The Secret Destiny of America Manly P. Hall, 2008-09-18 From the author of the landmark Secret Teachings of All Ages comes two classic works on the mysterious origins and unique mission of America: The Secret Destiny of America and America's Assignment with Destiny. Focusing on often-forgotten moments in history, Manly P. Hall proposes that there was a Great Plan put forth one thousand years before our nation's founding: humanistic and mystical organizations wished for the continent to be the location for an experiment in self-government and religious freedom. As one of the leading esoteric scholars of the twentieth century, Hall offers an intriguing view of our past, discussing everything from the symbolism of the Great Seal of the U.S. to the prophecy announced at George Washington's birth.

The Secret American Destiny Nicholas Hagger, 2016-11-15 In this final work of his American trilogy, Nicholas Hagger focuses on the unified World State it is America's secret destiny to create, and on the world's divided culture that impedes its creation. Throughout world culture there are conflicting and entrenched metaphysical and secular approaches that permeate all its main disciplines, including history, philosophy and science, literature and comparative religion. In each discipline there is a tussle between the traditional religious view, which is supported by the 4.6 billion of the world's 7.3 billion population that follow a religion, and the secular and social approach associated with humanism and the scientific reductionism of Hawking and Dawkins, which sees the universe as a random accident. Hagger argues that it is America's secret destiny to

bring in a democratic, UN-based, partly federal World State that can unify humankind. The conflict between metaphysical and secular approaches can be healed within a new reconciling philosophy that unites both outlooks, Universalism, which is already making an impact in the US. The key to this reconciliation is focusing on the scientific view of the order in the universe, and on the experience of the common essence which resides in all religions (the belief in the ordering Light), and on the traditional view of order in the seven disciplines of world culture. This reconciliation can reunify each discipline and therefore world culture, and create world unity. Restoring the metaphysical vision of order in world culture can strengthen America's harmonizing of humankind within a World State based on political Universalism.

Zeitgeist 2025 Thomas R. Horn, 2021-07-15 Before and after the presidency of Donald Trump, the United States was--and now is again--on an intentional trajectory to fulfill what famous Freemason Manly P. Hall described as The Secret Destiny of America. Hall's book includes future national and global subservience to the god of Freemasonry, a deity most Americans would not imagine when reciting the pledge of allegiance to one nation under God. Unknown to most Americans and certainly many Christians is the fact that the Great Seal of the United States is a prophecy hidden in plain sight by the Founding Fathers for more than two hundred years, foretelling the return of this terrifying, demonic god who seizes control of Earth in the New Order of the Ages. This supernatural entity was known and feared in ancient times by different names: Apollo, Osiris, and even farther back as Nimrod, whom Masons consider to be the father of their institution.

America's Secret Destiny Robert Hieronimus, 1989 Long before Christopher Columbus discovered America, the Iroquois had established their own League of Nations. The principles upon which this federation was founded, and those of esoteric orders such as the Rosicrucians and Masons, directly influenced the drafting of the United States Constitution. Critical to our understanding of America's destiny, these facts are revealed in fascinating detail by Robert Hieronimus.

The Secret History of America Manly P. Hall, 2019-05-07 A compilation of rare works on the untold history and destiny of America by acclaimed occult writer Manly P. Hall. Writer and scholar Manly P. Hall (1901-1990) is one of the most significant names in the study of the esoteric, symbolic, and occult. His legendary book The Secret Teachings of All Ages has been an underground classic since its publication in 1928. The Secret History of America expands on that legacy, offering a collection of Hall's works—from books and journals to transcriptions of his lectures—all relating to the hidden past and unfolding future of our nation. Hall believed that America was gifted with a unique purpose to explore and share principles of personal freedom, self-governance, and independent thought. PEN Award-winning historian, Mitch Horowitz has curated a powerful collection of Hall's most influential and insightful works that capture and explore these ideas. Never before collected in one volume, the material in The Secret History of America explores the rich destiny, unseen history, and hidden meaning of America.

The Great White Brotherhood Elizabeth Clare Prophet,2020-08-31 Throughout the ages, there have been men and women in every race and religion that have mastered time and space, transcended the cycles of karma and rebirth, and returned to the Source of all life. By attaining the goal of life, the ascension, these souls have become ascended masters. In this book, drawn from the author's pivotal spiritual conference held at Mount Shasta in 1975, you will discover how the saints and sages of both East and West work together behind the scenes of life with seekers in every field of human endeavor. Learn about this vast brotherhood of light, known as the Great White Brotherhood (the word "white" refers not to race but to the aura of white light that surrounds these ascended masters), their devotion to humanity, and their tireless efforts to help you and those you love. Contains an easy-to-understand and unique approach to spiritual astrology called the "Cosmic Clock," with diagrams. Also explores key interpretations of the Book of Revelation, America's unique role, and the little-known vision of George Washington and the prophecy of Sir William Hope about the future of America.

Secret Societies and the Founding of America K. C. Willson,2003-01 What is the secret destiny of America and who will be its ultimate 'one world' ruler? This book answers the shocking question: What did our nation's founders really have in mind for the future of America? Did they really picture this country as the Land of the Free -- or did they have a 'secret agenda' in mind that would establish a New World Order for 1000 years to come? Unknown to most Americans, there is a secret symbolism behind the Great Seal on the back of our dollar bill, as well as the true meaning of the eagle, the winged serpent, and the olive branch. The New World Order did not begin with George Bush Senior but has its roots thousands of years ago in the secret societies of Egypt and the Middle East, having been implemented by those 'Illuminated Ones' who felt they were born with a God-given right to rule and control the masses for the 'good of the world'. This book is for every conspiracy buff who sees a 'hidden meaning' to world events, and understands the true nature of the beast, the New World Order and the Secret Government.

Prophecies of the Presidents Timothy G. Beckley,Arthur Crockett,1992 This book exposes the 'secret government' and details the USA in prophecy. Gives the mystical origin of the great seal. Tells how space visitors watch over America. Amazing 'end times' vision of President Washington and other past leaders of America and how the 'forces of darkness' are trying to get a grip on America.

Great Books on Religion and Esoteric Philosophy Manly Palmer Hall,1985 A selection of classical literature is recommended by Mr. Hall, who has himself amassed the library of the Philosophical Research Society, one of the most

respected repositories of rare esoteric source material. Great works from the fields of comparative religion, philosophy and world cultures, esoteric arts, sciences, and fiction are discussed. Includes an index and bibliography. Also invaluable for the bibliography of Mr. Hall's own writings.
