knowing how to sit still in one room. Between us and heaven or hell there is only life, which is the frailest thing in the world. Do you wish people to think well of you? Don't speak well of yourself. Happiness is neither without us nor within us. It is in God, both without us and within us. We understand nothing of the works of God unless we take it as a principle that He wishes to blind some and to enlighten others.

The Thought of Blaise Pascal Blaise Pascal, 1905

Blaise Pascal Thoughts Blaise Pascal, 2024-04-04 Blaise Pascal was one of the great geniuses of humanity and developed important works as a physicist, inventor, philosopher, and Catholic thinker. Born in France, while still young, he was responsible for significant advancements in the study of fluids, natural and applied sciences, and particularly in mathematics, being one of the precursors of probability analysis. From a mystical experience in 1654, he began to dedicate himself intensely to philosophy and theology, areas in which he also excelled. His work *Pensées* condenses his worldview into faith and spirituality. In it, we find what is probably his most quoted phrase: The heart has its reasons, of which reason knows nothing.

Raising Abel Ronald Ragotzy MD,2012-12-06 Raising Abel assumes that the Bible would not bother telling us about a cunning serpent, a murderous brother, or a resinous gopher tree, if they didnt have something to do with the deeper topic of faith. After all, isnt the Bible the authority on faith? Raising Abel explores the most familiar chapters of Genesis, not as a collection of stories of the beginning of time, but as our first and best guide to the subject of faith. The author, as a physician, explains faith within the framework of wellness, dividing the Genesis stories into four parts that answer four questions. The Premise: What does healthy faith look like? (Genesis 12) The Problem: What can cause this healthy state to become diseased? (Genesis 35) The Prescription: What medicine is needed to restore us to a healthy faith? (Genesis 69:17) The Practice: What must we do to maintain this healthy faith? (Genesis 9:1811) Raising Abel reassures us that there is something greater than a perfectly good world; it is an imperfect world plus faith. In a perfect world there would be no need of faith. Get ready to experience faith in a whole new light!

Pensees Blaise Pascal,2015-01-05 A CHRISTIAN CLASSIC For after all what is man in nature? A nothing in relation to infinity, all in relation to nothing, a central point between nothing and all and infinitely far from understanding either. The ends of things and their beginnings are impregnably concealed from him in an impenetrable secret. He is equally incapable of seeing the nothingness out of which he was drawn and the infinite in which he is engulfed. -Blaise Pascal, Pensées No. 72 Pascal's most influential theological work, referred to posthumously as the Pensées (Thoughts), was not completed before his death. It was to have been a sustained and coherent examination and defense of the Christian faith. The first version of the numerous scraps of paper found after his death appeared in print as a book in 1669 and soon thereafter became a classic. Pascal's Pensées is widely considered to be a masterpiece.
