

No True Scotsman Logical Fallacy

Bruce N. Waller

Understanding Christian Apologetics Melissa Cain Travis, Sean McDowell, James N. Anderson, D. A. Horton, 2025-08-01
Examine the roots and practicality of biblical and modern apologetics with the guidance of five experts and learn to apply their best practices to your own journey. God has called Christians to be prepared to defend their hope in Christ, but what's the best method for making this defense? In this book, five expert apologists set out together to determine which approach to apologetics is the most faithful to Scripture and the most useful in a secular age. In this fast-paced, and thorough exploration, enjoy learning: Solid, scriptural defenses for the use of apologetics Five different approaches to apologetics (and how to employ them) And much more Understanding Apologetics presents in counterpoint form five popular approaches to the defense of the Christian faith that have developed throughout history—from the early days of Christianity through to our practices today. Apologetics philosophies explored here include: Cultural Apologetics Presuppositional Apologetics Evidential Apologetics Classical Apologetics Ecclesial Apologetics About the Contributors: These defenses are much more than academic. Each contributor is a scholar who also practices apologetics daily. The result is a thorough yet fast-paced and practical guide to defending your faith. Melissa Cain Travis (PhD, Faulkner University) argues that classical apologetics is still vital and relevant today. Sean McDowell (PhD, The Southern Baptist Theological Seminary) contends that evidential apologetics is better suited than other methods when it comes to answering people's doubts about the Christian faith. James N. Anderson (PhD, University of Edinburgh) focuses on epistemology and makes the case for presuppositional apologetics. D. A. Horton (PhD, Southeastern Baptist Theological Seminary) suggests the other perspectives are incomplete until they include cultural apologetics. Timothy Paul Jones (PhD, The Southern Baptist Theological Seminary) retrieves the apologetics methods of the early church and recontextualizes these ancient arguments to meet the challenges of a secular age.

Thinking about Thinking Antony Flew, 1975

Thinking Straight Antony Flew, 1977 A philosopher sets forth and illustrates the principles of logical thinking and reasoning and considers the use of language as a vehicle of thought.

Thinking Critically James H. Kiersky, Nicholas J. Caste, 1995 Incorporates the Critical Technique approach that provides a step-by-step technique for constructing and critically evaluating argumentative reasoning. Successfully integrates informal logic and critical thinking for those instructors who want the flexibility of teaching both. Chapter-opening quotes from rock music captures students attention. Narrative case studies, argumentative writing exercises and Reality Checks with everyday examples of argumentative techniques taken from advertisements reinforce chapter material. Mid- and end-of-chapter exercises are broken into three levels of difficulty to challenge students and aid instructors in evaluating student progress.
