Everyone Ends Up Poor! Curtis Ray, 2018-10-24 What is financial freedom and how do you achieve it? That is a question I asked myself in 2014. My name is Curtis Ray, from Gilbert, Arizona and the author of this book Everyone Ends Up Poor(tm). I want to tell you my story of financial discovery through family, entrepreneurship, product development, and an array of experiences. This is not a traditional story of an investment strategy secret or 401(k) success, but a story of true pursuit of knowledge, breaking down the whole system of financial planning, and discovering the inefficiencies and underwhelming results of the 401(k), IRA, Roth IRA and other traditional financial plans. Throughout the book I look back on my life of running numerous businesses, what I learned through rapid success, partnerships, my rise and fall of financial wealth, and what ultimately led me to a career in educating the public on the Rules of Money and how to achieve financial security. This book is like no book ever written. Explaining clearly why a 401(k), IRA, Roth IRA, and other traditional retirement vehicles are not your friend, were never designed to produce you a good retirement income, and why Everyone Ends Up Poor(tm). Once someone understands the pitfalls of the current financial system, I explain the steps that can be taken to improve your retirement success by up to 400%. Through the experience and knowledge found in my journey, anyone can start the path of financial freedom today. In this book I explain the 7 Rules of Money prosperity, the 9 pillars of financial planning, pitfalls to avoid as an entrepreneur, and the one-of-a-kind financial strategy called Maximum Premium Indexing or MPI(tm). Everyone Ends Up Poor(tm) will challenge every belief you have regarding the current financial planning system.

The Language of Inequality in the News Michael Toolan, 2018-12-06 Why in the early 1970s does The Times reject the idea of a national lottery, as rewarding luck not merit and effort, but warmly welcome one by the 1990s? Why in the 1970s do the Daily Mail's TV reviews address serious contemporary themes such as class- and race-relations, whereas forty years later they are largely concerned with celebrities, talent shows, and nostalgia? Why does the Conservative Chancellor in the 2010s mention 'Britain' so very often, when the Conservative Chancellor in the 1970s scarcely does at all? Covering news stories spanning forty-five years, Michael Toolan explores how wealth inequality has been presented in centre-right British newspapers, focusing on changes in the representation may have helped present-day inequality seem justifiable. Toolan employs corpus linguistic and critical discourse analytic methods to identify changing lexis and verbal patterns and gaps, all of which contribute to the way wealth inequality was represented in each of the decades from the 1970s to the present.

Growing Up Poor Bert Langeberg,2007-03-02 Growing Up Poor reveals Bert Langeberg's heroic journey from a hardscrabble life on a family farm in Wisc in the 40s and 50s. The US is facing many problems related to our government over spending and going into debt to correct supposed social injustices. These problems range from health care, social security, poor education and global warming. To gain a perspective on how we lived before government spending by FDR promised to cure these social problems Growing Up Poor portrays a simpler time when we had low cost home remedies for minor cuts, bruises, aches, pains and the common cold. Nowadays the government forces all emergency rooms to accept and treat all patients for all these minor problems many without payment. These mandates to get votes from low income patients and illegal aliens have caused health care costs to skyrocket. Bert delves into our Social Security system from his accounting perspective. His insight into the system reveals serious flaws that will need to be fixed in the next few years.

Work and Wealth in Scripture Lawrence A. Clayton,2015-02-06 What do you do with your money? What do you think of your boss? Do you like your work? Is it satisfying? Are you satisfied with your answers? Do you know that God, through Scripture, offers us answers? Two of the most fundamental challenges for all humankind are deciding how to live and, if we accumulate riches, deciding how to use them. Did you know that God expects all humankind to work? For the Christian, all work is part of your Christian calling, whether you collect garbage for a living or sit in Washington deciding affairs of state. And what does Scripture have to say about riches? Did you know that Jesus directed more attention to the question of how to deal with wealth than just about any other subject he addressed during his three-year ministry? Join me in this short journey as we explore work and wealth in Scripture and seek answers to the above questions and others. We travel from the first work recorded in the Bible to our own time, when leisure competes with work for our attention and wealth gives us a false sense of security that puts us in danger of replacing God with self.

Everyone Ends Up Poor! Curtis Ray,2018-10-22 I have a passion for business development, product development and financial services specializing in retirement planning. I started my first business, Ray Brothers Granite, in 2004 with the concept of importing granite from overseas and providing a complete turn key installation service to the residential market. After 4 great years of success, I had the desire to create a new type of product in thin slabs of granite and other natural stones. In 2008, I began to travel to China often to design and develop Thin Natural Stone Panels. In 2009 the new product was ready to go to market so myself and 2 partners founded ForzaStone Building Solutions. In 2011, we opened up Direct Granite to supply and wholesale to the contractor base and provide all the granite and other stones to Ray Brothers Granite. In 2013, Direct Granite, Ray Brothers Granite, and ForzaStone moved into a high end showroom in Mesa, AZ and consolidated all my companies under 1 roof. Ray Brothers Granite and Direct Granite merged to form into one of the largest Wholesale/ Retail Home Interior Remodeling Company in Arizona as the name Premium Granite. To date my companies have imported over 500 containers in over 15 different construction product lines and revenues of over \$40,000,000. We provide

services to residential remodeling and new build, multi family apartments and condos, modular homes, hotels, and other applications. In 2014, I started a financial services business called SunCor Financial. I developed a retirement planning system called Maximum Premium Indexing currently in Patent Pending and expanding nationally. MPI focuses on the 9 essentials of a financial plan. Through MPI, a financial plan can produce up to 4x more Income with security than the traditional IRA, Roth, or 401k. I developed a seminar that I teach Nationally called The Science of Retirement. I have a true passion for educating Millennials and Gen Y on rules of money, how to secure their future, and maximize their money. This book was written to help you create a financial plan that protects you, ensures your growth, and allows you to keep getting wealthier even when the market doesn't go your way.

Leadership by Resentment Ruth Capriles, 2012-01-01 What do such disparate events as Occupy Wall Street, Iran's Islamic revolution and Venezuela's socialist revolution have in common? Often, resentment based on past grievances or shortcomings seems to emerge from the depths of individual and collective psyches over the course of such emotionally charged movements. This resentment, and the related philosophical concept of ressentiment, can have a profound impact on the course of history and on the role of leadership within societies. Expanding on the concept of ressentiment, this book

addresses the importance of emotions in historical events. The author explores the conditions that foster the development of resentment, the role of leaders and followers, and the phases of the phenomenon as it encourages destructive behaviors such as murder and suicide. Often considered an incurable disease with destructive social and political repercussions, it is a core motive for acts of terrorism, revolutions, social upheavals and processes of toxic leadership. The author puts forth a model that helps to describe certain historical processes led by resentment, like some revolutions and terrorist acts, and to distinguish them from other movements that are usually treated as similar (e.g., independence revolutions). The book then tackles a seemingly impossible question: Can we find a cure for this powerful and destructive impulse? With care and deliberation, the author demonstrates the power of ethical leadership, recognition and redemption as positive unifying forces during human conflicts. A philosophical endeavor to understand events from the Boston Tea Party to Occupy Wall Street, from the French revolution to Hugo Chávez's revolution in Venezuela, this book will be fascinating reading for scholars and students of the social sciences and humanities and those with a particular interest in leadership.
