Desiderius Erasmus

Plutarch's Life of Alcibiades Simon Verdegem, 2010 At the beginning of the second century C.E., Plutarch of Chaeronea wrote a series of pairs of biographies of Greek and Roman statesmen. Their purpose is moral: the reader is invited to reflect on important ethical issues and to use the example of these great men from the past to improve his or her own conduct. This book offers the first full-scale commentary on the Life of Alcibiades. It examines how Plutarch's biography of one of classical Athens' most controversial politicians functions within the moral program of the Parallel Lives. Built upon the narratological distinction between story and text, Simon Verdegem's analysis, which involves detailed comparisons with other Plutarchan works (especially the Lives of Nicias and Lysander) and several key texts in the Alcibiades tradition (e.g., Plato, Thucydides, and Xenophon), demonstrates how Plutarch carefully constructed his story and used a wide range of narrative techniques to create a complex Life that raises interesting questions about the relation between private morality and the common good.

Generic Enrichment in Plutarch's Lives Chrysanthos S. Chrysanthou, Timothy E. Duff, 2024-11-29 This volume addresses the important literary phenomenon of 'generic enrichment' in Plutarch's Parallel Lives. It examines the ways in which features of other genres are deployed and incorporated in Plutarch's biographies and the effects of this on the texts themselves and readers' responses to them. 'Generic enrichment', a term coined by Stephen Harrison with reference to Latin poetry, is used here to refer to the different ways in which a text of one genre might incorporate or evoke features of other genres. The fact that particular Plutarchan biographies may contain not only allusions to specific texts from a variety of genres, but also features such as vocabulary, phraseology, and plot-forms which evoke other genres, has been noticed sporadically by scholars. However, this is the first volume to discuss this feature as a distinct phenomenon across the corpus of Parallel Lives and to attempt an assessment of its effect. Chapters cover the interaction of Plutarchan biography with a series of genres, including archaic poetry, comedy, tragedy, historiography, philosophy, geographical and scientific texts, oratory, inscriptions, novelistic writing and periegetical works. Together these studies demonstrate the generic complexity and richness of Plutarch's Lives, enhance our understanding of ancient biography in general and Plutarchan biography in particular, and explore the range of effects such generic enrichment might have on readers. *Generic Enrichment in Plutarch's Lives* is of interest to students and scholars of Plutarch and ancient biography, as well as to those working in other periods and genres of both Latin and Greek literature, and to those beyond the field of Classical Studies who are interested in

questions of genre and literary theory.

Classical World Literatures Wiebke Denecke,2014 Ever since Karl Jaspers's axial age paradigm, there have been a number of influential studies comparing ancient East Asian and Greco-Roman history and culture. However, to date there has been no comparative study involving multiple literary traditions in these cultural spheres. This book compares the dynamics between the younger literary cultures of Japan and Rome and the literatures of their venerable predecessors, China and Greece. How were writers of the younger cultures of Rome and Japan affected by the presence of an older reference culture, whose sophistication they admired, even as they anxiously strove to assert their own distinctive identity? How did they tackle the challenge of adopting the reference culture's literary genres, rhetorical refinement, and conceptual vocabulary for writing texts in different languages and within distinct political and cultural contexts? *Classical World Literatures* captures the striking similarities between the ways early Japanese authors wrote their own literature through and against the literary precedents of China, and the ways Latin writers engaged and contested Greek precedents. But it also brings to light suggestive divergences that are rooted in geopolitical, linguistic, sociohistorical, and aesthetic differences between early Japanese and Roman literary cultures. Proposing a methodology of deep comparison for the cross-cultural comparison of premodern literary cultures and calling for an expansion of world literature debates into the ancient and medieval worlds, *Classical World Literatures* is both a theoretical intervention and an invitation to read and re-read four major literary traditions in an innovative and illuminating light.
