Panarabism And Arab Nationalism Tawfic E Farah,2019-06-04 Now that the oil era has come to a very unceremonious end in the Arab Mashreq, it is time for a sober and somber assessment-a selfcriticism- of the Arab body politic. Indeed, this effort at self-criticism is already underway, led by the many symposiums sponsored by the Center for Arab Unity Studies and the Arab Intellectual Forum.

*Pan-Arabism and Arab Nationalism* Tawfic Farah,1987

Pan-Arabism Before Nasser Michael Scott Doran,1999 This book aims to alter profoundly the accepted version of the history of post-World War II Egyptian foreign policy. Michael Doran convincingly demonstrates the absence of any true pan-Arab front from the very beginning of the Arab League. Pan-Arabism before Nasser: Egyptian Power Politics and the Palestine Question argues that, in the late 1940s, Cairo pursued a single-minded foreign policy designed to drive Great Britain, the enemy of Egyptian independence, out of the Middle East. This struggle generated the secondary goal of Egyptian foreign policy: undermining the Middle Eastern states working to sustain British influence in the region. While uncovering a significant dimension of the Arab-Israeli conflict, Doran also lays the foundation for a new understanding of Egyptian foreign policy. He argues persuasively that pan-Arabism, a policy that historians have traditionally associated with the rise of Gamal Abd al-Nasser in the middle 1950s, actually originated under the old regime.

**The Arab World After Desert Storm** Muhammad Faour,1993 Drawing on a wide range of Arabic and Western sources and his own experiences, and providing in-depth comparisons of six key Arab states--Algeria, Egypt, Iraq, Jordan, Kuwait, and Saudi Arabia--Faour challenges the notion that Desert Storm solved more problems than it created. The human costs, he demonstrates have been appalling. The economic costs have likewise been enormous. And the already precarious state of inter-Arab relations has atomized, with old disputes reviving and new antipathies thriving. What the Gulf War did not change was the potential for political instability. Although authoritarian regimes remained intact, the war both spurred popular demands for democracy and encouraged militant Islamic movements--back cover.

*The Emergence of Pan-Arabism in Egypt* I. Gershoni,1981

The PLO Charters of 1964 and 1968 and the Hamas Charter of 1988 Philipp Holtmann,2009-06 Scientific Essay from the

year 2005 in the subject Politics - International Politics - Region: Near East, Near Orient, language: English, abstract: Palestinian struggle stood on different ideological platforms. After 1948, it was an articulation of Pan-Arabism. Following the 1967 war, it has been represented by a nationalist territorial vision under the banner of revolutionary struggle. In the late 1980s, the Palestinian Hamas presented an Islamist territorial platform that was antagonistically opposed to secularism. Through the scope of the PLO Charter of 1964, its amendment of 1968 and the Hamas Charter of 1988, this paper examines different visions of Palestinian struggle and explores how they developed. The conclusion offers a brief assessment of the driving forces behind them.

**The Establishment of the Arab League Security Force, 1961-63** Terry M. Mays, 2025-11-07 This book traces the establishment of the Arab League's little-known first peacekeeping operation (the first non-United Nations, regionally mandated peacekeeping operation after 1945), deployed to Kuwait in 1961-1963. It follows how the Arab League, a loose association of newly independent Arab states with conflicting views on the concepts of Arab nationalism and unity, could work through its many member differences to mandate and deploy the Arab League Security Force (ALSF). The chapters follow a chronological format that provides a review behind the first test of Arab League military coordination during the 1948 Israeli War of Independence and the subsequent development of new parameters for military cooperation. The book reviews British colonial ties with Kuwait and the significance of the latter to post-World War II regional and international politics. Iraq threatened annexation immediately after Kuwaiti independence resulting in failed discussions within the United Nations Security Council and then within the Arab League itself. Chapters trace the details behind the debate in both organizations as well as the issues faced by the Arab League to actually deploy the ALSF and later prevent its breakup after the 1963 Iraqi coup. A valuable read for those researching Middle Eastern history, peacekeeping, and the Arab League, this book sheds light on the geopolitical context that brought about the creation of the ALSF.

Middle East Politics and International Relations Shahram Akbarzadeh, 2022-10-28 As featured on BookAuthority's list of best International Relations books to read in 2024. Continuing civil wars and humanitarian crises, coupled with a changing geopolitical dynamic, highlighted by increased Russian and Chinese presence in the Middle East, call for new thinking. What happens in the Middle East has major global repercussions. This second edition of the ground-breaking textbook Middle East Politics and International Relations: Crisis Zone provides a comprehensive overview of contemporary Middle East politics. The book traces the roots of recent events across the region's modern history, enabling readers to appreciate both the significance of such events and the importance of history in influencing their outcomes. Structured chronologically, with updated stand-alone chapters containing history, context and contemporary analyses, this edition examines a series of interconnected themes and issues, including external intervention, political manifestations of Islam, the role of political authority, nationalism, self-determination and human rights. The book provides a valuable teaching tool, both in its content

and structure. Students will gain a deeper understanding of a changed Middle East and the evolving role of states and non-state actors in the region.

The Making of Global International Relations Amitav Acharya, Barry Buzan, 2019-02-14 This book presents a challenge to the discipline of international relations (IR) to rethink itself, in the light of both its own modern origins, and the two centuries of world history that have shaped it. By tracking the development of thinking about IR, and the practice of world politics, this book shows how they relate to each other across five time periods from nineteenth-century colonialism, through two world wars, the Cold War and decolonization, to twenty-first-century globalization. It gives equal weight to both the neglected voices and histories of the Global South, and the traditionally dominant perspectives of the West, showing how they have moved from nearly complete separation to the beginnings of significant integration. The authors argue that IR needs to continue this globalizing movement if it is to cope with the rapidly emerging post-Western world order, with its more diffuse distribution of wealth, power and cultural authority.

Regional Conflict Management Paul F. Diehl, Joseph Lepgold, 2003-02-11 Since the 1990s, the international security environment has shifted radically. Leading states no longer play as great a role in regional conflicts, and thus a new opportunity for regional conflict management has opened. This collection of original essays is one of the first to examine the implications and efficacy of regional conflict management in the new world order. The editors' general overview provides a framework for analyzing regional conflict management efforts and the kinds of threats faced by actors in different regions of the world. Case studies from every major world region then place these factors into specific regional contexts and address a variety of challenges. Drawing together a diverse group of scholars from around the world, *Regional Conflict Management* provides key lessons for understanding conflict management over the globe.

Panarabism and Arab Nationalism Tawfic E Farah, 2021-06-02 This text focuses on the history of and prospects for Arab unity--an issue of critical importance to students and scholars of Middle East politics and culture. Dr. Farah combines analysis of valuable survey research with historical and theoretical works by leading Arab and Western scholars that interpret the current debate on the status of Pan-Arabi

*In Search of Arab Unity 1930-1945* Yehoshua Porath, 2014-01-14 First Published in 1986. The Arab League, founded in 1945, was regarded by many as a ploy of the British to secure the cooperation and goodwill of the Arabs during the Second World War and as an instrument to ensure the British presence in the Middle East after the war. This book presents a different picture. The British policy was a far cry from supporting the Arab unity movement. On the contrary, the British Government tried to forestall that movement or, at least, to postpone its implementation until after the end of the Second World War. Anthony Eden's famous Mansion House speech of May 1941 was not intended to signal a drastic change in the British Middle Eastern policy, but rather to fore stall a strongly pro-Zionist proposal which had been put forward by Winston

Churchill. It is true that there were some British personalities (mainly unofficial) who supported the Arab unity trend, but the thrust of their positive argument was that a broader framework of Arab federation would be instrumental in helping to solve the intractable problem of Palestine. What might surprise some readers is the fact that some highly important Zionist leaders were the main protagonists of that idea, believing that if the Arabs were to obtain satisfaction of their national aspirations through unity they {the Arabs} would adopt a much more moderate attitude towards the Zionist movement in Palestine. The Arab leaders and rulers tried to bring about a higher degree of cooperation or even a federation of their countries, either for dynastic or political reasons. But the British negative reaction was not always crystal clear, owing to the more favourable attitude typical of many, including the top, British representatives in the Middle East.

**Greater Syria** Daniel Pipes,1992-03-26 While for many years scholars and journalists have focused on the more obvious manifestations of political life in the Middle East, one major theme has been consistently neglected. This is Pan-Syrian nationalism--the dream of creating a Greater Syria out of an area now governed by Syria, Lebanon, Israel, Jordan, and Turkey. Though not nearly as well known as Arab or Palestinian nationalism and hardly studied in depth, Pan-Syrianism has had a profound effect on Middle Eastern politics since the end of World War I. In Greater Syria, the noted Middle East scholar Daniel Pipes provides the first comprehensive account of this intriguing, important, and little understood ideology.

**The Panafricanist Worldview** Opoku Agyeman,1985

Sovereign Creations Malik Mufti,1996 Pan-Arab unionism ignited passions and dominated politics in the Middle East throughout the 1950s and 1960s and has continued to reassert itself periodically. In this elegantly written study, Malik Mufti investigates the persistence and the failure of pan-Arab initiatives, examining their significance in the political development of Syria and Iraq.

*Revolutionary Emotions* Assistant Professor of Political Science Silvana Toska,2024-10-25 For centuries, revolutionaries have spoken of the emotional arousal that motivated them to revolt. Studies of revolutions, however, rarely give these emotional narratives the power that actors themselves recount. This book argues that revolutionary waves, from 1848 to the present, cannot be explained without the emotions that motivated potential revolutionaries to imitate revolts in neighboring states. The shared identity of revolutionaries across borders leads to a shared emotional arousal and adoption of protest frames and methods. By grounding the theory in revolutionaries' emotional narratives and breaking down the dichotomies that plague revolution research-structure/agency, domestic/ international--*Revolutionary Emotions* provides a powerful new theory of revolutionary diffusion and success.

The Emergence of Pan-Arabism in Egypt Israel Gershoni,1929

**Pan-movements in the Third World** Dr. Shaukat Ali,1976

**Between Memory and Desire** R. Stephen Humphreys,1999 R. Stephen Humphreys's new book presents a much-needed

and thoughtful analysis of Islam's place in today's Middle East. In clear, accessible language, he examines both the medieval and modern history of the region to show the interweaving of the sacred and secular in its political and intellectual life. *Between Memory and Desire* reminds us how Middle Easterners remember the past: the colonial era as a time of shame, the post-independence period as disappointing, and the Middle Ages as glorious. Driven by these memories, they struggle to liberate themselves from that past and to seize what they view as rightfully theirs.
