Have you ever wondered why the rich seem to get richer and the poor seem to get poorer? It's frustrating to feel like you're doing all the right things, but still not seeing the results you want, as your financial dreams seem to get farther and farther away and less and less possible as time goes on. Have you ever felt like you can't get past a certain income level no matter what you do? In the book Secrets of

Successful Selling, the author uses the example of a real salesman who always made nearly the same exact amount of money every year. Whether he was given a more lucrative territory, a more challenging territory, whether commissions were increased, or decreased, he always managed to make the same amount of money regardless of changes in outside conditions. Why? The way he thought about himself (whether consciously or unconsciously) was the reason for his stagnation. He thought of himself as the kind of person who made that particular amount of money, so his actions always found a way to subconsciously align with his thoughts. We are all hypnotized whether we realize it or not, whether for good or for bad. We are hypnotized by our beliefs about ourselves and our environment. And there lies the biggest difference between the wealthy and the not so wealthy. Your mindset makes all the difference. Negative thoughts about money, programmed into our heads all our lives, repel wealth and it is these very negative thoughts and beliefs that ultimately lead to unproductive or self-sabotaging behavior, that keeps you from being successful. Wealth is available to everyone, including you. You just have to tap into it. And re-programming yourself with optimistic thoughts about yourself, positive thoughts about money, and strategies of the wealthy in order to adopt a millionaire mindset is the first and most important step in financial advancement. Without it, nothing can improve. This book contains over 1100 powerful positive affirmations to help you reprogram your mind in various categories. It will help you: Overcome limiting beliefs, see your worth, and expect good things to happen to you Change your relationship to money and develop an abundance mindset Take accountability and become an action taker Become a confident leader of yourself and others Unlock the keys to building and growing wealth And more... *Secrets of the Millionaire Mindset & Wealth Growing Strategies* Michael Anthony, 2015-12-13 Wealthy people will tell you that it is not very difficult to be wealthy. Because, as the Bible says, As a man thinketh, so is he. We can achieve almost anything when our subconscious thoughts match our conscious thoughts. Only consciously thinking about wealth will not attract wealth if subconsciously we are opposing wealth or are afraid of wealth at some degree. Repeating affirmations helps change the subconscious thought pattern. Sometimes there may be some obstacles to overcome, like releasing some thought blocking money concerns about acquiring more money. But affirmations is the easiest way to reprogram the subconscious. Affirmations for wealth will reprogram your mind about wealth. The right money mind-set, as well as the financially savvy habits that go with it. The primary difference between the wealthy and the rest of us is that they're in control of their money, they don't let money control them. They have taken the time to learn how to work successfully with money, and as a result, they are the captain of their ship. If you want to create a million-dollar business, you must first cultivate a millionaire mindset. What that means is that you must already be, in your thinking, a million-dollar business owner where a million-dollar cash flow is normal for you. Millionaire business owners focus on doing great things, not creating great businesses. They pour their heart and soul into leaving a legacy of great causes they are passionate about. To do that, you must have firmly fixed in your mind the core purpose for your business. Make sure it is bigger than your own self. Remember: It's not about making money; it's about making our world a better place for you and others to live in. Look for inspiration, not products. What inspires you? Inspiration, rather than looking outward for products or services you think will line your pockets, million-dollar returns will flow to you. Know that thoughts become things. The Law of Attraction states that what you think about comes about. That's because your thoughts attract and magnetize other thoughts like them. Therefore, whatever you think about, that is what you will multiply in your business. Your business is a mirror of your own inner thinking.

*Attract Money Today* Nathan Livingston, 2010-10-28 Affirmations are powerful, positive statements or self-suggestions

that are frequently thought or spoken. When it comes to positive self-image psychology, affirmations are the indispensable tools of transformation. Most people have negative self-talk. Negative self-talk is that inner voice inside that is prone to complaining and blaming. We experience negative self-talk whenever we inwardly or outwardly say self depreciating or self defeating statements about our self. Statements like I can't do that, I am not good enough, I am broke, You make me sick, I can't get ahead, are considered negative self-talk. Some people have been self programmed with such intense dense levels of negative self-talk that it requires strong continued positive self-talk or self encouragement to treat the subconscious mind back to health and well being. Therefore, this book also includes some of the world's most Powerful, Positive Statements of Truth that will inspire the individual consciousness to health, wealth, success, love, happiness, peace, power and prosperity!! So each day during morning, afternoon and evening meditations, affirm these statements hundreds of times each day. In a short time, you will notice a huge improvement in your self-esteem and self-image. Repeating these positive statements to yourself (while looking in the mirror) will help these statements reach your subconscious mind faster. You will discover a renewed and rich consciousness of beauty, joy and total mental and physical well being.
