Thomas Masters Markoe

Notes from Underground; the Double Fyodor Dostoyevsky, 1972-07-30 'It is best to do nothing! The best thing is conscious inertia! So long live the underground!' Alienated from society and paralysed by a sense of his own insignificance, the anonymous narrator of Dostoyevsky's groundbreaking *Notes from Underground* tells the story of his tortured life. With bitter sarcasm, he describes his refusal to become a worker in the 'ant-hill' of society and his gradual withdrawal to an existence 'underground'. The seemingly ordinary world of St Petersburg takes on a nightmarish quality in *The Double* when a government clerk encounters a man who exactly resembles him - his double perhaps, or possibly the darker side of his own personality. Like *Notes from Underground*, this is a masterly study of human consciousness. Jessie Coulson's introduction discusses the stories' critical reception and the themes they share with Dostoyevsky's great novels.

Original Thinking Glenn Aparicio Parry, 2015-04-14 In *Original Thinking*, Glenn Aparicio Parry delves into the evolution of Western thought to recover the living roots of wisdom that can correct the imbalances in our modern worldview. Inspired by groundbreaking dialogues that the author organized between Native American elders and leading-edge Western scientists to explore the underlying principles of the cosmos, this book offers a radical revisioning of how we think. Asking questions such as, Is it possible to come up with an original thought?, What does it mean to be human?, and How has our thinking created our world today?, Parry challenges us to consider many of our most basic assumptions. To think originally--as in thinking new thoughts that have never been thought or said before--is according to Parry, largely an illusion. So, too, is the idea of linear human progress. Most of us have traveled far from our ancestral lands, and in so doing, lost connection with place, the origin of our consciousness. *Original Thinking* offers a radical revisioning of how we think and what it means to be human. It invites us to reintegrate our hearts with our heads and to expand our self-imposed narrowing of consciousness. In doing so we reconnect with the living, original source--nature and her interconnected elements and cycles--and embrace the communion of old and new, rational and intuitive, and masculine and feminine. Ultimately, Parry shows us how to create the tapestry of truly original thinking and to restore thought as a blessing, as a whole and complete transmission from Spirit. Contents PART ONE (ORIGIN): Is it possible to come up with an original thought? Chapter 1. Original Thought, Time, and the Unfolding of

Consciousness Chapter 2. Looking Backward to Go Forward Chapter 3. Wheels Within Wheels Chapter 4. It's About Time

The Essence of Thought Chapter 11. To Make Thought Whole Again Chapter 12. To Think Without Separation Chapter 13. Re-Thinking the Dismal Science Chapter 14. Toward An Original Economics PART FOUR (RENEWAL): Can education promote the renewal of original thinking? Chapter 15. Education as Renewal Chapter 16. Childhood and Education Chapter 17. Higher Education Chapter 18. A New (and Ancient) Vision Chapter 19. A Vision for Higher Education
