Città e guerra : difese, distruzioni, permanenze delle memorie e dell'immagine urbana. Tomo II : tracce e patrimoni

Maria Ines Pascariello,Alessandra Veropalumbo,Raffaele Amore,2023-12-31 [Italiano]: In un momento così significativo per la storia europea e mondiale, questo volume vuole essere la raccolta di riflessioni scientifiche condotte sui rapporti tra le scelte politiche, le azioni militari e la fisionomia delle città e del paesaggio urbano, sull'evoluzione delle strutture e delle tecniche di difesa, sulla rappresentazione della guerra e dei suoi effetti sull'immagine urbana, sul recupero delle tracce della memoria cittadina. Da una parte il campo delle Digital Humanities apre nuove prospettive per studiare l'immagine della città prima, durante e dopo la guerra, dall'altro le tecnologie digitali impegnano studiosi e ricercatori di varie discipline: in particolare nell'ambito del disegno viene esplorato il ruolo della rappresentazione nella formulazione dei progetti urbani di difesa e nella documentazione degli eventi bellici e delle tracce lasciate dai conflitti, mentre nell'ambito del restauro vengono approfondite le sfide teoriche e pratiche imposte dai danni arrecati dai conflitti ai centri storici, passando in rassegna casi studio, soluzioni e dibattiti relativi alla conservazione del patrimonio urbano coinvolto in azioni di guerra, con un'attenzione particolare all'identità e alla memoria collettiva./[English]: At such a significant moment in European and world history, this volume aims to be a collection of scientific reflections about the relationships between political choices, military actions and the

physiognomy of cities and the urban landscape, about the evolution of defence structures and techniques, about the representation of war and its effects on the urban image, and about the recovery of the traces of city memory. On the one hand the field of Digital Humanities opens up new perspectives to study the image of the city before, during and after the war, on the other hand digital technologies engage academics and researchers from various disciplines: In particular, in the area of drawing, the role of representation in the formulation of urban defence projects and in the documentation of wartime events and the traces left behind by conflicts is explored, while in the area of conservation, the theoretical and practical challenges imposed by the damage caused by conflicts to historic centres are explored, reviewing case studies, solutions and debates relating to the conservation of urban heritage involved in wartime actions, with a focus on identity and collective memory.
