Painting, Photography, and the Digital Carl Robinson,2022-10-07 This anthology investigates the interconnections between painting, photography, and the digital in contemporary art practices. It brings together 15 contributors, including internationally acclaimed artists Matt Saunders, Clare Strand, Elias Wessel, and Dan Hays, to write about a diverse range of art-making involving medium cross-over. Topics discussed here include reflections on the painted-on-photograph, reordering photographs into paintings, digital collage, printing digital landscapes onto recycled electronic media, viewer immersion in painted virtual reality (VR) worlds, photography created from paint, and the “truth” of the mediums. Underpinned by significant theoretical concepts, the volume provides unique insights into explorations of the mediums’ interconnectivity, which questions the position of the traditional genres. As such, this book is essential reading for practitioners, theorists, and students researching the nature of painting, photography, and digital art practices today.

Memory in Motion Ina Blom,Trond Lundemo,Eivind Røssaak,2025-10-01 How do new media affect the question of social memory? Social memory is usually described as enacted through ritual, language, art, architecture, and institutions ? Phenomena whose persistence over time and capacity for a shared storage of the past was set in contrast to fleeting individual memory. But the question of how social memory should be understood in an age of digital computing, instant updating, and interconnection in real time, is very much up in the air. The essays in this collection discuss the new technologies of memory from a variety of perspectives that explicitly investigate their impact on the very concept of the social. Contributors: David Berry, Ina Blom, Wolfgang Ernst, Matthew Fuller, Andrew Goffey, Liv Hausken, Yuk Hui, Trond Lundemo, Adrian Mackenzie, Sónia Matos, Richard Mills, Jussi Parikka, Eivind Røssaak, Stuart Sharples, Tiziana Terranova, Pasi Väliaho.
