Comedy Quotes from the Movies Larry Langman,Paul Gold,2001-05-29 Clever repartee, double entendres, punch lines and many other variations of humor have been a staple of movie dialogue since the advent of talkies. Collected here are over 4,000 of the best comedic lines from the movies. The compilers of this book have tried to bring together some of the funniest, wittiest and most outrageous snatches of dialogue on film over a sixty year time period. For each entry the authors set the quotation in context, provide the name of the actor or actress, the name of the movie and the year of release. The quotations are arranged by a broad range of categories, such as politics, food and eating, gambling, and many others. A title index and a name index follow the body of the book..

And I Quote, Revised Edition Ashton Applewhite,Tripp Evans,Andrew Frothingham,2003-03-19 The popular guide to quotable quotes returns in a totally revised and updated edition including all-new material.

Encyclopedia of Twentieth-Century Photography, 3-Volume Set Lynne Warren,2005-11-15 The Encyclopedia of Twentieth-Century Photography explores the vast international scope of twentieth-century photography and explains that history with a wide-ranging, interdisciplinary manner. This unique approach covers the aesthetic history of photography as an evolving art and documentary form, while also recognizing it as a developing technology and cultural force. New York, the City in More Than 500 Memorable Quotations Vladimir Wertsman,1997-03-13 This imaginative collection of over 500 quotations describes, for better or worse, New York City from the 16th century to the present. Supplied by writers, poets, statesmen, artists, composers, educators, politicians, actors, sportsmen, musicians, scientists, travelers, and others from various ethnic backgrounds, the quotations were culled from primary sources and from a wide range of secondary works including: biographies and autobiographies, history, fiction, travel, poetry, song and art books, newspapers, journals, and magazines. All entries are arranged alphabetically by author and include brief biographical information. With reference notes and indexes.

Capital City Thomas Kessner, 2004-04-07 At the beginning of the nineteenth century, New York City was an undistinguished town, competing with Philadelphia and Boston to be America's dominant port city. Just two generations later, it had built itself into the country's powerhouse center of trade and finance, rivaled only by London as financial capital of the world. In *Capital City*, Thomas Kessner tells the story of this remarkable transformation. With the advantages of its famous harbor and the opening of the Erie Canal in 1825, New York became the chief commercial center for the growing nation. As the shipping industry prospered, capital accumulated, and a growing banking center emerged, New York went on to finance the Union cause during the Civil War, open the West to development, and consolidate the national railroad system. The city's energy and opportunity attracted ambitious men from all over the country whose names became synonymous with big business: Vanderbilt, Carnegie, Rockefeller, and Morgan. New York's banks set the interest rates for the nation, its stock exchange fixed the price of securities, its investors transformed American business from family-owned enterprises into modern corporations, and its growing political clout catapulted public figures, such as Samuel Tilden and Teddy Roosevelt, onto the national stage. Combining political and urban history with a colorful cast of characters, *Capital City* chronicles how Gotham's Gilded Age reshaped the metropolis and the nation as it molded our present-day economy.

Leadership: Three Key Employee-Centered Elements with Case Studies Marc Summerfield, 2020-09-18 *Leadership: Three Key Employee-Centered Elements with Case Studies* describes three key employee-centered elements (the "employee-centered triad"), which when judiciously and continuously applied, not only improve a leader's chances of creating a fulfilling workplace (a worthy singular goal) but also set the stage for meaningful and enduring change. The three elements are Connection, Gratitude, and Responsiveness. Each element is portrayed via a case study. The book is intended to be a guide for successful human relations for all leaders, but especially for those embarking upon their first leadership challenge in professions such as healthcare, hospitality, engineering, manufacturing, and construction. The three elements don't necessarily compose the complete range of employee-centered human-relations behaviors, but they do provide a substantial start on the path to success—a foundation to build on. The book can be used for self-study, for leadership development, or as a textbook.

World Literature Criticism: Kingston-Wilson Polly Vedder, 1997 The 2-vol. Supplement extends the coverage of *World Literature Criticism*, a 6-vol. collection designed for smaller libraries. The Supplement adds coverage of widely read authors who could not be included in the first volumes, and updates the set with additional 20th century authors.

Of Cabbages and Kings County Marc Linder, Lawrence Zacharias, 1999 In *Of Cabbages and Kings County*, Marc Linder and Lawrence Zacharias reconstruct the history of a lost agricultural community. Their study focuses on rural Kings County, the site of Brooklyn's tremendous expansion during the latter part of the nineteenth century. In particular, they question whether sprawl was a necessary condition of American industrialization: could the agricultural base that preceded and

surrounded the city have survived the onrush of residential real estate speculation with a bit of foresight and public policies that the politically outnumbered farmers could not have secured on their own? The first part of the book reviews the county's Dutch American agricultural tradition, in particular its conversion after 1840 from extensive farming (e.g., wheat, potato) to intensive farming of market garden crops. The authors examine the growing competition between local farmers and their southern counterparts for a share of the huge New York City market, comparing farming conditions and factors such as labor and transportation. In the second part of the book, the authors turn their attention to the forces that eventually destroyed Kings County's farming -- ranging from the political and ideological pressures to modernize the city's rural surroundings to unplanned, market-driven attempts to facilitate transportation for more affluent city dwellers to recreational outlets on Coney Island and, once transportation was at hand, to replace farms with residential housing for the city's congested population.
