The Moral of the Story Nina Rosenstand,2003 This popular text uses examples from fiction and film to show how ethical theories can be applied. By linking abstract theory to real life through storytelling and story analysis, Rosenstand offers a remarkably effective way of helping students understand and evaluate moral issues.

The Mind-Game Film Thomas Elsaesser, 2021-03-28 This book represents the culmination of Thomas Elsaesser's intense and passionate thinking about the Hollywood mind-game film from the previous two decades. In order to answer what the mind-game film is, why they exist, and how they function, Elsaesser maps the industrial-institutional challenges and constraints facing Hollywood, and the broader philosophic horizon within which American cinema thrives today. He demonstrates how the 'Persistence of Hollywood' continues as it has adapted to include new twists and turns, as well as revisions of past concerns, as film moves through the 21st century. Through examples such as *Minority Report*, *Mulholland Drive*, *Source Code*, and *Back to the Future*, Elsaesser explores how mind-game films challenge us and play games with our perception of reality, creating skepticism and (self-) doubt. He also highlights the mind-game film's tendency to intervene in a complex fashion in the political moment by questioning the dominant power's intent to program both body and mind alike. Prescient and compelling, *The Mind-Game Film* will appeal to students, scholars, and enthusiasts of media studies, film studies, philosophy, and politics.

Making Sense of Cinema CarrieLynn D. Reinhard, Christopher J. Olson, 2017-08-24 Explores a variety of theological and methodological approaches to film spectatorship through a dialogue of international contributions.

Social Studies for the Twenty-First Century Jack Zevin, 2023-03-17 Now in its 5th edition, this popular text offers practical, interesting, exciting ways to teach social studies and a multitude of instructional and professional resources for teachers. Theory, curriculum, methods, and assessment are woven into a comprehensive model for setting objectives; planning lessons, units, and courses; choosing classroom strategies; and constructing tests for some of the field's most popular and enduring programs. The reflective and integrative framework emphasizes building imagination, insight, and critical thinking into everyday classrooms; encourages problem-solving attitudes and behavior; and provokes analysis, reflection, and debate. Throughout the text, all aspects of curriculum and instruction are viewed from a tripartite perspective that divides social studies instruction into didactic (factual), reflective (analytical), and affective (judgmental) components. These three components are seen as supporting one another, building the groundwork for taking stands on issues, past and present. At the center is the author's belief that the heart and soul of social studies instruction, perhaps all teaching, lies in stimulating the production of ideas; looking at knowledge from others' viewpoints; and formulating for oneself a set of goals, values, and beliefs that can be explained and justified in open discussion. This new edition is heavily revised and condensed to promote ease of use. Build Your Own Lesson additions to each chapter encourage improvisation and inquiry-based teaching and learning across subjects. A Companion Website offers additional activities, lessons, and resources for pre-service and practicing social studies teachers.

Great Events from History: 1998-2008 Carl Leon Bankston,2009 The latest edition in the overwhelmingly popular Great Events from History series, Modern Scandals examines over 400 of the most important and most publicized scandals throughout the world since the beginning of the twentieth century. The essays in this set are 3-5 pages long and follow the same reader-friendly format that users have come to expect from the Great Events from History series.

Transatlantic Encounters: Public uses and misuses of history in Europe and the United States David Keith Adams,Maurizio Vaudagna,2000 Discussions about fundamental historical events of the past century have invaded the public domain; Public opinion and policy-makers ask framers of the public image of the past to provide guidance, reassurance, and legitimisation. Increasing social heterogeneity and cultural difference force us to revise our traditional concepts of culture and examine the public, social and pedagogical implications of multiculturalism in an explicitly comparative perspective. This book explores how history has been used to support or oppose the political orders of our century as well as its great themes, and how historians have dealt with issues of scholarly objectivity, personal beliefs, and public commitment.
