Cromos ,1999

El maestro que pintaba ecuaciones Rubén Darío Henao Ciro,2022-05-03 Gracias a la integración entre literatura y matemáticas, grandes matemáticos y científicos de la talla de Bertrand Russell, Sofía Kovalevskaya, Leonard Euler y Carl Djerassi incursionaron en la literatura de una manera significativa; así también escritores como Edgar Allan Poe, Jorge Luis Borges o Yoko Ogawa irrumpieron en las matemáticas. Tanto unos como otros generaron un campo emocional digno de ser habitado por muchos y que intento recrear en este libro de relatos para la clase de Matemáticas o para los matemáticos. La obra consta de dos partes. En la primera, los relatos surgen para rescatar la memoria de grandes matemáticos y lógicos, conectando la vida genial del personaje con algún hecho que sorprenda los sentidos del lector. Los relatos de la segunda parte dan testimonio del tránsito de un profesor de Matemáticas por las aulas de clase, pero un profesor que valora la literatura como hecho extraordinario capaz de mover el eje de equilibrio a quien lee, en tanto lo invita a una aventura en la que el estudio de las matemáticas puede hacerse desde una visión más humana y estética. Todos los relatos fueron pensados desde la abducción como forma de razonamiento hacia atrás, para que el lector busque en ellos un hecho sorprendente, una anomalía o una novedad con la cual explicar las causas de lo que se narra, para que más adelante intente formular una regla posible que conecte la ficción del relato con la realidad de la ciencia.

Bernissart Dinosaurs and Early Cretaceous Terrestrial Ecosystems Pascal Godefroit,2012-07-05 In 1878, the first complete dinosaur skeleton was discovered in a coal mine in Bernissart, Belgium. Iguanodon, first described by Gideon Mantell on the basis of fragments discovered in England in 1824, was initially reconstructed as an iguana-like reptile or a heavily built, horned quadruped. However, the Bernissart skeleton changed all that. The animal was displayed in an upright posture similar to a kangaroo, and later with its tail off the ground like the dinosaur we know of today. Focusing on the Bernissant discoveries, this book presents the latest research on Iguanodon and other denizens of the Cretaceous ecosystems of Europe, Asia, and Africa. Pascal Godefroit and contributors consider the Bernissart locality itself and the new research programs that are underway there. The book also presents a systematic revision of Iguanodon; new material from Spain, Romania, China, and Kazakhstan; studies of other Early Cretaceous terrestrial ecosystems; and examinations of Cretaceous vertebrate faunas.
