Geología imprescindible José Pablo López, Sergio Nieva, Verónica Rosas, Carlos Bazán, María Eugenia Vides, Miguel Adolfo Báez, Alison M. Soledad Córdoba, Delia Lorena Herazo, Un libro introductorio a las Ciencias de la Tierra, pensado y elaborado de manera accesible para docentes y para un público adulto que se sienta atraído por conocer cómo funciona el Planeta Tierra, de qué manera se estudia su evolución y cuáles son las razones por las cuales la geología es la única ciencia capaz de reconstruir la historia de la Tierra. El libro contiene una selección de temas geológicos que responden a los diseños curriculares de la educación primaria y secundaria vigentes en la Argentina, con ejemplos y fotografías del país. Sus autores, egresados de la Facultad de Ciencias Naturales e Instituto Miguel Lillo de la Universidad Nacional de Tucumán, han encarado un complejo proceso de transposición didáctica que requirió selección de temas, secuenciación y empleo de un lenguaje accesible, evitando la terminología erudita y abstrusa para el público al que está dirigido el texto. Cada tópico concluye con actividades y un glosario, que constituyen una fuente de inspiración para que los docentes, a partir de sus conocimientos didácticos, puedan diseñar actividades adecuadas al nivel de sus alumnos. El último de los tres capítulos introduce un enfoque innovador, ya que desarrolla y explica con claridad los procesos geológicos que permiten comprender el origen y evolución de cada uno de los recursos. Se trata de un libro pionero y una hipótesis de trabajo pensada para resolver las demandas de apoyo bibliográfico por parte de los docentes que desean capacitarse para enseñar unas Ciencias de la Tierra que tengan sentido y sean útiles para la formación de ciudadanos). [Dr. Héctor Luis Lacreu - Universidad Nacional de San Luis. Doctor en Ciencias Geológicas - Especialista en docencia universitaria] “La Geología es una ciencia

cautivante, compleja y dinámica. Por eso es difícil de transmitir sintéticamente. Uno de los objetivos de la Asociación Geológica Argentina es difundir el conocimiento geológico en el público no especializado e interactuar con la comunidad. Por este motivo hemos decidido dar el apoyo necesario a este libro de texto que va más allá del público geológico especializado". [Dra. Cecilia M. Spagnuolo. Presidente de la Asociación Geológica Argentina]
