In God We Trust Jean Shepherd, 1991-04-28 A collection of humorous and nostalgic Americana stories—the beloved, bestselling classics that inspired the movie *A Christmas Story* Before Garrison Keillor and Spalding Gray there was Jean Shepherd: a master monologist and writer who spun the materials of his all-American childhood into immensely resonant—and utterly hilarious—works of comic art. *In God We Trust: All Others Pay Cash* represents one of the peaks of his achievement, a compound of irony, affection, and perfect detail that speaks across generations. In *In God We Trust*, Shepherd's wildly witty reunion with his Indiana hometown, disproves the adage “You can never go back.” Bending the ear of Flick, his childhood-buddy-turned-bartender, Shepherd recalls passionately his genuine Red Ryder BB gun, confesses adolescent failure in the arms of Junie Jo Prewitt, and relives a story of man against fish that not even Hemingway could rival. From pop art to the World's Fair, Shepherd's subjects speak with a universal irony and are deeply and unabashedly grounded in American Midwestern life, together rendering a wonderfully nostalgic impression of a more innocent era when life was good, fun was clean, and station wagons roamed the earth. A comic genius who bridged the gap between James Thurber and David Sedaris, Shepherd may have accomplished for Holden, Indiana, what Mark Twain did for Hannibal, Missouri.

A Dictionary of Anglo-American Proverbs & Proverbial Phrases, Found in Literary Sources of the Nineteenth and Twentieth Centuries George B. Bryan, Wolfgang Mieder, 2005 *A Dictionary of Anglo-American Proverbs & Proverbial Phrases Found in Literary Sources of the Nineteenth and Twentieth Centuries* is a unique collection of proverbial language found in literary contexts. It includes proverbial materials from a multitude of plays, (auto)biographies of well-known actors like Britain's Laurence Olivier, songs by William S. Gilbert or Lorenz Hart, and American crime stories by Leslie Charteris. Other authors represented in the dictionary are Horatio Alger, Margery Allingham, Samuel Beckett, Lewis Carroll, Raymond Chandler, Benjamin Disraeli, Edward Eggleston, Hamlin Garland, Graham Greene, Thomas C. Haliburton, Bret Harte, Aldous Huxley, Sinclair Lewis, Jack London, George Orwell, Eden Phillpotts, John B. Priestley, Carl Sandburg, Harriet Beecher Stowe, Jesse Stuart, Oscar Wilde, and more. Many lesser-known dramatists, songwriters, and novelists are included as well, making the contextualized texts to a considerable degree representative of the proverbial language of the past two centuries. While the collection contains a proverbial treasure trove for paremiographers and paremiologists alike, it also presents

general readers interested in folkloric, linguistic, cultural, and historical phenomena with an accessible and enjoyable selection of proverbs and proverbial phrases.

The Organization of Information Daniel N. Joudrey, 2025-09-04 Organizing information is at the heart of the information professions, and the fifth edition of *The Organization of Information* is a key resource for anyone seeking up-to-date guidance. For millennia, information organization has been central to the functioning of libraries and other information institutions. The fifth edition of *The Organization of Information* provides a timely, detailed introduction to organizing in a variety of information contexts, including library cataloging, archival description, indexing, museum registration, metadata creation for digital collections, organizing on the web, linked data, and the development of the Semantic Web. Examining how and why information professionals organize information in contemporary libraries, archives, museums, and in a variety of online settings, expert Daniel N. Joudrey addresses the types of retrieval tools used throughout information organizations, the functionality of information systems, and the role and effect of technology on information organization. A discussion of encoding follows, explaining the basics of the MARC format, several XML schemas, and the developing BIBFRAME standard. A section on the principles and functionality of metadata covers metadata types, metadata characteristics, and tools used to manage metadata projects. A timely new chapter on conceptual models and frameworks articulates the visions behind the Library Reference Model (LRM), Records-in-Contexts (RiC), and the Semantic Web, including a discussion of RDF as its underlying structural model. Finally, the latter portion of the book describes practices related to the creation of descriptive metadata. Providing a thorough overview of the field's major issues, challenges, and standards, *The Organization of Information* is an essential resource for students in library and information science programs as well as for established professionals who want to refresh their knowledge of the latest developments in the field.

All Others Pay Cash Heinz Tschachler, 2008 The study is an interdisciplinary analysis of American culture through one central case study. It explores the cultural, social, and historic contexts of America's national money icon, covering such topics as origin, design, creative usages, counterfeiting, and its defenses by official America. Applying the theoretical model of a circuit of culture, the book attempts a comprehensive account of the ways in which dollar bills relate to social and political change, and how such events as the War of Independence, the Civil War, and the continuing War on Terror have shaped the themes of national and other identities. The book should offer graduate students and scholars alike an opportunity to explore the meanings and hidden agendas of the world's most powerful and most widely known as well as most widely used currency. In addition, it should make it possible to look at other currencies and forms of money in a similar way, much as it should help to refine and expand theoretically the analytic approach outlined in it.

Make 'em Laugh! Zeke Jarvis, 2015-04-07 This lighthearted and eye-opening book explores the role of comedy in cultural and political critiques of American society from the past century. This unprecedented look at the history of satire in America showcases the means by which our society is informed by humor—from the way we examine the news, to how we communicate with each other, to what we seek out for entertainment. From biographical information to critical reception of material and personalities, the book features humorists from both literary and popular culture settings spanning the past 100 years. Through its 180 entries, this comprehensive volume covers a range of artists—individuals such as Joan Rivers, Hunter S. Thompson, and Chris Rock—and topics, including vaudeville, cartoons, and live performances. The content is organized by media and genre to showcase connections between writers and performers. Chapters include an alphabetical listing of humorists grouped by television and film stars, stand-up and performance comics, literary humorists, and humorists in popular print.

Excelsior, You Fathead! Eugene B. Bergmann, 2006-01-01 Jean Shepherd (1921-1999), master humorist, is best known for his creation A Christmas Story, the popular movie about the child who wants a BB gun for Christmas and nearly shoots his eye out. What else did Shepherd do? He is considered by many to be the Mark Twain and James Thurber of his day. For many thousands of fans, for decades, “Shep” talked on the radio late at night, keeping them up way past their bedtimes. He entertained without a script, improvising like a jazz musician, on any and every subject you can imagine. He invented and remains the master of talk radio. Shepherd perpetrated one of the great literary hoaxes of all time, promoting a nonexistent book and author, and then brought the book into existence. He wrote 23 short stories for Playboy, four times winning their humor of the year award, and also interviewed The Beatles for the magazine. He authored several popular books of humor and satire, created several television series and acted in several plays. He is the model for the character played by Jason Robards in the play and movie A Thousand Clowns, as well as the inspiration for the Shel Silverstein song made famous by Johnny Cash, “A Boy Named Sue.” Readers will learn the significance of innumerable Shepherd words and phrases, such as “Excelsior, you fathead ” and observe his constant confrontations with the America he loved. They will get to know and understand this multitalented genius by peeking behind the wall he built for himself – a wall to hide a different and less agreeable persona. Through interviews with his friends, co-workers and creative associates, such as musician David Amram, cartoonist and playwright Jules Feiffer, publisher and broadcaster Paul Krassner, and author Norman Mailer, the book explains a complex and unique genius of our time. “Shepherd pretty much invented talk radio ... What I got of him was a wonder at the world one man could create. I am as awed now by his achievement as I was then.” – Richard Corliss, Time
