Rejoicing Bruno Latour, 2018-03-08 Bruno Latour's long term project is to compare the felicity and infelicity conditions of the different values dearest to the heart of those who have 'never been modern'. According to him, this is the only way to develop an anthropology of the Moderns. After his work on science, on technology and, more recently, on law, this book explores the truth conditions of religious speech acts. Even though there is no question that religion is one of the values that has been intensely cherished in the course of history, it's also clear that it has become immensely difficult to tune in to its highly specific mode of enunciation. Every effort to speak in the right key sounds awkward, reactionary, pious or simply empty. Hence the necessity of devising a way of writing that brings to the fore this elusive form of speech to render it audible again. In this highly original book, the author offers a completely different tack on the endless 'science and religion' conflict by protecting them both from the confusion with the notion of information. Like *The Making of Law*, this book is one more attempt at developing this 'inquiry on modes of existence' that provides an alternative definition of society.

Truity Abram Allen,2013-09-16 From the trues of nature, man reasons his truths, the sum of which is TRUITY. Truity creates all, sustains all, and accounts for all. The Adversity of Diversity Law and Truity's Trinity (subject, function, and object) ground all grammar, reinforce every language, and accommodate all reason. Truity reveals the fundamental law: no subject possesses truth as every subject represents truth. Man has yet to learn this basic rule of grammar. To be born in ignorance is understandable but to stand in ignorance is to insult The Creator.

What's Holding You Back? Linda Gong Austin,2009-04-29 After thirty years of feminism, women continue to underachieve, occupying only 10 percent of top-level managerial or professional positions. And significant achievement-influential woman leaders and visionaries-is rarer still. The reason, argues this bold and inspiring book, lies in the self-imposed psychological glass ceiling, which influences every decision women make in their lives. *What's Holding You Back?* charts women's unique pathways to achievement and examines eight life-defining choices that determine their ultimate level of accomplishment.
