**Reshaping Food Systems to improve Nutrition and Health in the Eastern Mediterranean Region** Ayoub Al-Jawaldeh, Alexa Meyer, 2023-01-09 This detailed and comprehensive study examines nutrition and health in the World Health Organization (WHO) Eastern Mediterranean Region, presenting the six game-changing food systems actions proposed by the WHO and the progress of their implementation in the region. The WHO Eastern Mediterranean Region is a particularly complex place to study: an area of economic contrasts with changing dietary patterns and stark differences between high levels of malnutrition and a prevalence of overweight and obesity. As a result, actions to improve the nutritional situation of the population are urgently sought. The strategies explored in this book offer a unique opportunity to change food systems all over the world, addressing aspects including sustainable food production, the impact of marketing and labelling on behaviour, and the effect of global events such as climate change, war and the COVID-19 pandemic. Reshaping Food Systems is an essential read at a time when malnutrition in all its forms, including undernourishment, micronutrient deficiencies and overweight and obesity, pose a serious threat to global health, and is of particular interest for policymakers working in nutrition and public health.

**Regional Overview of Food Security and Nutrition - Latin America and the Caribbean 2022** Food and Agriculture Organization of the United Nations, World Food Programme, International Fund for Agricultural Development, United Nations International Children's Emergency Fund, 2023-01-18 Regional Overview presents the regional food security and nutrition situation, including trends of undernourishment, food insecurity and all forms of malnutrition, together with other indicators that could help the understanding of the causes of hunger and malnutrition. This edition offers a regional overview of the socioeconomic state of the region; national and regional data and trends regarding the costs and affordability of healthy diets; the possible drivers behind the high cost of healthy diets and their unaffordability; and introduces policies and investments around the region that aim to reduce the cost of nutritious foods and improve the affordability of healthy diets.

**La nutrition en médecine** Diana Cardenas, 2020-12-09 Les progrès de la médecine permettent aujourd'hui de nourrir par nutrition artificielle toutes les personnes malades, dès lors qu'elles ne peuvent pas s'alimenter par elles-mêmes. Toutefois, la malnutrition se présente dans le cadre clinique comme une maladie d'une haute prévalence. Est-il alors possible de faire de la nutrition un sujet éthique, de telle sorte qu'elle soit considérée en médecine comme un véritable soin ?

The United Nations world water development report 2019 WWAP,2019-03-19 Access to water and sanitation is internationally recognized human right. Yet more than two billion people lack even the most basic of services. The latest United Nations World Water Development Report, Leaving No One Behind, explores the symptoms of exclusion and investigates ways to overcome inequalities.

**Oxford Textbook of Palliative Nursing** Betty R. Ferrell,Nessa Coyle,Judith A. Paice,2015 The Oxford Textbook of Palliative Nursing is the definitive text on nursing care of the seriously ill and dying. It is a comprehensive work addressing all aspects of palliative care including physical, psychological, social and spiritual needs. The text is written by leaders in the field and includes an impressive section on international palliative care. Each chapter includes case examples and a strong evidence base to support the highest quality of care. The book is rich with tables and figures offering practical resources for clinical practice across all settings of care and encompassing all ages from pediatrics to geriatrics.

**Latin America and the Caribbean Regional Overview of Food Security and Nutrition 2024** Food and Agriculture Organization of the United Nations,IFAD;,PAHO;,UNICEF;,WFP;,2025-01-27 Latin America and the Caribbean have seen a decline in hunger and food insecurity for two years, driven by social protection programs and post-COVID recovery. However, disparities persist, especially among women, rural populations, and vulnerable groups. The region is unlikely to meet most nutrition targets, and healthy diets remain expensive. Climate variability is increasing in the region, affecting food security across availability, access, utilization, and stability. This climate impact reduces agricultural productivity, disrupts food supply chains, and raises food prices. Vulnerable populations are most affected, with changing diets further exacerbating the situation. Climate change is worsening food security and the causes of malnutrition.

**Health Claims and Food Labelling** Sian Astley,2019-12-03 Providing an introduction to the use of nutrition and health claims, this book explores these claims around the world and the impact of the different legislations on consumers as well as likely developments in the future. As nations tackle the food and health issues of the 21st century, this book will provide a single source drawing together all of these topics. In recent years, nutrition and health claims displayed on food packaging have become more regulated with the dual aims of protecting consumers from false claims and promoting consumption of foods with proven health benefits. Edited by Siân Astley, with contributions from renowned experts, chapters describe the legislation underpinning nutrition and health claims globally, explain the permitted use of claims globally in theory and practice and explore differences between the various legislative frameworks. This book will be of interest to those involved in food health and dietary impact research, as well as food manufacturers, legal and healthcare students with an interest in food, nutrition, bioactive compounds and human health.

*Guidance on implementing patient blood management to improve global blood health status* World Health Organization,2025-03-13 This document has been developed to guide health authorities in implementing patient blood management (PBM) as a national standard of care. The aim is to improve the blood health status of the population in general as well as to improve patient outcomes, safety and quality of care, while reducing the overall cost of health care. This guidance document also addresses the specific roles of single health care organizations in conducting pilot projects as models for national PBM implementation and later to serve as national PBM reference centres.

**Oxford Textbook of Palliative Nursing** Associate Professor Specialty Director Palliative Care Tara A Albrecht,Tara A. Albrecht,Senior Nursing Director Palliative Care Fellowship Director Palliative Care Adult Nurse Practitioner Fellowship Vanessa Battista,Vanessa Battista,Abraham A. Brody,Mathy Mezey Professor of Geriatric Nursing Professor of Medicine Associate Director Hign Abraham A Brody,Director of Research Hospice and Palliative Nurses Association Associate Professor College of Nursing Heather Coats,Heather Coats,2025-10-08 Palliative and hospice care is a specialty that is constantly evolving alongside the needs of its patients. Practitioners must navigate a rapidly growing field to best advocate for and deliver high quality primary and specialty palliative care to persons and families of those living with serious illness. The Oxford Textbook of Palliative Nursing remains the most comprehensive treatise on the art and science of palliative care nursing available. This new edition of the textbook brings together more than 150 nursing experts to help answer real-world questions around the physical, psychological, social, and spiritual needs pertinent to a successful palliative care team. Organized within 9 Sections, this new edition covers the gamut of principles of care: from the time of initial diagnosis of a serious illness to the end of a patient's life and beyond. This sixth edition of The Oxford Textbook of Palliative Nursing mirrors developments in Palliative Care, including several new chapters to support the delivery of palliative care to diverse populations. These chapters explore care for patients living with pulmonary, cardiac, liver, renal, and hematologic diseases, as well as chapters on health inequalities, LGBTQ+ communities, rural communities, and care of those with substance use disorders and serious mental illness. Each chapter is rich with tables and figures, case examples for improved learning, and a strong evidence-based practice to support the highest quality of care. The book offers a valuable and practical resource for students and clinicians across all settings of care. The content is relevant for specialty hospice agencies and palliative care programs, as well as generalist knowledge for schools of nursing, oncology, critical care, and pediatrics. Developed with the intention of emphasizing the need to extend palliative care beyond the specialty to be integrated in all settings and by all clinicians caring for the seriously ill, this new edition will continue to serve as the cornerstone of palliative care education.

*The status of women in agrifood systems* Food and Agriculture Organization of the United Nations,2023-04-13 The status of women in agrifood systems report uses extensive new data and analyses to provide a comprehensive picture of women's

participation, benefits, and challenges they face working in agrifood systems globally. The report shows how increasing women's empowerment and gender equality in agrifood systems enhances women's well-being and the well-being of their households, creating opportunities for economic growth, greater incomes, productivity and resilience. The report comes more than a decade after the publication of the State of food and agriculture (SOFA) 2010-11: Women in agriculture - Closing the gender gap for development. SOFA 2010-11 documented the tremendous costs of gender inequality not only for women but also for agriculture and the broader economy and society, making the business case for closing existing gender gaps in accessing agricultural assets, inputs and services. Moving beyond agriculture, The status of women in agrifood systems reflects not only on how gender equality and women's empowerment are central to the transition towards sustainable and resilient agrifood systems but also on how the transformation of agrifood systems can contribute to gender equality and women's empowerment. It provides a comprehensive analysis of the available evidence on gender equality and women's empowerment in agrifood systems that has been produced over the last decade. The report also provides policymakers and development actors with an extensive review of what has worked, highlighting the promise of moving from closing specific gender gaps towards the adoption of gender-transformative approaches that explicitly address the formal and informal structural constraints to equality. It concludes with specific recommendations on the way forward. Last update 03/08/2023
