Death and Dying Nicole Piemonte, Shawn Abreu, 2021-09-07 An examination of the contemporary medicalization of death and dying that calls us to acknowledge instead death's existential and emotional realities. Death is a natural, inevitable, and deeply human process, and yet Western medicine tends to view it as a medical failure. In their zeal to prevent death, physicians and hospitals often set patients and their families on a seemingly unstoppable trajectory toward medical interventions that may actually increase suffering at the end of life. This volume in the MIT Press Essential Knowledge series examines the medicalization of death and dying and proposes a different approach--one that acknowledges death's existential and emotional realities. The authors--one an academic who teaches and studies end-of-life care, and the other a physician trained in hospice and palliative care--offer an account of Western-style death and dying that is informed by both research and personal experience. They examine the medical profession's attitude toward death as a biological dysfunction that needs fixing; describe the hospice movement, as well as movements for palliative care and aid in dying, and why they failed to influence mainstream medicine; consider our reluctance to have end-of-life conversations; and investigate the commodification of medicine and the business of dying. To help patients die in accordance with their values, they say, those who care for the dying should focus less on delaying death by any means possible and more on being present with the dying on their journey.

Master Kierkegaard: The Complete Journals Ellen Brown, 2013-05-08 In this serial work of religious historical fiction, Magda, a fallen woman from Berlin turned maidservant in the house of Søren Kierkegaard, seeks the full life that has thus far eluded her. Two journals set in the summer of 1847 record Magda's responses to the Luther Bible, Goethe's Faust, and her elusive yet compelling master, who is simultaneously crafting his Works of Love. Three journals set in the fall, winter, and people's spring of 1847 and 1848 reflect Magda's ongoing engagement with secular and sacred writings, her sporadic yet intimate interactions with her master, the precariousness of her position in his household, and the rapidly changing social landscape, at the same time as Kierkegaard begins, revises, or completes several of his most existential and prophetic works. A sixth journal set in the summer of 1848 reveals Magda's final disposition. Is she judged, or is she saved?

Kierkegaard's Incarnational Mission Michio Ogino, 2025-06-30 One lacuna in Søren Kierkegaard scholarship is in analyzing his works with his self-described identity as a "missionary to Christendom" in mind. Challenging the international

connotation of the term “missionary,” Dr. Michio Ogino examines Kierkegaard’s works in which he identified himself as a missionary writer, to reveal how he considered being a missionary an integral part of being a Christian. By chronologically and empirically examining the writings of Søren Kierkegaard, Dr. Ogino argues that Kierkegaard not only proclaimed Jesus Christ in his homeland but did so in a manner similar to how Christ had done on earth, incarnating the Christian message for his contemporaries. Through this provocative exploration, Ogino lays out how the application of Kierkegaardian mission can help to overcome five recognized barriers in Japanese evangelization. Kierkegaard scholars and readers will find a new understanding of the motivations and reasoning behind his works, and missionaries, not only to Japan but all nations, will be encouraged in how his approach can be applied in their context.

On the Politics of Kinship Hannes Charen,2022-03-15 In this book, Hannes Charen presents an alternative examination of kinship structures in political theory. Employing a radically transdisciplinary approach, *On the Politics of Kinship* is structured in a series of six theoretical vignettes or frames. Each chapter frames a figure, aspect, or relational context of the family or kinship. Some chapters are focused on a critique of the family as a state-sanctioned institution, while others cautiously attempt to recast kinship in a way to reimagine mutual obligation through the generation of kinship practices understood as a perpetually evolving set of relational responses to finitude. In doing so, Charen considers the ways in which kinship is a plastic social response to embodied exposure, both concealed and made more evident in the bloated, feeble, and broken individualities and nationalities that seem to dominate our social and political landscape today. *On the Politics of Kinship* will be of interest to political theorists, feminists, anthropologists, and social scientists in general.

A New Awareness Dominic Arcamone,2024-02-29 *A New Awareness* is an endeavor of affection and generosity toward Sebastian Moore. The book examines his key theological insights and themes over seventy years and proposes that they are still relevant today for the Christian Community. He was a theologian and poet. He wrote about many theological topics: the significance of Jesus, the experiences of the disciples and their meaning for us, redemption, the Trinity, sexuality and ecclesiology, and original sin. But he is mainly known for being the theologian of desire: self-love to self-gift, desire is love trying to happen, to be myself for another, and the insight that there is no more wonderful reality than to be desired by the one you desire.

Religion in Diverse Societies Pauline Kollontai,Sue Yore,2024-11-11 *Religion in Diverse Societies: Crossing the Boundaries of Prejudice and Distrust* contributes to existing cutting-edge research on the constructive way in which religion can support the promotion of respect, dignity, and justice for all people, considered as essential features in shaping sustainable, diverse, and peaceful societies. Through a combination of theoretical perspectives and theological analysis, applied to real-life contexts, the diverse contributions examine the role of religion in helping to achieve this and thereby

challenge the attitudes and practices that create walls of prejudice and distrust. This timely volume provides a critical discussion of the complex role of religions in the public and political spheres in a range of global contexts and furthers the inter-religious, international, and interdisciplinary understanding of how religion can contribute to promoting and helping create inclusive and diverse societies.

Consumer Involvement in Private EU Competition Law Enforcement Maria Ioannidou, 2015-09-03 Despite the growing importance of 'consumer welfare' in EU competition law debates, there remains a significant disconnect between rhetoric and reality, as consumers and their interests still play only an ancillary role in this area of law. *Consumer Involvement in Private EU Competition Law Enforcement* is the first monograph to exclusively address this highly topical and much debated subject, providing a timely and wide-ranging examination of the need for more active consumer participation in competition law. Written by an expert in the field, it sets out a comprehensive framework of policy implications and arguments for greater involvement, positioning the debate in the context of a broader EU law perspective. It outlines pragmatic approaches to remedial and procedural measures that would enable consumer empowerment. Finally, the book identifies key institutional and political obstacles to the adoption of effective measures, and suggests alternative routes to enhance the role of consumers in private competition law enforcement. The book's innovative approach, combining normative analysis and practical solutions, make it invaluable for academics, policy-makers, and practitioners in the field.

The Metaphysics of Modernity Ulrich Steinvorth, 2013 Does the modern age have a specific attitude to the world, a way to make sense of the myriad stimuli that impinge on human organisms or, as I call it, a metaphysics? This book claims it has. It shows that what crucially changed Europe from the 16th century on was the spreading idea that things are best done for their own sake, for goals inherent in an activity, such as the goal of telling a good story or having a lively chat, inheres in the telling or chatting itself. The Renaissance took this idea from the ancients who also preferred intrinsic goals to extrinsic ones; but the moderns discovered that the pursuit of intrinsic goals follows an immanent rationality that sets perfection standards to the activity. Thus, they could and did perfect activities that in antiquity had remained on the level of dabbling leisure-time activities, and transformed them into professions that we know today as theology, science, political theory, the arts, sports, or journalism. The European bourgeoisie, though, performed the most revolutionary yet also suicidal change. They made traditional trade, the pursuit of the extrinsic goal of acquiring money, into an activity done for its own sake and enforced autonomy for its sphere, just as the religious had enforced autonomy for their religious activities already in the 11th century. They were so successful that they could take over the command of production in the industrial revolution and impose on all other spheres of society their goal of private profitability. This was the historical end of the metaphysics of modernity. But this book also argues that its principle, the preference of intrinsic to extrinsic goals, is still the best attitude to the world we can choose and that it is the best starting point for solving many problems of contemporary societies.

Reflections on the Meaning of Mental Integrity Marcia A. Murphy, 2021-12-07 How is mental integrity (the state of being complete, whole) achieved in light of serious mental illness? The author's intent is that this work will be a source of insight and healing for many and that it will equip the church, conjoined with the medical/scientific field of psychiatry, to do a better job of enabling people living with mental illness to access the resources they need for becoming whole. The author shares some of her personal story of experience with serious mental illness, i.e., its genesis and her subsequent recovery process, which included involvement in a Christian community and her ministry work as an advocate for the mentally ill.

Kierkegaard's International Reception: The Near East, Asia, Australia and the Americas Jon Bartley Stewart, 2009

Revolution, Democratic Transition and Disillusionment Anca Pusca, 2008 This book develops a fresh and challenging perspective on the transition from communism to capitalism. Drawing on a wide and diverse range of material and texts, it argues that transition and democratization studies should turn their attention towards processes of illusion formation and disillusionment as key to understanding the shift from one ideological framework to another. The author provides alternative approaches to otherwise classical sites of examination of social change--such as revolutions and the emergence of civil society--and proposes a number of new possible sites by analyzing the politics of self-reflection, the element of shock inherent in any transition and the role of visual narratives in negotiating change. The chapters are inspired by unique interviews and discussions with the leaders of the Timisoara Revolution, the Group of Social Dialogue--the first civil society organization in post-communist Romania, the leading author of the Presidential Report Analysing the Communist Dictatorship in Romania and an innovative group of photographers tracing the Romanian transition through images.

The Sickness Unto Death M. Holmes Hartshorne, 195?

The Individual as Relation Elizabeth Ann Misch, 1987 *The Sickness Unto Death* is a book about various sorts of despair, both conscious and unconscious. It is, moreover, a work of psychology written toward a specific destination: the resounding disclosure of the Christian dogmatic themes which run quietly through each individual's life. In other words, it is Kierkegaard's theological agenda to show how despair, the various forms of which he diagnoses in Part One of *The Sickness Unto Death*, is attributable to the individual's misrelation to God -- i.e., sin.

Sources of World Societies, Volume II: Since 1450 Denis Gainty, Walter D. Ward, 2011-10-04 Designed to accompany McKay et al.'s *A History of World Societies*, each chapter of *Sources of World Societies* contains approximately six sources that present history from the perspectives of well-known figures and ordinary individuals alike. Now with visual sources and two more documents per chapter, this edition offers breadth and depth. Headnotes and questions supplement each document, while a new "Viewpoints" feature highlights two or three sources per chapter that address a single topic from different perspectives. Comparative questions ask students to make connections between sources and across time.
