

La Charte Mi Cantare

Roman Wölfel

Manuale dizionario di amminio Carlo Borda,1863

The Guitar and Its Music James Tyler,Paul Sparks,2002 More than twenty years ago James Tyler wrote a modest introduction to the history, repertory, and playing techniques of the four- and five-course guitar. Entitled *The Early Guitar: A History and Handbook* (OUP 1980), this work proved valuable and enlightening not only to performers and scholars of Renaissance and Baroque guitar and lute music but also to classical guitarists. This new book, written in collaboration with Paul Sparks (their previous book for OUP, *The Early Mandolin*, appeared in 1989), presents new ideas and research on the history and development of the guitar and its music from the Renaissance to the dawn of the Classical era.Tyler's systematic study of the two main guitar types found between about 1550 and 1750 focuses principally on what the sources of the music (published and manuscript) and the writings of contemporary theorists reveal about the nature of the instruments and their roles in the music making of the period. The annotated lists of primary sources, previously published in *The Early Guitar* but now revised and expanded, constitute the most comprehensive bibliography of Baroque guitar music to date. His appendices of performance practice information should also prove indispensable to performers and scholars alike.Paul Sparks also breaks new ground, offering an extensive study of a period in the guitar's history--notably c.1759-c.1800--which the standard histories usually dismiss in a few short paragraphs. Far from being a dormant instrument at this time, the guitar is shown to have been central to music-making in France, Italy, the Iberian Peninsula, and South America. Sparks provides a wealth of information about players, composers, instruments, and surviving compositions from this neglected but important period, and he examines how the five-course guitar gradually gave way to the six-string instrument, a process that occurred in very different ways (and at different times) in France, Italy, Spain, Germany, and Britain.

The Oxford Handbook of Musical Variation Jeffrey Swinkin,2025 The Oxford Handbook of Musical Variation offers new research into what is arguably the most fundamental and essential musical process. Over forty-two chapters, the book offers

new insights into variational workings in music from Corelli to jazz, and in both instrumental and vocal music. Throughout, the chapters also explore new ways of thinking about musical form, rhythm and meter, harmony, expression and narrative, music cognition, and pedagogy through variation.

Momumenta historica tum sacra tum profana Etienne Baluze,1761

Tutte le canzoni piemontesi e poemetti Angelo Brofferio,1966

Don Dimaio of La Plata Robert Arellano,2004 In 2002, real-life mayor of Providence, Rhode Island Buddy' Cianci was convicted of federal charges of bribery, extortion and racketeering. This is the story of the last days of Don 'Pally' Dimaio, mayor of the city of La Plata, as his corrupt administration spirals out of control. Toggling between satiric adaptations of Cervantes's legend and a satirical narrative of a mayor's quixotic decline, this hilarious novel is simultaneously a commemoration of the fourth centenary of the modern novel and a whip-smart dissection of contemporary politics.'
