Huang Di Nei Jing Su Wen Paul U. Unschuld,2003-04-08 The Huang Di nei jing su wen, known familiarly as the Su wen, is a seminal text of ancient Chinese medicine, yet until now there has been no comprehensive, detailed analysis of its development and contents. At last Paul U. Unschuld offers entry into this still-vital artifact of China's cultural and intellectual past. Unschuld traces the history of the Su wen to its origins in the final centuries B.C.E., when numerous authors wrote short medical essays to explain the foundations of human health and illness on the basis of the newly developed vessel theory. He examines the meaning of the title and the way the work has been received throughout Chinese medical history, both before and after the eleventh century when the text as it is known today emerged. Unschuld's survey of the contents includes illuminating discussions of the yin-yang and five-agents doctrines, the perception of the human body and its organs, qi and blood, pathogenic agents, concepts of disease and diagnosis, and a variety of therapies, including the new technique of acupuncture. An extensive appendix, furthermore, offers a detailed introduction to the complicated climatological theories of Wu yun liu qi (five periods and six qi), which were added to the Su wen by Wang Bing in the Tang era. In an epilogue, Unschuld writes about the break with tradition and innovative style of thought represented by the Su wen. For the first time,

health care took the form of medicine, in that it focused on environmental conditions, climatic agents, and behavior as causal in the emergence of disease and on the importance of natural laws in explaining illness. Unschuld points out that much of what we surmise about the human organism is simply a projection, reflecting dominant values and social goals, and he constructs a hypothesis to explain the formation and acceptance of basic notions of health and disease in a given society. Reading the *Su wen*, he says, not only offers a better understanding of the roots of Chinese medicine as an integrated aspect of Chinese civilization; it also provides a much needed starting point for discussions of the differences and parallels between European and Chinese ways of dealing with illness and the risk of early death.

YinYang Bipolar Relativity: A Unifying Theory of Nature, Agents and Causality with Applications in Quantum Computing, Cognitive Informatics and Life Sciences Zhang, Wen-Ran, 2011-03-31 YinYang bipolar relativity can trace its philosophical origins to ancient Chinese YinYang cosmology, which claims that everything has two sides or two opposite, but reciprocal, poles or energies. More specifically, this discipline is intended to be a logical unification of general relativity and quantum mechanics. *YinYang Bipolar Relativity: A Unifying Theory of Nature, Agents and Causality with Applications in Quantum Computing, Cognitive Informatics and Life Sciences* presents real-world applications of YinYang bipolar relativity that focus on quantum computing and agent interaction. This unique work makes complex theoretical topics, such as the ubiquitous effects of quantum entanglement, logically comprehensible to a vast audience.

Spiritual Healing ...of Our Eternal Souls for all Time! Christopher Alan Anderson, 2016-01-18 In *Spiritual Healing ...of Our Eternal Souls for all Time!* the author tackles the question of universal karma/original sin and how we may free ourselves from that, not just in the eternal sense but in the present moment. As American writer Henry David Thoreau stated, Most men lead lives of quiet desperation and go to the grave with the song still in them. It is the present moment the author wants to address and in so doing, he contends, the eternal takes care of itself. The author presents this writing as a foundational shift (a recalibration of our very souls!) that transcends our current religions and philosophies both East and West. Keywords: Philosophy, Metaphysics, Spirituality, Sexuality, Soul, Light, Love, Relationships, Man, Woman
