**Restrictive Practices in Health Care and Disability Settings** Bernadette McSherry, Yvette Maker, 2020-12-13 This volume explores different models of regulating the use of restrictive practices in health care and disability settings. The authors examine the legislation, policies, inspection, enforcement and accreditation of the use of practices such as physical, mechanical and chemical restraint. They also explore the importance of factors such as organisational culture and staff training to the effective implementation of regulatory regimes. In doing so, the collection provides a solid evidence base for both the development and implementation of effective approaches to restrictive practices that focus on their reduction and, ultimately, their elimination across health care sectors. Divided into five parts, the volume covers new ground in multiple respects. First, it addresses the use of restrictive practices across mental health, disability and aged care settings, creating opportunities for new insights and interdisciplinary conversations across traditionally siloed sectors. Second, it includes contributions from research academics, clinicians, regulators and mental health consumers, offering a rich and comprehensive picture of existing regulatory regimes and options for designing and implementing regulatory approaches that address the failings of current systems. Finally, it incorporates comparative perspectives from Australia, New Zealand, the Netherlands, Germany and England. The book is an invaluable resource for regulators, policymakers, lawyers, clinicians, consumer advocates and academics grappling with the use and regulation of restrictive practices in mental health, disability and aged care contexts.

*Coercion and Violence in Mental Health Settings* Nutmeg Hallett, Richard Whittington, Dirk Richter, Emachi Eneje, 2024-12-18 This book aims to provide a state-of-the-art overview of the contexts, causes and treatments that relate to the reduction of coercion and the prevention of violence in mental health settings. The objective of this new edition in Open Access is to integrate theoretical explanations, empirical findings and practical solutions on the topic from many countries and diverse professional contexts. A large proportion of the text is concerned with practical and applied guidance for practitioners and others based on a clear understanding of conceptual and theoretical issues. Significantly enriched by the contributions of lived experience editors and co-authors, this edition brings authentic, new perspectives that deepen its relevance and impact. There is extensive use of case studies drawn from practice and the media to enliven the discussion. The scope of the book is intended to go beyond a reductionist medical/biological orientation on coercion and violence in

mental health by integrating this within broader psychological and social frameworks. It includes new relevant contributions from nursing, psychology, psychiatry and sociology. The language of the book is clear and understandable to a broad audience whilst offering new knowledge for researchers and other specialists.
