

Words To Describe Taste

Natsuko Tsujimura

Taste Barb Stuckey, 2013-03-26 Whether it's a grilled cheese sandwich with tomato soup or a salted caramel coated in dark chocolate, you know when food tastes good. Now here's the amazing story behind why you love some foods and can't tolerate others. Whether it's a salted caramel or pizza topped with tomatoes and cheese, you know when food tastes good. Now, Barb Stuckey, a seasoned food developer to whom food companies turn for help in creating delicious new products, reveals the amazing story behind why you love some foods and not others. Through fascinating stories, you'll learn how our five senses work together to form flavor perception and how the experience of food changes for people who have lost their sense of smell or taste. You'll learn why kids (and some adults) turn up their noses at Brussels sprouts, how salt makes grapefruit sweet, and why you drink your coffee black while your spouse loads it with cream and sugar. Eye-opening experiments allow you to discover your unique taster type and to learn why you react instinctively to certain foods. You'll improve your ability to discern flavors and devise taste combinations in your own kitchen for delectable results. What Harold McGee did for the science of cooking Barb Stuckey does for the science of eating in *Taste*--a calorie-free way to get more pleasure from every bite.

Food, Language, and Society Natsuko Tsujimura, 2023-02-15 *Food, Language, and Society: Communication in Japanese* Foodways examines the language of food in Japanese through the lens of cognitive science and cultural studies to explore intriguing ways in which language, food, and culture interact in the fabric of Japanese society. The questions of how, where, and by whom food and food experiences are described provide abundant opportunities for investigating relationships

between language and culture from multi-disciplinary perspectives. Linguistic analysis of the language of food enables us to understand cognitive information that motivates and influences people's rhetorical choices on foodways. Detailed discussions reveal that loanwords, mimetics, cooking terms, and metaphors serve as lynchpins to enrich the expressive power of the language of food. Food discourse situated in broader social and cultural contexts also reflect social norms and cultural practices deeply embedded within and beyond our gustatory and culinary life. Food narratives as in cookbooks and advertisements are an informative means for virtual interpersonal communication where individual and group identity is indexed, providing a platform for reexamination of gender and other social norms as response to changes in society. Examined from the interaction of linguistic and sociocultural perspectives, *Food, Language, and Society* illuminates the form, use, and social meaning of the language of food.

Surrounded by Bitterness Philip D. King, 2012-01-20 How did the ancient Hebrew writers understand their emotional experiences of being in distress? Were their feelings similar to those of an English speaker who feels down, or were there other embodied experiences they used to make sense of physical, social, and emotional distress? This research establishes a cognitive linguistic methodology for addressing these questions, and investigates the use of embodied experiences of VERTICALITY, CONSTRAINT, FORCE, DARKNESS, and BAD TASTE in the conventional language of classical Hebrew lament to understand and reason about situations of distress.
