A Concise History of Afghanistan in 25 Volumes Hamid Wahed Alikuzai, 2013-10-10 Afghanistan Literature is Worlds greatest and richest without Afghan- Literature no European (German, French, Spanish or English) Literature would exist today The Vedas, Zoroastrian, and Buddhist, among the oldest known Literature of Afghanistan, originating from the Great capital of Bactria present day Balkh, and Aria present day Herat, Sanskrit is the reference to the original history of Afghanistan. The Saxon Europeans influence during the Great Games of the mid nineteenth century affected the Afghan language, religion and Territories size, which previously had extended from India to North Africa at 2.6 million square kilometers. The Great Games continued at any cost evolving into present-day conflicts of 2013.

The Languages and Linguistics of South Asia Hans Henrich Hock, Elena Bashir, 2016-05-24 With nearly a quarter of the world's population, members of at least five major language families plus several putative language isolates, South Asia is a fascinating arena for linguistic investigations, whether comparative-historical linguistics, studies of language contact and multilingualism, or general linguistic theory. This volume provides a state-of-the-art survey of linguistic research on the languages of South Asia, with contributions by well-known experts. Focus is both on what has been accomplished so far and on what remains unresolved or controversial and hence offers challenges for future research. In addition to covering the languages, their histories, and their genetic classification, as well as phonetics/phonology, morphology, syntax, and sociolinguistics, the volume provides special coverage of contact and convergence, indigenous South Asian grammatical traditions, applications of modern technology to South Asian languages, and South Asian writing systems. An appendix offers a classified listing of major sources and resources, both digital/online and printed.

Decolonizing Global Intelligence Pak Nung Wong, 2025-07-24 From September 11 to the calamitous withdrawal of United States troops from Afghanistan, Western intelligence has failed to negotiate the largest military and humanitarian crises across the world. This book proposes to decolonize global intelligence from the peripheries of the Global South and put forward a new intelligence practice of 'inclusive statecraft'. It shows how dominant Western intelligence systems have failed to protect the very ideas they promised to uphold and the discrepancy between the West's 'Responsibility to Protect (R2P)' liberalist doctrine and the realist on-the-ground complex reality as observed by the 'Failure to Protect (F2P)' scholarships. Drawing theoretical insights and empirical (both historical and contemporary) materials from a wide array of case studies of

Western and non-Western intelligence settings and practices as well as their interactions, it argues that the next generation of global security and intelligence practitioners will necessitate genuine interracial, non-anthropocentric and cross-cultural inclusivity, especially the capability to take the non-Western intelligence cultures and their realist strategic thoughts seriously. This book will not just add new knowledge to the larger field of security and intelligence studies, but will also pioneer the relatively underdeveloped fields of comparative intelligence cultures, and interstellar intelligence/cultural studies. It will be indispensable for policymakers, bureaucrats and government officials.

Secret Languages of Afghanistan and Their Speakers Jadwiga Pstrusińska, 2014-07-18 This is a study of an almost inaccessible area of the intricate linguistic fabric of Afghanistan – namely, its secret codes of communication. The text draws on a profound knowledge of Afghanistan and neighbouring regions, as well as the cultural and sociolinguistic processes at work across Eurasia. The author situates these sociolinguistic matters within the appropriate diachronic and comparative background, and traces the numerous threads which connect them to areas both close to and distant from Afghanistan. The book will be of great interest to scholars from a wide range of disciplines, including, but extending beyond, the realms of linguistics, cultural history, and sociology. It will also be of practical value in many areas, notably with regards to military and political issues, as well as humanitarian aid.

Crossing the River Kabul Kevin McLean, 2017 Baryalai Popal sees his Western-educated professors at Kabul University replaced by communists. He witnesses his classmates disappearing. The communist takeover uproots Popal from his family and home. Thus begins Crossing the River Kabul, the true story of Popal's escape from Afghanistan and his eventual return. Kevin McLean weaves together Popal's stories in this memoir, which is also a fascinating look at Afghanistan from the viewpoint of Popal and generations of his politically influential family. From the exile of Popal's grandfather from Kandahar in 1898 to his father's tutoring of two boys who as adults would play important roles in Afghanistan—one as king and the other as president—to his uncle's presence at the fateful meeting that led to the Soviet invasion of Afghanistan, Popal's family history is intertwined with that of his nation. Popal fled his country following the Russian invasion of Afghanistan in 1980. After being imprisoned as a spy in Pakistan, he managed to make his way to Germany as a refugee and to the United States as an immigrant. Twenty years later he returned to Afghanistan after 9/11 to reclaim his houses, only to find one controlled by drug lords and the other by the most powerful warlord in Afghanistan. Popal's memoir is an intimate, often humorous portrait of the vanished Afghanistan of his childhood. It is also the story of a father whose greatest desire is to see his son follow in his footsteps, and a son who constantly rebels against his father's wishes. Crossing the River Kabul is a story of choice and destiny, fear and courage, and loss and redemption.
