

Cosa Sono I Learning Object

AA. VV.

LA DIDATTICA ATTIVA PER L'INSEGNAMENTO DELLE SCIENZE NELLE SCUOLE SUPERIORI Roberto Franco, 2018-02-22 La scuola dovrebbe sempre essere modello di riferimento per gli studenti, offrendo efficaci percorsi educativi, sempre attenti alle esigenze d'integrazione di tutti gli alunni. Secondo le più recenti indicazioni psicopedagogiche, i percorsi formativi e di orientamento da attuarsi, fin dalle prime classi, dovrebbero promuovere un'equilibrata formazione degli studenti. Un buon progetto educativo dovrebbe oggi puntare su caratteri di innovazione metodologica. In questo libro sono raccolte alcune delle metodologie didattiche attive applicate alle Scienze e, in particolare, alle Scienze della Terra, frutto di anni di esperienza d'insegnamento nelle Scuole superiori di secondo grado, che tentano di superare quelle modalità tradizionali basate sull'ascolto, sull'osservazione e sull'imitazione.

Collaborative learning. Sistemi P2P, tecnologie open source e virtual learning community Gianluca Elia, 2008
Tecnologia per il web learning. Realtà e scenari Cristina Delogu, 2008 This book maps out a course through the methodological and technological innovations of internet-based training, setting the emphasis on the collaborative character of experiences of learning and on the interactivity of the virtual workshops. On the one hand, this underscores the possibilities offered by the net to make available educational modes centred on the social process that enables learning in an active manner, rather than on the centrality of contents to be passively transferred to the students. On the other hand, it also shows how in the virtual workshops it is possible to develop one's understanding of the phenomena that are the subject of learning as a result of the interaction with the phenomena themselves, reproduced in the computer, acting upon them and observing the consequences of one's own actions. The effect is to underline how this type of model of learning can help to overcome the technology gap between different countries and social groups (the digital divide) and also to make learning more accessible even to disabled students.
