**Challenges in Information Technology Management** Man-Chung Chan, Ronnie Cheung, James N. K. Liu, 2008 This volume contains some research papers from the International Conference on Information Technology and Management organized by the Hong Kong Polytechnic University, in conjunction with the Institute of Systems Management (ISM). It comprises 30 selected and refereed papers in the development of enabling technologies, electronic commerce and knowledge management, and IT systems and applications. These papers feature the results of the latest research in the areas of information systems, enabling technologies, and business management, as well as potential applications in industries including education, finance, logistics, medical tourism, and IT services.

**"Right Makes Might"** Wolfgang Mieder, 2019-04-04 "A powerful and timely addition to the literature of rhetoric and folklore." —Choice In 1860, Abraham Lincoln employed the proverb Right makes might—opposite of the more aggressive Might makes right—in his famed Cooper Union address. While Lincoln did not originate the proverb, his use of it in this critical speech indicates that the fourteenth century phrase had taken on new ethical and democratic connotations in the nineteenth century. In this collection, famed scholar of proverbs Wolfgang Mieder explores the multifaceted use and function of proverbs through the history of the United States, from their early beginnings up through their use by such modern-day politicians as Barack Obama, Hillary Rodham Clinton, and Bernie Sanders. Building on previous publications and

unpublished research, Mieder explores sociopolitical aspects of the American worldview as expressed through the use of proverbs in politics, women's rights, and the civil rights movement—and by looking at the use of proverbial phrases, Mieder demonstrates how one traditional phrase can take on numerous expressive roles over time, and how they continue to play a key role in our contemporary moment.

Challenges In Information Technology Management - Proceedings Of The International Conference James Nga Kwok Liu, Ronnie Chu Ting Cheung, Man-chung Chan, 2008-05-14 This volume contains some research papers from the International Conference on Information Technology and Management organized by the Hong Kong Polytechnic University, in conjunction with the Institute of Systems Management (ISM). It comprises 30 selected and refereed papers in the development of enabling technologies, electronic commerce and knowledge management, and IT systems and applications. These papers feature the results of the latest research in the areas of information systems, enabling technologies, and business management, as well as potential applications in industries including education, finance, logistics, medical tourism, and IT services.
