Enlightening Findings of an Entrepreneur Mother : Unschooling Shraddha Pingale,2023-08-29 About the Book: Enlightening Findings of an Entrepreneur Mother: Unschooling is a groundbreaking book written by an author who shares her experience of unschooling her children. The author, an entrepreneur mother, has successfully embraced unschooling as a way of life and believes that it is the most effective way of educating children. Through her insightful and thought-provoking book, the author shares her journey, struggles, and triumphs in educating her children outside of the traditional school system. This book is an invaluable resource for parents who are looking for alternative educational options for their children

and are interested in exploring the unschooling philosophy. It is a must-read for anyone who is curious about how unschooling can transform the way we educate our children. This book is a must-read for parents who are searching for the true meaning of education. The author dives deep into what it means to educate oneself and challenges the current system of rote learning. She questions whether this system is meeting the requirements of life or if it is simply teaching our children how to pursue a career and earn a basic living. Through her personal experiences with unschooling, the author sheds light on how we can provide our children with a more fulfilling and enriching education that goes beyond academic grades and focuses on self-discovery, creativity, and self-directed learning to explore possibilities for life, and not just career centric education. This book is an invitation for parents to rethink their approach to education and explore alternative options that can truly prepare their children for a successful and meaningful life. About the Author: Shraddha Pingale, Jt. Managing Director of Econstruct Design and Build Pvt Ltd and an M.Tech graduate, is a recognized figure in business management and education. A dynamic leader, she's the driving force behind her company, persisting even in challenging situations. Involvement in recruitment processes across India gave Shraddha unique insights into the education system. She realized that true education encompasses more than career-building—it should provide a life purpose and a balanced mix of life skills, soft skills, and hard skills. This revelation led her to un-school her son and establish The Life Engineering Foundation with her husband, Sandeep. The Life Engineering Foundation serves as a support system for parents who value open learning but struggle with time constraints. By providing resources, guidance, and support, the foundation aids parents in customizing their child's educational journey. The foundation's mission is to encourage children to be self-motivated, self-directed, and self-governed, enabling them to choose their own learning path. The vision of The Life Engineering Foundation is to provide a perfect blend of life skills, soft skills, and hard skills to children, promoting health, happiness, determination, personal development, and spiritual growth.

SDGs in Africa and the Middle East Region Ismaila Rimi Abubakar, Izael da Silva, Rudi Pretorius, Khaled Tarabieh, 2024-09-01 Africa is one of the most vulnerable regions, and one where the implementation of the SDGs is particularly urgent. Underinvestments in natural conservation are increasing the vulnerability of people across many African countries, whose well-being is endangered by deteriorating socio-economic and environmental conditions. This volume provides a contribution towards showcasing how natural resources may be more efficiently used and investments may be mobilised to augment the limited public sector funds available to achieve the SDGs. This book is part of the 100 papers to accelerate the implementation of the UN Sustainable Development Goals initiative.

The Real Me Mark Eyre, 2017-04-04 Modern society is ill. Many people sit in their work cubicle, at jobs that are stressful

and unfulfilling. With a boss they don't like. With a mortgage they cannot afford. With relationships that aren't all they could be. With a work-life balance that's all work and no life. It's no wonder there's a stress and depression epidemic in the Western world. Many people have simply lost themselves. Is this you? If so, life doesn't have to be like this. You can choose to live life in a different way. Most people will say that they want more than anything to be themselves and to make a difference. This book is about how to be true to yourself in a society that more than ever pushes us to disguise who we are, so we end up pretending to be who we're not. How can I find a way to be myself? Join Mark Eyre to find your own real me, and along the way, pick up some practical strategies and approaches to help you express who you really are. It's time to join the journey of a lifetime, and in the words of George Eliot, to "be who you might have been."

Hey You Rock Buoy, Stop Talks! Sharang Sasan, 2019-06-14 Children are the most important beneficiaries of a good education, yet the ones with the least power to shape it. Remember what growing up was all about? - Thoughts/events/ the small things that have made up our past? Well this book is Jai's journey through the 90's - a young boy living in suburban Delhi who starts his life in an elite public school and lands up at the doorstep of Delhi University. 'DU' as it is commonly referred to is an amalgamation and a melting pot of so many different cultures. It changes, challenges and totally befuddles the young unsuspecting minds taking their first initial steps into its hallowed corridors. The confusion, the trials and tribulations experienced by Jai, having seen one world in his school days and a completely different one in Delhi University, is our story. Follow Jai on his journey of discovery, learning, growing up as he breaks the myth surrounding Delhi University. Peppered with humorous anecdotes, observations and insights, Jai draws you into his world as he goes about trying to understand this mystery called Life.

Thinking Nima Rezaei, Amene Sagha-zadeh, 2022-09-05 The "THINKING: Bioengineering of Science and Art" is to discuss about philosophical aspects of thinking at the context of Science and Art. External representations provide evidence that the fundamental process of thinking exists in both animal subjects and humans. However, the diversity and complexity of thinking in humans is astonishing because humans have been permitted to integrate scientific accounts into their accounts and create excellent illustrations for the effects of this integration. The book necessarily begins with the origins of human thinking and human thinking into self and others, body, and life. Multiple factors tend to modify the pattern of thinking. They all will come into play by this book that brings thinking into different disciplines: humanities, natural sciences, social sciences, formal sciences, and applied sciences. The thinking demands full processing of information, and therefore, the book considers the economy of thinking as well. The book thoroughly intends to explore thinking beyond the boundaries. Specifically, several chapters are devoted to discipline this exploration either by artistic thinking alone or by art and mathematics-aided engineering of complexities. In this manner, the book models variations on thinking at the individual and systems levels and accumulates a list of solutions, each good for specific scenarios and maximal outcomes.

Force 46 Strength and Conditioning Anthony Tridico,2023-10-27 Things do not really change as much as people like to claim. When people see the solution but, in reality, they do not see the problem, then the new concept of change/intelligence spirals down the rabbit hole farther and farther from the actual problem. This only creates more problems, never solving or improving anything, leading to more ignorance, not intelligence. I knew when I left the weight room for the last time at the University of Arkansas in 1992 that all human beings should train like this. The lessons I learned in Coach Stucky's weight room transformed my abilities in all areas to face the ills of society head-on in the chosen path ahead of me. A reality check in training, fitness, sport, and education is needed in the media-crazed times currently influencing society. Coach Stucky was the person who could see the problem and the solution fifty-seven years ago and counting. I am just a beneficiary of Coach Stucky's gifts, trying to pay it forward for the kids and future generations and strength and conditioning.
