Pacific Spaces A.-Chr Engels-Schwarzpaul,Lana Lopesi,Albert L. Refiti,2022-10-14 Delving into Pacific spaces from a variety of disciplinary perspectives and interpretations, this book looks at how the anthropological and architectural can be connected. The contributors to this book – architectural practitioners, architectural and spatial design theorists, anthropologists and historians – show not only how new theoretical perspectives can arise out of comparing aspects specific to one discipline with their equivalents of another, but also demonstrate how a space of emergence is created for something that goes beyond both, enhancing both fields of potentialities.

Overview Benjamin Grant,2016-10-25 A stunning and unique collection of satellite images of Earth that offer an unexpected look at humanity, derived from the wildly popular Daily Overview Instagram project. Inspired by the “Overview Effect”—a sensation that astronauts experience when given the opportunity to look down and view the Earth as a whole—the breathtaking, high definition satellite photographs in OVERVIEW offer a new way to look at the landscape that we have shaped. More than 200 images of industry, agriculture, architecture, and nature highlight incredible patterns while also revealing a deeper story about human impact. This extraordinary photographic journey around our planet captures the sense of wonder gained from a new, aerial vantage point and creates a perspective of Earth as it has never been seen before.

Resorts Robert Christie Mill,2012-04-13 The 3rd Edition of Resorts: Management and Operation is a summary of almost 30 years of thought, analysis, and research into the field of resort management written from a business viewpoint yet takes into account the unique structure of resorts. The text is divided into three sections. Each section has a philosophical basis for the inclusion of the subsequent principles and practices. The first section covers major types of resorts: those that are mountain-based, beach-based and golf/tennis based. Two chapters are devoted to each of the various resort types. The first chapters of each resort type focuses on development issues with the impact on operations noted throughout. The second chapter in each resort type deals with guest profiles and management issues. The second section highlights what makes managing a resort different from managing a 'regular' hotel. The final section features a newly expanded chapter on spas, pools, and indoor water parks along with individual chapters on specialty resorts, cruise ships and casinos, reflecting the importance of these types of properties.

Staging the Past Judith Schlehe, Michiko Uike-Bormann, Carolyn Oesterle, Wolfgang Hochbruck, 2014-03-15 Popular representations of history are taking on new forms and reaching wider audiences. The search for usable pasts is branching out into active appropriations of history such as historical theme parks, housing developments, and live-action role play. Drawing on themed environments across the continents, the articles in this volume focus on how these appropriations bypass, are different from, or even contradict traditional as well as scientific modes of disseminating historical knowledge. Bringing together theorists and practitioners, they provide the basis for an interdisciplinary as well as a transcultural theory of how pasts are staged in various social contexts.

Die Schau des Fremden Cordula Grewe, 2006 Im Zeichen postkolonialer Kritik sind Museen der Volks- und Völkerkunde heute eine umstrittene Gattung. Museen werden aufgelöst, Sammlungen umorganisiert, neue Institutionen gegründet. Dieses Buch nimmt die Entwicklungen in Frankreich, Deutschland, Belgien und USA von der Mitte des 19. Jahrhunderts bis zur Gegenwart in den Blick. Es bringt Kuratoren, Kunsthistoriker, Anthropologen, Soziologen und Historiker in einen inter- und multidisziplinären Austausch über neue Wege der Visualisierung des Eigenen wie Fremden. In light of postcolonial criticism, the museum of ethnology, anthropology and folklore has become a contested territory. Some museums are being dissolved, collections reorganized, and new institutions created. Focusing on France, Germany, Belgium and the United States in the period between the mid-nineteenth century and the present, this essay collection creates an interdisciplinary dialogue between curators, sociologists, anthropologists, historians and art historians. It sheds new light on the manner in which a modern museology negotiates the problematic heritage of the field and finds new ways to exhibit self and other. Inhalt Vorwort I.
