. La mayoría de los autores de los capítulos son investigadores reconocidos como líderes en sus respectivos campos en el ámbito mundial, por lo que confiamos en que este volumen contribuirá a aportar una visión actualizada de los avances recientes en el campo de la salud reproductiva y la sexualidad desde la perspectiva de las ciencias sociales.
