Mythology Coby Evans,2019-11-01 A better deal could not be out there. This valuable box or combo contains six titles that are each targeted towards a different area of the world. Most are in Europe, and a couple of them beyond that continent. You will read about myths, deities, people being killed, people betraying each other, animals that can talk, supernatural powers that are exerted, and much, much more. Each of these books is not only filled with the stories from those times, but a number of background details of that particular society as well, so you can better understand how people thought and why these stories make more sense in the historical context. Feel free to begin reading or listening anytime, but I would encourage you to start right now.

Various poets have portrayed Ramayana in a variety of ways. The Ramayana is not just a story; it also includes significant moral, ethical, and spiritual aspects. This book contains the details of Dharma (Righteousness), dedication and allegiance, selflessness and sacrifice, reverence for elders and authorities, honor and integrity, bravery and tenacity, forgiveness and compassion are best captured in this book. For millions, the epic continues to be treasured and a source of inspiration and moral instruction.
