History of the Philippines Luis H. Francia,2010-06-10 The Philippines is a country in its adolescence, struggling by fits and starts to emerge from a rich, troubled and multilayered past.

A History of the Philippines Renato Constantino,Letizia R. Constantino,1975 Unlike other conventional histories, the unifying thread of *A History of the Philippines* is the struggle of the peoples themselves against various forms of oppression, from Spanish conquest and colonization to U.S. imperialism. Constantino provides a penetrating analysis of the productive relations and class structure in the Philippines, and how these have shaped—and been shaped by—the role of the Filipino people in the making of their own history. Additionally, he challenges the dominant views of Spanish and U.S. historians by exposing the myths and prejudices propagated in their work, and, in doing so, makes a major breakthrough toward intellectual decolonization. This book is an indispensable key to the history of conquest and resistance in the Philippine.
