Foundations of Pediatric Practice for the Occupational Therapy Assistant Jan Hollenbeck, Amy

Wagenfeld, 2024-11-06 This best-selling text provides an essential introduction to the theoretical foundations to clinical pediatric care within occupational therapy, as well as illustrative guidance to inform its practical application for occupational therapy assistants. This new edition has been thoroughly updated to include new chapters on autism and trauma responsive care, and with a greater overall emphasis on occupational performance and participation. The book aligns with the fourth edition of the OT Practice Framework, as well as the AOTA 2020 Code of Ethics. Written in a succinct and straightforward style throughout, each chapter features brief vignettes drawn on the authors' own clinical experiences, case studies, and reflective activities designed to elicit discussion and exploration into the unique world of pediatric occupational therapy theory and practice. This edition also includes a new feature, 'In My Words', charting the experiences of caregivers and children themselves. Including chapters from some of the leading practitioners in the field, and featuring color photos throughout, this will be a key resource for any occupational therapy assistant student or practitioner working with children and their caregivers.

Psychoeducational Assessment of Preschool Children Vincent C. Alfonso, Bruce A. Bracken, Richard J. Nagle, 2020-05-04

Psychoeducational Assessment of Preschool Children, Fifth Edition, provides academics and school-based practitioners such as psychologists, speech-language pathologists, and social workers with an up-to-date guide to the assessment of young children. Long recognized as the standard text and reference in its field, this comprehensive, skill-building overview is organized into four sections: foundations, ecological assessment, assessment of developmental domains, and special considerations. Chapters written by recognized scholars in the field cover theory, research, and application. This thoroughly revised new edition addresses current developments in preschool assessment, new policies and legislation, and student/family population demographics.

Magnificent Minds Suzanne Goh, MD, 2024-04-09 An essential primer based on a renowned new model of care that is comprehensive and research based, while honoring the uniqueness of every child. An estimated one in thirty-six children in the United States is diagnosed with autism. New research has shed light on the many factors that determine a child's trajectory—but many parents are still navigating this complex terrain without a road map. Pediatric neurologist Dr. Suzanne

Goh has spent decades working with autistic children, and in this practical and research-based guide she shares her renowned and revolutionary model of care: an innovative, whole-child approach that combines optimal medical treatment with the most effective strategies for advancing cognition, communication, and behavior. Demystifying a wide range of diagnostics and therapies and offering new insights into the neurological, biochemical, behavioral, and social factors that play a role in successful outcomes, the book is an essential resource for understanding all of autism—a strengths-based approach that helps parents design a comprehensive treatment plan. It is also a celebration of what each autistic person brings to the world—and how parents can best nurture the remarkable uniqueness of their child while setting them up for the future they envision.

Sensory Processing Measure Heather Miller Kuhaneck, 2007 Le SPM (Sensory processing measure) est un système intégré d'unités de mesure qui permet l'évaluation de problématiques de développement sensoriel, social, de l'apprentissage et de participation sociale d'enfants d'âge scolaire au niveau du primaire. Le SPM est composé de trois formulaires qui aident à l'évaluation des trois grandes sphères de la vie de ces enfants soit, la maison, la classe et l'environnement scolaire en général. Les données compilées par ces trois outils développent une perspective unique et complète sur le fonctionnement sensoriel de l'enfant.
