Handbook of Demonstrations and Activities in the Teaching of Psychology Mark E. Ware,David E. Johnson,2013-09-05 For those who teach students in psychology, education, and the social sciences, the Handbook of Demonstrations and Activities in the Teaching of Psychology, Second Edition provides practical applications and rich sources of ideas. Revised to include a wealth of new material (56% of the articles are new), these invaluable reference books contain the collective experience of teachers who have successfully dealt with students' difficulty in mastering important concepts about human behavior. Each volume features a table that lists the articles and identifies the primary and secondary courses in which readers can use each demonstration. Additionally, the subject index facilitates retrieval of articles according to topical headings, and the appendix notes the source as it originally appeared in Teaching of Psychology--especially useful for users needing to cite information. The official journal of the Society for the Teaching of Psychology, Division Two of the American Psychological Association, Teaching of Psychology is a highly respected publication devoted to improving teaching and learning at all educational levels. Volume II consists of 99 articles about teaching physiology, perception, learning, memory, and developmental psychology. Divided into eight sections (four devoted to developmental psychology and one for each of the other specialties), the book suggests ways to stimulate interest, promote participation, collect data, structure field experience, and observe and interact with patients.

Are You Superstitious? Toni Klein, 2019-10-30 Can you actually avoid fate? You, along with millions of others, probably do it every day by following ... superstitions! Dodging black cats. Walking around an open ladder. Sidestepping cracks in the sidewalk. Each foretells calamity if you do not follow the rules of superstition. Have you mastered your own destiny by practicing these old myths? Or not? From the origins of the most popular and obscure beliefs and old wives' tales to the songs that have been written about them, author Toni Klein (Passport to Heaven's Angelic Messages, Fairies, Ian Greets The World) takes a fascinating look at the superstitions that guide our daily lives and why we observe them so unquestioningly.

Letters of the Century Lisa Grunwald, Stephen J. Adler, 1999 In more than 400 letters from both famous figures and ordinary citizens, LETTERS OF THE CENTURY encapsulates the people and places, events and trends that shaped our nation during the last hundred years. In these pages our century's most celebrated figures from Mark Twain to Albert Einstein, Charlie Chaplin to Franklin Roosevelt become everyday people, and everyday people become part of history. Here is a veteran's wrenching letter left at the Vietnam Wall, a poignant correspondence between two women trying to become mothers, a heartbreaking letter from an AIDS sufferer telling his parents how he wants to be buried, and an indignant e-mail from a PC user to his on-line server. Arranged chronologically by decade, illustrated with over a hundred photographs, LETTERS OF THE CENTURY creates an extraordinary chronicle of our history through the voices of the men and women who have lived its greatest moments.
