The Routledge Handbook of Language and Religion Stephen Pihlaja, Helen Ringrow, 2023-12-14 The Routledge Handbook of Language and Religion is the first ever comprehensive collection of research on religion and language, with over 35 authors from 15 countries, presenting a range of linguistic and discourse analytic research on religion and belief in different discourse contexts. The contributions show the importance of studying language and religion and for bringing together work in this area across sub-disciplines, languages, cultures, and geographical boundaries. The Handbook focuses on three major topics: Religious and Sacred Language, Institutional Discourse, and Religious Identity and Community. Scholars from a variety of different disciplinary backgrounds investigate these topics using a range of linguistic perspectives including Cognitive Linguistics, Discourse Analysis, Sociolinguistics, Pragmatics, and Conversation Analysis. The data analysed in these chapters come from a variety of religious backgrounds and national contexts. Linguistic data from all the major world religions are included, with sacred texts, conversational data, and institutional texts included for analysis. The Handbook is intended to be useful for readers from different subdisciplines within linguistics, but also to researchers working in other disciplines including philosophy, theology, and sociology. Each chapter gives both a template for research approaches and suggestions for future research and will inspire readers at every stage of their career.

Voices from the Continent Sara Talis O'Brien, Renée Schattelman, 2004 The companion to the previous volume which featured West African literature, this useful guide introduces students to five authors from North and East Africa. Providing anthropological and historical research as well as literary criticism, it explores writings with a wide range of universal themes as well as presenting the experiences of a range of ethnic groups. A highly useful tool for schoolteachers, university lecturers and students alike, it can be integrated into courses ranging from world literature to women's studies.

The Islamic World Andrew Rippin, 2013-10-23 The Islamic World is an outstanding guide to Islamic faith and culture in all its geographical and historical diversity. Written by a distinguished international team of scholars, it elucidates the history, philosophy and practice of one of the world's great religious traditions. Its grounding in contemporary scholarship makes it an ideal reference source for students and scholars alike. Edited by Andrew Rippin, a leading scholar of Islam, the volume covers the political, geographical, religious, intellectual, cultural and social worlds of Islam, and offers insight into all

aspects of Muslim life including the Qur'an and law, philosophy, science and technology, art, literature, and film and much else. It explores the concept of an 'Islamic' world: what makes it distinctive and how uniform is that distinctiveness across Muslim geographical regions and through history?
