Inside Apple Adam Lashinsky, 2012-01-25 In INSIDE APPLE, Adam Lashinsky provides readers with an insight on leadership and innovation. He introduces Apple business concepts like the 'DRI' (Apple's practice of assigning a Directly Responsible Individual to every task) and the Top 100 (an annual event where that year's top 100 up-and-coming executives were surreptitiously transported to a secret retreat with company founder Steve Jobs). Based on numerous interviews, the book reveals exclusive new information about how Apple innovates, deals with its suppliers, and is handling the transition into the Post Jobs Era. While INSIDE APPLE provides a detailed investigation into the unique company, its lessons about leadership, product design and marketing are universal. INSIDE APPLE will appeal to anyone hoping to bring some of the Apple magic to their own company, career, or creative endeavour.

Leading Apple With Steve Jobs Jay Elliot, 2012-08-23 A former Senior VP of Apple shares how Steve Jobs motivated people to do the best work of their lives Jay Elliot was hired personally by Steve Jobs, just in time to accompany him on the last of his historic visits to Xerox's Palo Alto Research Center, the visits that changed the course of computing. As Senior VP of Apple, Jay served as Steve's right-hand man and trouble-shooter, overseeing all corporate operations and business planning, as well as software development and HR. In Leading Apple with Steve Jobs, Jay details how Steve managed and motivated his people—and what every manager can learn from Jobs about motivating people to do the best work of their lives. Steve Jobs used the phrase Pirates! Not the Navy as a rallying cry—a metaphor to Think Different. In the days of developing the Macintosh, it became a four-word mission statement. It expresses the heart of Apple and Steve. The management principles that grew out of that statement form the backbone of this book. Explains how to find talented people who will understand your objectives and be able to make a contribution to that effort Lists traits that can determine whether

a person will be so committed to the vision that they will provide their own motivation Explains how to ensure that your employees hold an allegiance to the captain and to his/her shipmates, and also possess the ability to come up with original, unique ways to approach a problem, and be self-guided with a strong sense of direction Leading Apple with Steve Jobs will shift your thought paradigm and inspire you to assemble and lead innovative teams.

Jony Ive Leander Kahney, 2014 Jony Ive's designs have not only made Apple one of the most valuable companies in the world; they have overturned entire industries, from music and mobile phones to PCs and tablets. But for someone who has changed the world as much as he has, little is widely known about Apple's senior vice president of industrial design. Unlike his former boss and creative partner Steve Jobs, Ive shuns the spotlight. Naturally shy and soft-spoken, he lets his work speak for itself and concerns himself only with his craft.
