*Communication Activities for the Classroom* Ariel Gratch, Lyndsay Michalik Gratch, Andrea Baldwin, 2025-10-16 This book contains over 20 activities for use in the in-person communication studies classroom. Communication is an embodied act: our thoughts, ideas, and messages originate in our body and through our experiences. An embodied approach to pedagogy fosters inclusivity, creativity, and critical thinking, making classrooms more dynamic and equitable spaces. Drawing on a wide range of performance studies-based approaches and theories, the activities in this book can be applied across the communication studies curriculum, including relational communication, organizational communication, media studies, public address, and communication and culture. Whether you are hesitant to incorporate performance in your classroom or you regularly invite your students to “get up and play,” the activities in this book provide a step-by-step guide that is accessible to all communication teachers.

*Coping with Speech Anxiety* Joe Ayres, Tim Hopf, 1993-01-01 Grounded in cognitive, affective, and behavioral elements, speech anxiety is a serious problem for a large number of people and has been found to affect career development as well as academic performance. *The Challenge of Effective Speaking* Rudolph F. Verderber, 2000 Wadsworth's best selling Public Speaking text, the Verderbers' CHALLENGE OF EFFECTIVE SPEAKING, features a skills-oriented, mainstream approach that has effectively led hundreds of thousands of students through the challenges they face as they develop and deliver speeches. The speech making process is presented in a six-step framework based on classical and contemporary theory. The straightforward writing style and effective use of examples enables students to understand and effectively perform key speech making activities. The six-step framework emphasizes topic selection, audience analysis and adaptation, effective research (including appropriate use of Internet resources), organization (with emphasis on outlining), language and delivery. The six action steps are introduced in generic form and then later adapted to follow principles of informative and persuasive speaking.

**Public Speaking for Criminal Justice Professionals** Thomas Mauriello, 2020-07-06 Public Speaking for Criminal Justice Professionals: A Manner of Speaking is a one-of-a-kind public speaking guide specifically written for criminal justice professionals, written by a criminal justice professional. Author Thomas Mauriello has worked his entire professional career

both as a practitioner and as an educator in the fields of criminal justice and forensic science. This book outlines the public speaking skills he has learned, used, and taught to thousands of criminal justice, forensic science, security, and counterintelligence professionals over the years. The book can either be read from cover-to-cover—to fine tune the reader's existing oral communication skills—or read in a modular fashion, as a reference guide to focus on certain skills and techniques. A list of over 55 proven, effective presentation tools will be listed, discussed, and demonstrated throughout the book—using illustrated criminal justice and forensic sciences topic examples. Contrary to popular believe, simply knowing your subject or being an expert in the subject does not guarantee a successful presentation. Aristotle, who many recognize as the Father of Public Speaking and Forensic Debate, said it best when he declared, It is not enough to know what to say, one must know how to say it. This guide focuses on technique and the recognition that a speaker must have of both the subject and the listener. The purpose is to improve readers' skill level and ability to engage and, thereby, inform the listener. Whether preparing to speak to one person, or one thousand people, Public Speaking for Criminal Justice Professionals provides specific techniques for professionals to speaking with confidence, and present effective engaging presentations.
