

Red Bull Gmbh Mission Statement

Arturo Cuomo

Strategic Analysis and Recommendations for Red Bull ,2023-01-16 Seminar paper from the year 2022 in the subject Business economics - Review of Business Studies, , language: English, abstract: Red Bull GmbH is one of the largest companies globally in terms of innovation. It is this competitive edge in innovation that enabled the company to transition its product from an unstable drink to a leading energy drink globally. The Austrian company was founded in 1987 and has so far grown to occupy the largest share of the energy drink market, selling 7.5 billion cans in the year ending 2019. Red Bull's main strength is in its marketing campaigns. Instead of following a traditional approach to mass marketing, Red Bull generates brand awareness through the creation of a brand myth by engaging customers in multiple activities and experiences, including extreme sports events. Red Bull also owns sports teams such as Formula One team, football clubs such as Red Bull Salzburg and so on. Other marketing activities include music engagement through Red Bull Records, as well as celebrity endorsements. Apart from its sports-centred marketing being innovative, the cost of this approach is lower than the conventional methods used by other beverage companies such as Coca-Cola. Despite its marketing success, the company faces the problem of lacking a patent for the company's product formula. As such, many companies used Red Bull's secret ingredients to develop competing products. Furthermore, Red Bull has received negative press regarding the potential health risks associated with some of its products.

The Science and Art of Branding Giep Franzen,Sandra Moriarty,2008-10-30 This innovative work provides a state-of-the-art overview of current thinking about the development of brand strategy. Unlike other books on branding, it approaches successful brand strategy from both the producer and consumer perspectives. The Science and Art of Branding makes clear distinctions among the producer's intentions, external brand realities, and consumer's brand perceptions--and explains how to fit them all together to build successful brands. Co-author Sandra Moriarty is also the author of the leading Principles of Advertising textbook, and she and Giep Franzen have filled this volume with practical learning tools for scholars and students of marketing and marketing communications, as well as actual brand managers. The book explains theoretical concepts and illustrates them with real-life examples that include case studies and findings from large-scale market research. Every chapter opens with a mini-case history, and boxed inserts featuring quotes from experts appear throughout the book. The Science and Art of Branding also goes much more deeply than other works into the core concept of brand equity, employing

new measurement systems only developed over the last few years.

The Red Bull Story Wolfgang Fürweger, 2025-05-22 The Untold Story of the Quiet Genius Who Built the Brand That Changed Global Business Red Bull is more than a drink. It's a symbol. A movement. A myth made real through vision, patience, and relentless execution. And behind it all stood one man: Dietrich Mateschitz—the Austrian marketing mastermind who turned a quirky Asian tonic into a \$25+ billion global empire without ever chasing the spotlight. Now, for the first time, English-speaking readers can finally access the definitive account of how Red Bull was built—written by Austrian journalist Wolfgang Fürweger, and originally published in Mateschitz's home country. This long-awaited translation of the bestselling German book *Die Red Bull Story* brings the story full circle, with updated insights, international context, and rare behind-the-scenes detail. □ Inside This Highly Anticipated Book: How a jet-lagged executive on a layover in Hong Kong discovered a strange Thai drink—and saw something no one else did The marketing revolution that bypassed traditional advertising—and built a myth through stunts, sports, and storytelling Red Bull Racing, global sports ownership, and the formation of an empire with no blueprint How Mateschitz quietly became one of the world's richest men—while staying almost entirely out of public view The inside story of Felix Baumgartner's legendary 2012 Stratos jump—and how Red Bull turned science into spectacle The business principles that powered Red Bull's expansion into media, culture, and elite global positioning What the future of Red Bull looks like—without its founder at the helm □ Why This Book Matters This isn't a corporate puff piece or fanfare-filled memoir. It's a journalistically sharp, meticulously researched profile of one of the greatest brand-builders of the modern era—written close to the source, with rare access and remarkable clarity. Whether you're a startup founder, a marketer, a strategist, a Red Bull fan, or a business student, this book delivers what few ever have: a clear look at how an empire was truly built—one decision, one insight, and one refusal to follow the crowd at a time. □ About the Author Wolfgang Fürweger is an award-winning Austrian journalist and bestselling nonfiction author. Known for his deep reporting on Europe's most powerful companies and political dynasties, his works have been translated into multiple languages and featured across major media. He lives in Salzburg and serves as a political editor at the *Salzburger Kronen Zeitung*. This is his first work to appear in English. Bold. Clear. Insightful. Unmatched. This is *The Red Bull Story*. And this is how legends are built.
