Animal Spirit Guides Steven D. Farmer, PhD, 2006-11-01 AN EASY-TO-USE HANDBOOK FOR IDENTIFYING AND UNDERSTANDING YOUR POWER ANIMALS AND ANIMAL SPIRIT HELPERS After the publication of his best-selling book Power Animals, many people inquired about the meaning of spirit animals that were not contained in that work. In Animal Spirit Guides, Dr. Farmer provides concise, relevant details about the significance of more than 200 animals that may come to you in physical or symbolic form as guides and teachers. With each animal listed, you'll find general meanings of the visitation; practical ways that they can help you as spirit guides; and how, as your power animal, they reflect characteristics that you possess. You'll also find a whom-to-call-on section that will tell you which animal spirit guide to call on for any specific purpose.

Spirit Animals and the Wheel of Life Hal Zina Bennett, 2001-02-01 Though our ancient ancestors had a deep spiritual connection to the natural world, most modern humans have lost that connection, resulting in ever-increasing ecological assaults on our planet. As environmental quality continues to worsen, we must find a way to spiritually reconnect with Mother Earth--before it is too late. Ecospiritualism is a form of spirituality that embraces, and takes responsibility for, the natural world we live in. One of the most practical, enjoyable, and simple ways of reclaiming our ecospiritual connection with Mother Earth is journeying with the spirits of animals just as our ancestors did thousands of years ago. Animals, most intimately connect with Mother Earth, are the perfect guides to the ancient wisdom we have lost. Mole, eagle, badger, wolf, bear, mountain lion--each animal has its place on the sacred medicine wheel; each has knowledge vital to the future of our Earth and to rediscovering our rightful place in it. In Spirit Animals, author Hal Zina Bennett offers an accessible form of spiritual orienteering in which personal power animals are the guides and teachers, and shamanism is the means by which we work with and learn from them.

Medicine Wheel Trilogy Grandmother Puddingstone,2018-04-23 Lost? Confused? Burned out? Defeated? Alone? The Medicine Wheel can give you the answers that you are searching for. All religions deal with the circle of life and death. Your life will make more sense when you follow the wheel. The Medicine Wheel is already working for you. My people call the wheel the good red road. The Irish say, May the road rise up to meet you, etc. Poets write about the road not taken. We are all on the road of life; how we travel, it is our own decision. In the city, people feel that you cannot make a Medicine Wheel, but I have many friends that say you can. One of my friends lives in an apartment in the heart of the city with traffic noise from the bridge and the streets below. He lives close to the river, and he can hear the sounds of the ships and fog horns. The wheel is a tool that provided him with the balance and the right path he needed to follow in his life. I started this book in June 1987, and I kept struggling with writing it because I didn't want to give away secrets that were known only to medicine people. Many of my people were saying that too many non-Indian people are writing about Native American Indians medicine and know nothing about it. They did not want the secrets of the Medicine Wheel known to the general public. I taught my people, but only a few were interested. They did not want to learn about their heritage and personal medicine. My medicine teacher said in order to save the knowledge and pass it on, I had to write this book for the good of all people. Now I leave this knowledge in your hands. Share and explore!

Human-Environment Relations and Politics in Indonesia Kristina Großmann,2021-08-25 This book analyses how people in Kalimantan, the Indonesian part of the island of Borneo, relate to their environment in different political and historical contexts. Drawing on multi-sited ethnographic studies of Dayak people, the indigenous inhabitants of Borneo, the book examines how human-environment relationships differ and collide. These conflicting ecologies are based on people's relation to the environment, which encompasses the non-human realm in the widest sense, including forests, rivers, land, natural resources, animals and spirits. The author argues that relationality and power are decisive factors for the understanding and analysis of peoples' ecologies. The book integrates different theoretical approaches, sheds light upon the environmental transformation taking place in Indonesia, as well as the social exclusion it entails, and highlights the conceptual shortcomings of universalistic concepts of human-environment relations. An exploration of evolving human-nature relations, this book will be of interest to academics studying political ecology, environmental anthropology, sustainability sciences, political sciences, development studies, human geography, human ecology, Southeast Asian studies, and Asian studies.
