

Villa Of The Papyri Herculaneum

David Kirk

The Library of the Villa Dei Papiri at Herculaneum David Sider, 2005 The recovery in the 1750s of more than a thousand scorched papyrus rolls from the Villa dei Papiri in ancient Herculaneum caused great excitement among contemporaries. The find held the tantalizing possibility of the rediscovery of lost masterpieces by classical writers. Although the papyrus rolls were charred, some quite severely, much of their contents could be read. David Sider describes the long and difficult history of attempts to unwind the damaged rolls, a task made more frustrating because the hoped-for lost masterpieces have yet to emerge. He discusses the fragmentary Greek and Latin texts in those papyri that have been opened and deciphered, putting them in the context of writing and literacy in antiquity. Sider also describes the form of ancient Greek books and of the papyrus sheets on which they were written. He provides an account of attitudes toward books in Greece and Rome and surveys other libraries in the ancient world, both private and civic. Written for the general reader, the book provides an overview of the only library to have come down to us from antiquity.--BOOK JACKET.

The Villa of the Papyri at Herculaneum Mantha Zarmakoupi, 2010-12-23 The Villa of the Papyri is a unique archaeological site and has been very influential in the field of classical studies. The papyri (the only intact library to survive from Greco-Roman antiquity) and bronze sculptures found in the villa have contributed to our knowledge of the ancient world and the villa has become for us the "ideal model" of Roman luxury villa culture. This volume brings together papers delivered by experts in various fields addressing the cultural significance of this ancient site in its contemporary Roman context as well as its cultural reception from its discovery over two hundred and fifty years ago to the most recent excavations in the late twentieth century. They also explore the ways in which digital archaeology can assist our efforts to understand and investigate ancient sites. Topics treated include the Villa's architecture, decoration, and content (i.e., wall-paintings, sculptures, and papyri); their reception since the 18th century; and the current state of knowledge based on the recent partial excavations in the Villa, presented here in English for the first time. Furthermore, the use of digital models of the Villa that incorporate the data from the new excavations and a discussion on the ways in which such models may be used for educational and research purposes are also presented.

Buried by Vesuvius Kenneth Lapatin, 2019-07-16 The first truly comprehensive look at all aspects of the Villa dei Papiri at Herculaneum, from its original Roman context to the most recent archaeological investigations. The Villa dei Papiri at

Herculaneum, the model for the Getty Villa in Malibu, is one of the world's earliest systematically investigated archaeological sites. Buried by the eruption of Mount Vesuvius in 79 CE, the Villa dei Papiri was discovered in 1750 and excavated under the auspices of the Neapolitan court. Never fully unearthed, the site yielded spectacular colored marble floors and mosaics, frescoed walls, the largest known ancient collection of bronze and marble statuary, intricately carved ivories, and antiquity's only surviving library, with over a thousand charred papyrus scrolls. For more than two and a half centuries, the Villa dei Papiri and its contents have served as a wellspring of knowledge for archaeological science, art history, classics, papyrology, and philosophy. Buried by Vesuvius: The Villa dei Papiri at Herculaneum offers a sweeping yet in-depth view of all aspects of the site. Presenting the latest research, the essays in this authoritative and richly illustrated volume reveal the story of the Villa dei Papiri's ancient inhabitants and modern explorers, providing readers with a multidimensional understanding of this fascinating site.

Herculaneum and the Villa of the Papyri Amedeo Maiuri, 1962

The Villa Dei Papiri at Herculaneum Carol C. Mattusch, Henry Lie, 2005 The Villa dei Papiri at Herculaneum-buried during the eruption of Mt. Vesuvius in A.D. 79, then rediscovered in 1750-contained a large collection of bronze and marble statuary and busts. Before they were published or exhibited, the sculptures were restored so as to appear whole: it is thus that they helped to shape early modern tastes in classical sculpture. The book describes the nature of the ancient sculptures and their impact on the modern public. Their chance discovery affected the interpretation of the statues-their styles and subjects-over the course of the next 250 years. The ancient sculptures were copied extensively in reproductions of various sizes and patinas. The author traces the popularity of these copies in Europe and America. Also presented in the book is a technical study of the production techniques and materials of the sculptures, as well as of their modern restoration history. Scientific analyses and detailed photographs reveal both how the pieces were cast and pieced together in antiquity and how they were restored in the eighteenth century. Even though this collection has been known for two and a half centuries, this book covers for the first time the eclectic nature of the sculptures, their actual condition, and their quality, pointing in some cases to mass production.
