Infertility Caused by Decreased Oxygen Utilization and Jinn (Demon) Dr. Mira Bajirova,2018-12-14 There are two main causes of Infertility: Decreased Oxygen Utilization and Jinn (Demon). When the environment or body has too many Positive Ions, the result is Decreased Oxygen Utilization. Positive Ions are produced by the manmade atmosphere, and they increase the acidity and inflammation in the body. These Positive Ions can affect the body in numerous ways, including decreased fertility. Many times, medicine cannot solve the problem—what people must do is to expose themselves to the Negative Ions. Dr. Mira Bajirova, an Associate Professor, Obstetrician-Gynecologist, and In Vitro Fertilization Consultant from Paris, explores what this means to those suffering from Infertility. She also highlights how Evil Jinn—through Jinn Possession, Black Magic and Evil Eye—can lead to disastrous consequences including the Infertility. Filled with insights from the Quran and medicine, this is an informative guide for anyone seeking to improve their health and expand their family.

Under the Same Sky Seçil Dağtaş,2025-07-01 An ethnographic study of the everyday lives of religious minorities near Turkey's border with Syria How do people coexist in a world shaped by longstanding differences, political instability, and recurrent displacement? In *Under the Same Sky*, Seçil Dağtaş addresses this question by exploring the everyday politics of religious difference among minority communities in Turkey's southern borderlands. In a region often portrayed through the lens of conflict and division, this ethnography brings to life the subtle, often overlooked negotiations occurring in social spaces such as bustling city bazaars, shared worship sites, interfaith unions, home gatherings, and a multireligious choir. Set against the backdrop of major political upheavals in Turkey and Syria before the 2023 earthquakes devastated the region, the book demonstrates how Arab 'Alawis, Christians, and Jews, alongside their Sunni Muslim neighbors, use familiar social idioms—kinship, hospitality, love, and companionship—to reproduce religious differences. Dağtaş argues that religious

difference is more than an identity marker for these communities, as it is often treated in studies focused on statecraft or political movements. It is a dynamic aspect of social relations which is constantly redefined by race, class, citizenship, and gender, and unsettled by overlapping practices and multireligious belonging. *Under the Same Sky* focuses on religious difference as lived and reworked in daily encounters—within the larger context of a majoritarian Turkish Sunni state—inviting readers to reconsider secularism, religious plurality, and the nature of political life.
